LEGISLATIVE DEPARTMENT,

The 27th December, 1841.

The following Draft of a proposed Act was read in Council for the first time on the 27th of December 1841.

Act No. —— of 1841.

An Act for amending the Law concerning the jurisdiction and procedure of the Courts of Ameens and Moonsiffs.

I.—In modification of Clause 4, Section 18, Regulation V. of 1831, Bengal Code, it is hereby enacted, that in the trial and decision of all original Suits referred to them by the Judge, the Principal Sudder Ameens shall be guided by the rules established for the conduct of business in the Courts of the Zillah and City Judges.

II.—And it is hereby enacted, that the provisions of Section 4, Act No. XXV. of 1837, in respect to appeals from decisions passed by Principal Sudder Ameens, in Suits of the nature specified therein, be extended to all interlocutory orders passed by those Officers in such Suits.

III.—And it is hereby enacted, that such parts of Regulation XXII. 1814, as prohibit the Sudder Ameens and Moonsiffs from requiring security from defendants; or from attaching their property in cases pending before them; or from realizing fines imposed by them without first obtaining the sanction of the Zillah Judge, be repealed.

IV.—And it is hereby enacted, that it shall be competent to the Sudder Ameens and Moonsiffs to demand security from the defendant, under the provisions of Sections 4 and 5, Regulation II. 1806, in cases pending fore them; and also to proceed, without reference to the Zillah Judge, to the realization of fines imposed by them, provided that all orders passed by the Sudder Ameens and Moonsiffs under this Section, be subject to an appeal to the Zillah Judge.

V.—And it is hereby enacted, in modification of Section 22, Regulation V. of 1831, that decrees passed in the Courts of the Judges or Principal Sudder Ameens, in cases of appeal from the decisions of the Sudder Ameens and Moonsiffs, shall be executed by the Courts in which the original decisions were passed, under the general rules prescribed for the execution of decrees passed by those Courts—applications for the execution of such decrees shall be presented, together with a certified copy of the decree of the Judge or Principal Sudder Ameen to the Court of original jurisdiction. In appeals from the orders of the Moonsiff or Sudder Ameen in such cases, the decision of the Zillah or City Judge shall be final.

VI.—And it is hereby enacted, that Clause 2, Section 13, Regulation XXIII. 1814, and Clause 4, Section 5, Regulation V. 1831, be repealed.

VII.—And it is hereby enacted, that no person whatever shall, by reason of place of birth, or by reason of descent, be in any Civil proceeding whatever, exempted from the jurisdiction of the Courts of the Moonsiffs, in the Territories subject to the Presidency of Fort William in Bengal.

VIII.—And it is hereby enacted, that persons invested with the powers of Moonsiffs shall be competent to receive, try, and determine suits of every description under the restrictions as to local jurisdiction and value of property mentioned in Clauses 1, 2 and 3, Section 5, Regulation V. 1831. Provided, however, that no Moonsiff shall try any suit, in which he himself, or his relatives, or dependants, or the Vakeels or Officers of his Court shall be a party.

IX.—And it is hereby enacted, that in cases, where by reason of the above Section, a Moonsiff cannot try a suit because he himself, or his relatives, or dependants, or the Vakeels or Officers of his Court are a party to the suit, it shall nevertheless be competent to the Moonsiff to receive the suit, and forward it to the Judge of the Zillah to which he is subordinate, who may thereupon refer the same for trial and decision to any other Moonsiff of the District.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be reconsidered at the first meeting of the Legislative Council of India, after the 27th day of March 1842.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58' 30'' N. Long. 88° 4' East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot, Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

(Signed) T. T. HARINGTON,
Master Attendant.

By order of the Marine Board,
C. B. GREENLAW, *Secretary.*
Fort William, the 18*th October*, 1841.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

"It has been proposed by the Master Attendant, and approved of by the Marine Board, to change the Cruizing Ground of the Pilot Vessels during the S. W. Monsoon, or between the 15th of March and 15th of September from their present Station of Point Palmyras, to a position 6 or 8 miles S. W. from the South Channel Buoy in from 16 to 20 fathoms, and the following directions are offered as a guide to direct Vessels from False Point Light House to the New Cruizing Station."

"False Point Light House is in Latitude 20° 19½' N. and Longitude 86° 47' E., and that of the South Channel Buoy in Latitude 20° 59' N. and Longitude 88° 4' E., and bears from the former N. 61 E. true or N. E. by E. ½ E. by Compass, distant 83 miles, and is laid in 12 fathoms."

"By an inspection of the Chart it will be seen that the Bank of Soundings off Point *Palmyras* extend in a *direction towards the tail* of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hoogley deposit which is Sand and Mud with shining specks) is a gravelly substance composed of Sand Shells and small Pebbles discharged from the "Kunka" and other Rivers near Point Palmyras, the lighter materials of which being carried further out, is deposited and forms what is called the Pilot's Ridge, which in crossing to the N. W. shews a little less water than on either side, and in coming from Seaward you Shoal rather suddenly from 28 to 23 fathoms upon its Eastern edge. It is composed of a shelly Sand or Minute Gravel, of a reddish or rusty brown colour."

"The best Guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station will be to run down the edge of the Pilot's Ridge, and having made the Light House and brought it to bear about W. S. W. or S. W. by W. and distant by computation from 10 to 15 miles, should steer to the E. N. E., and having gradually encreased her depth of water to 23 fathoms upon the Eastern edge of the Ridge, she should regulate her course to keep between it and 27 fathoms, when, by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels (if the above limits are kept within) either by getting too far to Windward or falling to Leeward, for the Soundings encrease so rapidly to Seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it, and 23 fathoms the same distance to the Westward of it."

"The Soundings to Seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken Shells mixed with it."

(Sd.) RD. LLOYD, *Capt. I. N.,*
Offg. M. S. Genl.

The price of the Chart will be Rupees 2 each, and parties desirous of being supplied are requested to send their names for registry at this Office.

LEGISLATIVE DEPARTMENT,

THE 27TH DECEMBER, 1841.

The following Draft of a proposed Act was read in Council for the first time on the 27th of December 1841.

ACT No. —— OF 1841.

An Act for amending the Law concerning the jurisdiction and procedure of the Courts of Ameens and Moonsiffs.

I.—In modification of Clause 4, Section 18, Regulation V. of 1831, Bengal Code, it is hereby enacted, that in the trial and decision of all original Suits referred to them by the Judge, the Principal Sudder Ameens shall be guided by the rules established for the conduct of business in the Courts of the Zillah and City Judges.

II.—And it is hereby enacted, that the provisions of Section 4, Act No. XXV. of 1837, in respect to appeals from decisions passed by Principal Sudder Ameens, in Suits of the nature specified therein, be extended to all interlocutory orders passed by those Officers in such Suits.

III.—And it is hereby enacted, that such parts of Regulation XXII. 1814, as prohibit the Sudder Ameens and Moonsiffs from requiring security from defendants; or from attaching their property in cases pending before them; or from realizing fines imposed by them without first obtaining the sanction of the Zillah Judge, be repealed.

IV.—And it is hereby enacted, that it shall be competent to the Sudder Ameens and Moonsiffs to demand security from the defendant, under the provisions of Sections 4 and 5, Regulation II 1806, in cases pending fore them; and also to proceed, without reference to the Zillah Judge, to the realization of fines imposed by them, provided that all orders passed by the Sudder Ameens and Moonsiffs under this Section, be subject to an appeal to the Zillah Judge.

V.—And it is hereby enacted, in modification of Section 22, Regulation V. of 1831, that decrees passed in the Courts of the Judges or Principal Sudder Ameens, in cases of appeal from the decisions of the Sudder Ameens and Moonsiffs, shall be executed by the Courts in which the original decisions were passed, under the general rules prescribed for the execution of decrees passed by those Courts—applications for the execution of such decrees shall be presented, together with a certified copy of the decree of the Judge or Principal Sudder Ameen to the Court of original jurisdiction. In appeals from the orders of the Moonsiff or Sudder Ameen in such cases, the decision of the Zillah or City Judge shall be final.

VI.—And it is hereby enacted, that Clause 2, Section 13, Regulation XXIII. 1814, and Clause 4, Section 5, Regulation V. 1831, be repealed.

VII.—And it is hereby enacted, that no person whatever shall, by reason of place of birth, or by reason of descent, be in any Civil proceeding whatever, exempted from the jurisdiction of the Courts of the Moonsiffs, in the Territories subject to the Presidency of Fort William in Bengal.

VIII.—And it is hereby enacted, that persons invested with the powers of Moonsiffs shall be competent to receive, try, and determine suits of every description under the restrictions as to local jurisdiction and value of property mentioned in Clauses 1, 2 and 3, Section 5, Regulation V. 1831. Provided, however, that no Moonsiff shall try any suit, in which he himself, or his relatives, or dependants, or the Vakeels or Officers of his Court shall be a party.

IX.—And it is hereby enacted, that in cases, where by reason of the above Section, a Moonsiff cannot try a suit because he himself, or his relatives, or dependants, or the Vakeels or Officers of his Court are a party to the suit, it shall nevertheless be competent to the Moonsiff to receive the suit, and forward it to the Judge of the Zillah to which he is subordinate, who may thereupon refer the same for trial and decision to any other Moonsiff of the District.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be reconsidered at the first meeting of the Legislative Council of India, after the 27th day of March 1842.

BENGAL MEDICAL RETIRING FUND.

UNDER ARTICLE XIX. of the Rules, a Quarterly General Meeting of the Subscribers to the Bengal Medical Retiring Fund, will be held at the Town Hall, on Monday next, the 10th day of January, instant, at 4 o'Clock in the afternoon.

By order of the Committee of Management,

GEO. HILL, *Secretary.*

Medical Retiring Fund Office,
Calcutta, 3d January, 1842.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58′ 30″ N. Long. 88° 4′ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights, and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

Fort William, the 18*th October*, 1841.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

" It has been proposed by the Master Attendant, " and approved of by the Marine Board, to change " the Cruizing Ground of the Pilot Vessels during " the S. W. Monsoon, or between the 15th of March " and 15th of September from their present Station " of Point Palmyras, to a position 6 or 8 miles S. W. " from the South Channel Buoy in from 16 to 20 " fathoms, and the following directions are offered as a " guide to direct Vessels from False Point Light House " to the New Cruizing Station."

" False Point Light House is in Latitude 20° " 19½′ N. and Longitude 86° 47′ E., and that of the " South Channel Buoy in Latitude 20° 59′ N. and " Longitude 88° 4′ E., and bears from the former " N. 61 E. true or N. E. by E. ½ E. by Compass, " distant 83 miles, and is laid in 12 fathoms."

" By an inspection of the Chart it will be seen that " the Bank of Soundings off Point Palmyras extend in " a direction towards the tail of the Western Sea Reef, " and the nature of the bottom (as distinguished from " that of the Hoogley deposit which is Sand and Mud " with shining specks) is a gravelly substance composed of Sand Shells and small Pebbles discharged " from the " Kunka" and other Rivers near Point " Palmyras, the lighter materials of which being " carried further out, is deposited and forms what is " called the Pilot's Ridge, which in crossing to the " N. W. shews a little less water than on either side, " and in coming from Seaward you Shoal rather " suddenly from 28 to 23 fathoms upon its Eastern " edge. It is composed of a shelly Sand or Minute " Gravel, of a reddish or rusty brown colour."

" The best Guide therefore to enable a Vessel to " direct her course from False Point to the Vessels at " the New Station will be to run down the edge of " the Pilot's Ridge, and having made the Light House " and brought it to bear about W. S. W. or S. W. by W. " and distant by computation from 10 to 15 miles, should " steer to the E. N. E., and having gradually encreased " her depth of water to 23 fathoms upon the Eastern " edge of the Ridge, she should regulate her course to " keep between it and 27 fathoms, when, by attention to " the lead and nature of the Soundings, course and " distance run from the Light House, it is almost " impossible to miss the Pilot Vessels (if the above " limits are kept within) either by getting too far to " Windward or falling to Leeward, for the Soundings " encrease so rapidly to Seaward from the proposed " New Station, that 28 fathoms will not be more " than 3 or 4 miles to the Southward of it, and 23 " fathoms the same distance to the Westward of it."

" The Soundings to Seaward of the Ridge are in " general a greenish or olive coloured mud, with " occasionally a few bits of broken Shells mixed " with it."

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58′ 30″ N. Long. 88° 4′ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

(Signed) T. T. HARINGTON,
Master Attendant.

By order of the Marine Board,
C. B. GREENLAW, *Secretary.*

Fort William, the 18*th October*, 1841.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

" It has been proposed by the Master Attendant, and approved of by the Marine Board, to change the Cruizing Ground of the Pilot Vessels during the S. W. Monsoon, or between the 15th of March and 15th of September from their present Station of Point Palmyras, to a position 6 or 8 miles S. W. from the South Channel Buoy in from 16 to 20 fathoms, and the following directions are offered as a guide to direct Vessels from False Point Light House to the New Cruizing Station."

" False Point Light House is in Latitude 20° 19⅓′ N. and Longitude 86° 47′ E., and that of the South Channel Buoy in Latitude 20° 59′ N. and Longitude 88° 4′ E., and bears from the former N. 61 E. true or N. E. by E. ¼ E. by Compass, distant 83 miles, and is laid in 12 fathoms."

" By an inspection of the Chart it will be seen that the Bank of Soundings off Point Palmyras extend in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hoogley deposit which is Sand and Mud with shining specks) is a gravelly substance composed of Sand Shells and small Pebbles discharged from the " Kunka" and other Rivers near Point Palmyras, the lighter materials of which being carried further out, is deposited and forms what is called the Pilot's Ridge, which in crossing to the N. W. shews a little less water than on either side, and in coming from Seaward you Shoal rather suddenly from 28 to 23 fathoms upon its Eastern edge. It is composed of a shelly Sand or Minute Gravel, of a reddish or rusty brown colour."

" The best Guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station will be to run down the edge of the Pilot's Ridge, and having made the Light House and brought it to bear about W. S. W. or S. W. by W. and distant by computation from 10 to 15 miles, should steer to the E. N. E., and having gradually encreased her depth of water to 23 fathoms upon the Eastern edge of the Ridge, she should regulate her course to keep between it and 27 fathoms, when, by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels (if the above limits are kept within) either by getting too far to Windward or falling to Leeward, for the Soundings encrease so rapidly to Seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it, and 23 fathoms the same distance to the Westward of it."

" The Soundings to Seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken Shells mixed with it."

(Sd.) RD. LLOYD, *Capt. I. N.,*
Offg. M. S. Genl.

The price of the Chart will be Rupees 2 each, and parties desirous of being supplied are requested to send their names for registry at this Office.

By Order of the Marine Board,
C. B. GREENLAW, *Secy.*

FORT WILLIAM,

LEGISLATIVE DEPARTMENT,

THE 10TH JANUARY, 1842.

The following Extract from the Proceedings of the Right Hon'ble the Governor General in Council, in the Legislative Department, under date the 10th of January 1842, is published for general information:

Read a second time the Draft of a proposed Act, dated 31st May 1841, and published in the Calcutta Gazette of the 2d of June, for consolidating, amending and extending the law relating to the Registration of Assurances.

Resolution—The Right Hon'ble the Governor General in Council resolves that the following Amended Draft on the subject be re-published for general information:

ACT No. —— OF 1842.

An Act for consolidating, amending and extending the law relating to the Registration of Assurances.

I. It is hereby enacted, that Regulations XXXVI. 1793, XXVIII. 1795, XVII. 1803, and Section 17, Regulation VIII. 1805 so far as it relates to Regulation XVII. 1803, also Section 32, Regulation XII. 1805, Regulation XX. 1812 and Regulation IV. 1824 of the Bengal Code, Regulation XVII. 1802 and Regulation XI. of 1831 of the Madras Code, and Regulation IX. 1827 of the Bombay Code and Act No. XXX. 1838, be repealed, from the first day of in the year of our Lord

II. And it is hereby enacted, that the Local Government of each Presidency shall on or before the day and year aforesaid, establish at and for each Presidency Town, and each Zillah Station, and such Districts of smaller extent as may be deemed necessary an Office for the Registering of Assurances, and shall appoint such persons to superintend those offices, and shall assign to them such salaries and establishments, and shall take such securities for the due performance of their duties, and shall frame such rules for their guidance not inconsistent with this Act, as may seem fit. And every original and final judgment decree or order of any Court and every Will or Codicil, or written authority from any husband to a wife to adopt after his decease, any son, when any interest in land may be claimed by virtue of such adoption, and every Contract Memorandum, Receipt or other writing whatsoever by which any estate or interest in any lands or any interest in the produce growing, or to be grown upon any lands shall be created, transferred or otherwise affected, and every writing which shall be the evidence of any act or matter whereby any such estate or interest shall be created, transferred or otherwise affected, shall be considered as an Assurance affecting such lands within the meaning of this Act.

III. And it is hereby enacted, that all Assurances to be made, passed or executed after the day and year aforesaid by which any lands within the said Presidency Towns, orthe said Zillahs shall be in any way affected at Law or in Equity may be registered at the local Register Office of the Town or Zillah or other district in which the said lands or the greater part of them may be situated in the manner hereinafter directed.

IV. And it is hereby enacted, that where any Will, Codicil, or written authority as aforesaid, by which any lands within the said Presidency Towns, or the said Zillahs shall be in any way affected at Law or in Equity, shall have been made, passed or executed on or before the day and year aforesaid, and the Testator shall die after the same day and year, such Assurance may be in like manner registered at the local Register Office of the Town or Zillah as the case may be.

V. And it is hereby enacted, that where any lands shall form part of the personal estate of any person deceased, every Will or Codicil duly proved or Letters of Administration or written authority as aforesaid by which the personal representative of such person deceased shall be appointed, or by which the appointment of such personal representative shall be revoked, or by which the right to the personal representation of such person deceased shall be in any way regulated, shall be considered as affecting such land.

VI. And whereas it may often happen that some time will elapse pending the negociation for a sale or other contract in regard to interests in land, and that often by reason of the illness or absence of parties or from other causes, the written transfer of such property will be delayed for want of due execution by all the requisite parties: And whereas when conveyances are executed for a temporary purpose merely it may often be inconvenient and occasion unnecessary expence to register a conveyance, containing all the particulars of the transaction, it is hereby enacted, that any person may require a Caveat according to form A appended to this Act, to be entered in the Register for any Town or District, against his own acts and in favor of any other person, for the protection of any Assurance affecting any lands within such Town or District, which shall have been made and executed, or shall be in progress, or shall have been in contemplation at the time of entering such Caveat.

VII. And it is hereby enacted, that every requisition for a Caveat shall be made in writing, and shall be signed by the grantor thereof, and shall name or describe the person in whose favor the Caveat is to be entered, and shall specify or describe the lands which it is intended should be affected thereby, and the time during which such Caveat shall remain in force, which time shall not exceed six months from the date of the Caveat.

VIII. And it is hereby enacted, that in order that the establishment of the said Office shall be neither a source of expence nor revenue, it shall be lawful for the Governor General of India in Council from time to time to determine the fees which shall be paid to the Registrar of every Register Office within the respective Presidencies, for the acts and things authorized or required by this Act; provided that such fees shall be in proportion to the length of the assurance or other document registered, and that a Schedule of the same and of all alterations made at any time in the amount thereof shall be published in the Gazette; provided also that in addition to such fees a charge may be demanded according to the ordinary rates of Section writing when the assurance, or other document copy, or extract, shall be written in any European language.

IX. And it is hereby enacted that every requisition for a Caveat at which may be deposited at the Register Office, shall be registered in the same Register, and under the same head, and in the same manner, as the Assurance to be protected by such Caveat would, under the provisions of this Act, have been registered if the same had been registered at the time of entering such Caveat.

X. And it is hereby enacted, that the Registrar to whom an Assurance may be presented for registry shall immediately note upon it the day, hour and minute of presentation, and shall cause an exact copy of it to be entered in a book according to the order in which it is presented, or if two or more Assurances shall be received at the same time then according to their respective dates, and shall attest the copy with his signature and with the signature of the party by whom the deed is presented, and shall then return the original with a certificate under his signature endorsed thereon specifying the day, hour and minute of receipt and of registry with references to the book containing the registry thereof, and the page and number under which the same shall have been entered therein.

XI. And it is hereby enacted, that every Assurance by this Act authorized to be registered (except as hereinafter provided) shall, so far as regards any lands to be affected thereby, be void as against any person claiming under any subsequent Assurance duly registered, unless the prior Assurance shall have been duly registered before the registration of the subsequent Assurance; any alleged notice of such prior Assurance notwithstanding.

XII. Provided however, and it is hereby enacted, that every Will, Codicil, Letters of Administration, or written authority as aforesaid, which shall be registered within the space of one year after the death of the Testator, shall be as valid and effectual as if the same had been registered immediately after the death of such Testator.

XIII. And it is hereby enacted, that where any Assurance for the protection of which a Caveat shall have been entered shall be executed by the grantor of such Caveat, or by any person who shall claim under him, and shall also be executed by the person in whose favor such Caveat shall have been entered, or by his Executors, Administrators, or any other person entitled to the benefit thereof, and shall be duly registered within the time not exceeding six months for which the Caveat shall have been registered, such Assurance shall be entitled to the same preference and protection as if the same had been registered at the time of entering the Caveat.

XIV. And it is hereby enacted, that any person may apply to a Register Office for an office copy or extract of any Assurance or other document registered thereat; and thereupon such copy or extract shall be prepared and a certificate signed by the Registrar shall be written or endorsed thereupon, which certificate shall state that such copy or extract is an examined copy or extract of the Assurance or other document registered; and shall specify the book and the place in which such Assurance or other document has been registered.

XV. And it is hereby enacted, that any person may on application at a Register Office, be allowed to inspect and search any of the registers to be kept at the said offices; and to take extracts from any such registers, subject to such Regulations as shall be made in pursuance of this Act.

XVI. And it is hereby enacted, that all office copies, extracts and certificates to be provided under this Act, and all receipts to be given under this Act for the payment of fees and for deposits, unless the same be required to be given in evidence in a Court of Civil Justice, shall be exempted from Stamp duty.

XVII. And it is hereby enacted, that every copy of or extract from any Assurance or other document registered at any Register Office, shall, if certified under the signature of the Registrar be admitted in all Courts as evidence of the due registration of such Assurance or other document, or of such part of such Assurance or other document as such copy or extract shall purport to contain, without proof of the hand writing of the certifying Officer.

XVIII. And it is hereby enacted, that the fees for registering any Assurance or for entering any Caveat, shall be brought or sent to the Register Office, with the document to be registered and the fees for making office copies of and extracts from any registered documents, shall be paid before such office copies or extracts shall be delivered, and the fees for the several other acts and things for which fees are in the said Schedule expressed to be payable, shall be paid before such acts or things respectively shall be done or permitted; and no person shall be entitled to the delivery from a Register Office, of any compared or examined document, office copy, extract or certificate, or to make any search in the said Register Office, until the fees payable thereon shall have been paid.

XIX. And it is hereby enacted, that in case of the death or absence on leave of any person appointed by the Local Government to register Assurances under this Act, it shall be lawful for the Zillah Judge or other Officer specially authorized by the Local Government, to appoint any person whom he may think proper to take temporary charge of the office and to register Assurances in the same manner as if such person had been appointed to the office by the orders of the Local Government.

XX And it is hereby enacted, that any person fraudulently removing any registered copy of any Assurance or other document from the office of Registry, or fraudulently making any alteration or erasure therein, or fraudulently destroying, tearing, or effacing the same, or any part thereof, shall be liable to be imprisoned with hard labor for any period not exceeding fourteen nor less than four years.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58′ 30″ N. Long. 88° 4′ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

Master Attendant.

By order of the Marine Board,
C. B. GREENLAW, *Secretary.*
Fort William, the 18*th October*, 1841.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

"It has been proposed by the Master Attendant, "and approved of by the Marine Board, to change "the Cruizing Ground of the Pilot Vessels during "the S. W. Monsoon, or between the 15th of March "and 15th of September from their present Station "of Point Palmyras, to a position 6 or 8 miles S. W. "from the South Channel Buoy in from 16 to 20 "fathoms, and the following directions are offered as a "guide to direct Vessels from False Point Light House "to the New Cruizing Station."

"False Point Light House is in Latitude 20° "19½′ N. and Longitude 86° 47′ E., and that of the "South Channel Buoy in Latitude 20° 59′ N. and "Longitude 88° 4′ E., and bears from the former "N. 61 E, true or N. E. by E. ½ E. by Compass, "distant 83 miles, and is laid in 12 fathoms."

"By an inspection of the Chart it will be seen that "the Bank of Soundings off Point Palmyras extend in "a direction towards the tail of the Western Sea Reef, "and the nature of the bottom (as distinguished from "that of the Hoogley deposit which is Sand and Mud "with shining specks) is a gravelly substance com-"posed of Sand Shells and small Pebbles discharged "from the "Kunka" and other Rivers near Point "Palmyras, the lighter materials of which being "carried further out, is deposited and forms what is "called the Pilot's Ridge, which in crossing to the "N. W. shews a little less water than on either side, "and in coming from Seaward you Shoal rather "suddenly from 28 to 23 fathoms upon its Eastern "edge. It is composed of a shelly Sand or Minute "Gravel, of a reddish or rusty brown colour."

"The best Guide therefore to enable a Vessel to "direct her course from False Point to the Vessels at "the New Station will be to run down the edge of "the Pilot's Ridge, and having made the Light House "and brought it to bear about W. S. W. or S. W. by W. "and distant by computation from 10 to 15 miles, should "steer to the E. N. E., and having gradually encreased "her depth of water to 23 fathoms upon the Eastern "edge of the Ridge, she should regulate her course to "keep between it and 27 fathoms, when, by attention to "the lead and nature of the Soundings, course and "distance run from the Light House, it is almost "impossible to miss the Pilot Vessels (if the above "limits are kept within) either by getting too far to "Windward or falling to Leeward, for the Soundings "encrease so rapidly to Seaward from the proposed "New Station, that 28 fathoms will not be more "than 3 or 4 miles to the Southward of it, and 23 "fathoms the same distance to the Westward of it."

"The Soundings to Seaward of the Ridge are in "general a greenish or olive coloured mud, with "occasionally a few bits of broken Shells mixed "with it."

THE 10TH JANUARY, 1842.

The following Extract from the Proceedings of the Right Hon'ble the Governor General in Council, in the Legislative Department, under date the 10th of January 1842, is published for general information:

Read a second time the Draft of a proposed Act, dated 31st May 1841, and published in the Calcutta Gazette of the 2d of June, for consolidating, amending and extending the law relating to the Registration of Assurances.

Resolution.—The Right Hon'ble the Governor General in Council resolves that the following Amended Draft on the subject be re-published for general information:

ACT No. —— OF 1842.

An Act for consolidating, amending and extending the law relating to the Registration of Assurances.

I. It is hereby enacted, that Regulations XXXVI. 1793, XXVIII. 1795, XVII. 1803, and Section 17, Regulation VIII. 1805 so far as it relates to Regulation XVII. 1803, also Section 32, Regulation XII. 1805, Regulation XX. 1812 and Regulation IV. 1824 of the Bengal Code, Regulation XVII. 1802 and Regulation XI. of 1831 of the Madras Code, and Regulation IX. 1827 of the Bombay Code and Act No. XXX. 1838, be repealed, from the first day of in the year of our Lord

II. And it is hereby enacted, that the Local Government of each Presidency shall on or before the day and year aforesaid, establish at and for each Presidency Town, and each Zillah Station, and such Districts of smaller extent as may be deemed necessary an Office for the Registering of Assurances, and shall appoint such persons to superintend those offices, and shall assign to them such salaries and establishments, and shall take such securities for the due performance of their duties, and shall frame such rules for their guidance not inconsistent with this Act, as may seem fit. And every original and final judgment decree or order of any Court and every Will or Codicil, or written authority from any husband to a wife to adopt after his decease, any son, when any interest in land may be claimed by virtue of such adoption, and every Contract, Memorandum, Receipt or other writing whatsoever by which any estate or interest in any lands or any interest in the produce growing, or to be grown upon any lands, shall be created, transferred or otherwise affected, and every writing which shall be the evidence of any act or matter whereby any such estate or interest shall be created, transferred or otherwise affected, shall be considered as an Assurance affecting such lands within the meaning of this Act.

III. And it is hereby enacted, that all Assurances to be made, passed or executed after the day and year aforesaid by which any lands within the said Presidency Towns, or the said Zillahs shall be in any way affected at Law or in Equity may be registered at the local Register Office of the Town or Zillah or other district in which the said lands or the greater part of them may be situated in the manner hereinafter directed.

IV. And it is hereby enacted, that where any Will, Codicil, or written authority as aforesaid, by which any lands within the said Presidency Towns, or the said Zillahs shall be in any way affected at Law or in Equity, shall have been made, passed or executed on or before the day and year aforesaid, and the Testator shall die after the same day and year, such Assurance may be in like manner registered at the local Register Office of the Town or Zillah as the case may be.

V. And it is hereby enacted, that where any lands shall form part of the personal estate of any person deceased, every Will or Codicil duly proved or Letters of Administration or written authority as aforesaid by which the personal representative of such person deceased shall be appointed, or by which the appointment of such personal representative shall be revoked, or by which the right to the personal representation of such person deceased shall be in any way regulated, shall be considered as affecting such land.

VI. And whereas it may often happen that some time will elapse pending the negociation for a sale or other contract in regard to interests in land, and that often by reason of the illness or absence of parties or from other causes, the written transfer of such property will be delayed for want of due execution by all the requisite parties: And whereas when conveyances are executed for a temporary purpose merely it may often be inconvenient and occasion unnecessary expence to register a conveyance, containing all the particulars of the transaction, it is hereby enacted, that any person may require a Caveat according to form A appended to this Act, to be entered in the Register for any Town or District, against his own acts and in favor of any other person, for the protection of any Assurance affecting any lands within such Town or District, which shall have been made and executed, or shall be in progress, or shall have been in contemplation at the time of entering such Caveat.

VII And it is hereby enacted, that every requisition for a Caveat shall be made in writing, and shall be signed by the grantor thereof, and shall name or describe the person in whose favor the Caveat is to be entered, and shall specify or describe the lands which it is intended should be affected thereby, and the time during which such Caveat shall remain in force, which time shall not exceed six months from the date of the Caveat.

VIII. And it is hereby enacted, that in order that the establishment of the said Office shall be neither a source of expence nor revenue, it shall be lawful for the Governor General of India in Council from time to time to determine the fees which shall be paid to the Registrar of every Register Office within the respective Presidencies, for the acts and things authorized or required by this Act; provided that such fees shall be in proportion to the length of the assurance or other document registered, and that a Schedule of the same and of all alterations made at any time in the amount thereof shall be published in the Gazette; provided also that in addition to such fees a charge may be demanded according to the ordinary rates of Section writing when the assurance, or other document copy, or extract, shall be written in any European language.

IX. And it is hereby enacted that every requisition for a Caveat at which may be deposited at the Register Office, shall be registered in the same Register, and under the same head, and in the same manner, as the Assurance to be protected by such Caveat would, under the provisions of this Act, have been registered if the same had been registered at the time of entering such Caveat.

X. And it is hereby enacted, that the Registrar to whom an Assurance may be presented for registry shall immediately note upon it the day, hour and minute of presentation, and shall cause an exact copy of it to be entered in a book according to the order in which it is presented, or if two or more Assurances shall be received at the same time then according to their respective dates, and shall attest the copy with his signature and with the signature of the party by whom the deed is presented, and shall then return the original with a certificate under his signature endorsed thereon specifying the day, hour and minute of receipt and of registry with references to the book containing the registry thereof, and the page and number under which the same shall have been entered therein.

XI. And it is hereby enacted, that every Assurance by this Act authorized to be registered (except as hereinafter provided) shall, so far as regards any lands to be affected thereby, be void as against any person claiming under any subsequent Assurance duly registered, unless the prior Assurance shall have been duly registered before the registration of the subsequent Assurance; any alleged notice of such prior Assurance notwithstanding.

XII. Provided however, and it is hereby enacted, that every Will, Codicil, Letters of Administration, or written authority as aforesaid, which shall be registered within the s[illegible]ne year after the death of the Testator, sha[illegible]alid and effectual as if the same had been regis[illegible]mmediately after the death of such Testator.

XIII. And it is hereby enacted, that where any Assurance for the protection of which a Caveat shall have been entered shall be executed by the grantor of such Caveat, or by any person who shall claim under him, and shall also be executed by the person in whose favor such Caveat shall have been entered, or by his Executors, Administrators, or any other person entitled to the benefit thereof, and shall be duly registered within the time not exceeding six months for which the Caveat shall have been registered, such Assurance shall be entitled to the same preference and protection as if the same had been registered at the time of entering the Caveat.

XIV. And it is hereby enacted, that any person may apply to a Register Office for an office copy or extract of any Assurance or other document registered thereat; and thereupon such copy or extract shall be prepared and a certificate signed by the Registrar shall be written or endorsed thereupon, which certificate shall state that such copy or extract is an examined copy or extract of the Assurance or other document registered; and shall specify the book and the place in which such Assurance or other document has been registered.

XV. And it is hereby enacted, that any person may on application at a Register Office, be allowed to inspect and search any of the registers to be kept at the said offices; and to take extracts from any such registers, subject to such Regulations as shall be made in pursuance of this Act.

XVI. And it is hereby enacted, that all office copies, extracts and certificates to be provided under this Act, and all receipts to be given under this Act for the payment of fees and for deposits, unless the same be required to be given in evidence in a Court of Civil Justice, shall be exempted from Stamp duty.

XVII. And it is hereby enacted, that every copy of or extract from any Assurance or other document registered at any Register Office, shall, if certified under the signature of the Registrar be admitted in all Courts as evidence of the due registration of such Assurance or other document, or of such part of such Assurance or other document as such copy or extract shall purport to contain, without proof of the hand writing of the certifying Officer.

XVIII. And it is hereby enacted, that the fees for registering any Assurance or for entering any Caveat, shall be brought or sent to the Register Office, with the document to be registered and the fees for making office copies of and extracts from any registered documents, shall be paid before such office copies or extracts shall be delivered, and the fees for the several other acts and things for which fees are in the said Schedule expressed to be payable, shall be paid before such acts or things respectively shall be done or permitted; and no person shall be entitled to the delivery from a Register Office, of any compared or examined document, office copy, extract or certificate, or to make any search in the said Register Office, until the fees payable thereon shall have been paid.

XIX. And it is hereby enacted, that in case of the death or absence on leave of any person appointed by the Local Government to register Assurances under this Act, it shall be lawful for the Zillah Judge or other Officer specially authorized by the Local Government, to appoint any person whom he may think proper to take temporary charge of the office and to register Assurances in the same manner as if such person had been appointed to the office by the orders of the Local Government.

XX And it is hereby enacted, that any person fraudulently removing any registered copy of any Assurance or other document from the office of Registry, or fraudulently making any alteration or erasure therein, or fraudulently destroying, tearing, or effacing the same, or any part thereof, shall be liable to be imprisoned with hard labor for any period not exceeding fourteen nor less than four years.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58′ 30″ N. Long. 88° 4′ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always *wear* by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

"It has been proposed by the Master Attendant, and approved of by the Marine Board, to change the Cruizing Ground of the Pilot Vessels during the S. W. Monsoon, or between the 15th of March and 15th of September from their present Station of Point Palmyras, to a position 6 or 8 miles S. W. from the South Channel Buoy in from 16 to 20 fathoms, and the following directions are offered as a guide to direct Vessels from False Point Light House to the New Cruizing Station."

"False Point Light House is in Latitude 20° 19½′ N. and Longitude 86° 47′ E., and that of the South Channel Buoy in Latitude 20° 59′ N. and Longitude 88° 4′ E., and bears from the former N. 61 E true or N. E. by E. ¼ E. by Compass, distant 83 miles, and is laid in 12 fathoms."

"By an inspection of the Chart it will be seen that the Bank of Soundings off Point Palmyras extend in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hoogley deposit which is Sand and Mud with shining specks) is a gravelly substance composed of Sand Shells and small Pebbles discharged from the "Kunka" and other Rivers near Point Palmyras, the lighter materials of which being carried further out, is deposited and forms what is called the Pilot's Ridge, which in crossing to the N. W. shews a little less water than on either side, and in coming from Seaward you Shoal rather suddenly from 28 to 23 fathoms upon its Eastern edge. It is composed of a shelly Sand or Minute Gravel, of a reddish or rusty brown colour."

"The best Guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station will be to run down the edge of the Pilot's Ridge, and having made the Light House and brought it to bear about W. S. W. or S. W. by W. and distant by computation from 10 to 15 miles, should steer to the E. N. E., and having gradually encreased her depth of water to 23 fathoms upon the Eastern edge of the Ridge, she should regulate her course to keep between it and 27 fathoms, when, by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels (if the above limits are kept within) either by getting too far to Windward or falling to Leeward, for the Soundings encrease so rapidly to Seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it, and 23 fathoms the same distance to the Westward of it."

"The Soundings to Seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken Shells mixed with it."

Offg. M. S. Genl.

The price of the Chart will be Rupees 2 each, and parties desirous of being supplied are requested to send their names for registry at this Office.

FORT WILLIAM,
LEGISLATIVE DEPARTMENT,

The 10th January, 1842.

The following Extract from the Proceedings of the Right Hon'ble the Governor General in Council, in the Legislative Department, under date the 10th of January 1842, is published for general information:

Read a second time the Draft of a proposed Act, dated 31st May 1841, and published in the Calcutta Gazette of the 2d of June, for consolidating, amending and extending the law relating to the Registration of Assurances.

Resolution.—The Right Hon'ble the Governor General in Council resolves that the following Amended Draft on the subject be re-published for general information:

Act No. —— of 1842.

An Act for consolidating, amending and extending the law relating to the Registration of Assurances.

I. It is hereby enacted, that Regulations XXXVI. 1793, XXVIII. 1795, XVII. 1803, and Section 17, Regulation VIII. 1805 so far as it relates to Regulation XVII. 1803, also Section 32, Regulation XII. 1805, Regulation XX. 1812 and Regulation IV. 1824 of the Bengal Code, Regulation XVII. 1802 and Regulation XI. of 1831 of the Madras Code, and Regulation IX. 1827 of the Bombay Code and Act No. XXX. 1838, be repealed, from the first day of in the year of our Lord

II. And it is hereby enacted, that the Local Government of each Presidency shall on or before the day and year aforesaid, establish at and for each Presidency Town, and each Zillah Station, and such Districts of smaller extent as may be deemed necessary an Office for the Registering of Assurances, and shall appoint such persons to superintend those offices, and shall assign to them such salaries and establishments, and shall take such securities for the due performance of their duties, and shall frame such rules for their guidance not inconsistent with this Act, as may seem fit. And every original and final judgment decree or order of any Court and every Will or Codicil, or written authority from any husband to a wife to adopt after his decease, any son, when any interest in land may be claimed by virtue of such adoption, and every Contract, Memorandum, Receipt or other writing whatsoever by which any estate or interest in any lands or any interest in the produce growing, or to be grown upon any lands shall be created, transferred or otherwise affected, and every writing which shall be the evidence of any act or matter whereby any such estate or interest shall be created, transferred or otherwise affected, shall be considered as an Assurance affecting such lands within the meaning of this Act.

III. And it is hereby enacted, that all Assurances to be made, passed or executed after the day and year aforesaid by which any lands within the said Presidency Towns, or the said Zillahs shall be in any way affected at Law or in Equity may be registered at the local Register Office of the Town or Zillah or other district in which the said lands or the greater part of them may be situated in the manner hereinafter directed.

IV. And it is hereby enacted, that where any Will, Codicil, or written authority as aforesaid, by which any lands within the said Presidency Towns, or the said Zillahs shall be in any way affected at Law or in Equity, shall have been made, passed or executed on or before the day and year aforesaid, and the Testator shall die after the same day and year, such Assurance may be in like manner registered at the local Register Office of the Town or Zillah as the case may be.

V. And it is hereby enacted, that where any lands shall form part of the personal estate of any person deceased, every Will or Codicil duly proved or Letters of Administration or written authority as aforesaid, by which the personal representative of such person deceased shall be appointed, or by which the appointment of such personal representative shall be revoked, or by which the right to the personal representation of such person deceased shall be in any way regulated, shall be considered as affecting such land.

VI. And whereas it may often happen that some time will elapse pending the negociation for a sale or other contract in regard to interests in land, and that often by reason of the illness or absence of parties or from other causes, the written transfer of such property will be delayed for want of due execution by all the requisite parties: And whereas when conveyances are executed for a temporary purpose merely it may often be inconvenient and occasion unnecessary expence to register a conveyance, containing all the particulars of the transaction, it is hereby enacted, that any person may require a Caveat according to form A appended to this Act, to be entered in the Register for any Town or District, against his own acts and in favor of any other person, for the protection of any Assurance affecting any lands within such Town or District, which shall have been made and executed, or shall be in progress, or shall have been in contemplation at the time of entering such Caveat.

VII. And it is hereby enacted, that every requisition for a Caveat shall be made in writing, and shall be signed by the grantor thereof, and shall name or describe the person in whose favor the Caveat is to be entered, and shall specify or describe the lands which it is intended should be affected thereby, and the time during which such Caveat shall remain in force, which time shall not exceed six months from the date of the Caveat.

VIII. And it is hereby enacted, that in order that the establishment of the said Office shall be neither a source of expence nor revenue, it shall be lawful for the Governor General of India in Council from time to time to determine the fees which shall be paid to the Registrar of every Register Office within the respective Presidencies, for the acts and things authorized or required by this Act; provided that such fees shall be in proportion to the length of the assurance or other document registered, and that a Schedule of the same and of all alterations made at any time in the amount thereof shall be published in the Gazette; provided also that in addition to such fees a charge may be demanded according to the ordinary rates of Section writing when the assurance, or other document copy, or extract, shall be written in any European language.

IX. And it is hereby enacted that every requisition for a Caveat at which may be deposited at the Register Office, shall be registered in the same Register, and under the same head, and in the same manner, as the Assurance to be protected by such Caveat would, under the provisions of this Act, have been registered if the same had been registered at the time of entering such Caveat.

X. And it is hereby enacted, that the Registrar to whom an Assurance may be presented for registry shall immediately note upon it the day, hour and minute of presentation, and shall cause an exact copy of it to be entered in a book according to the order in which it is presented, or if two or more Assurances shall be received at the same time then according to their respective dates, and shall attest the copy with his signature and with the signathre of the party by whom the deed is presented, and shall then return the original with a certificate under his signature endorsed thereon specifying the day, hour and minute of receipt and of registry with references to the book containing the registry thereof, and the page and number under which the same shall have been entered therein.

XI. And it is hereby enacted, that every Assurance by this Act authorized to be registered (except as hereinafter provided) shall, so far as regards any lands to be affected thereby, be void as against any person claiming under any subsequent Assurance duly registered, unless the prior Assurance shall have been duly registered before the registration of the subsequent Assurance; any alleged notice of such prior Assurance notwithstanding.

XII. Provided however, and it is hereby enacted, that every Will, Codicil, Letters of Administration, or written authority as aforesaid, which shall be registered within the space of one year after the death of the Testator, shall be as valid and effectual as if the same had been registered immediately after the death of such Testator.

XIII. And it is hereby enacted, that where any Assurance for the protection of which a Caveat shall have been entered shall be executed by the grant or of such Caveat, or by any person who shall claim under him, and shall also be executed by the person in whose favor such Caveat shall have been entered, or by his Executors, Administrators, or any other person entitled to the benefit thereof, and shall be duly registered within the time not exceeding six months for which the Caveat shall have been registered, such Assurance shall be entitled to the same preference and protection as if the same had been registered at the time of entering the Caveat,

XIV. And it is hereby enacted, that any person may apply to a Register Office for an office copy or extract of any Assurance or other document registered thereat; and thereupon such copy or extract shall be prepared and a certificate signed by the Registrae shall be written or endorsed thereupon, which certificate shall state that such copy or extract is an examined copy or extract of the Assurance or other document registered; and shall specify the book and the place in which such Assurance or other document has been registered.

XV. And it is hereby enacted, that any person may on application at a Register Office, be allowed to inspect and search any of the registers to be kept at the said offices; and to take extracts from any such registers, subject to such Regulations as shall be made in pursuance of this Act.

XVI. And it is hereby enacted, that all office copies, extracts and certificates to be provided under this Act, and all receipts to be given under this Act for the payment of fees and for deposits, unless the same be required to be given in evidence in a Court of Civil Justice, shall be exempted from Stamp duty.

XVII. And it is hereby enacted, that every copy of or extract from any Assurance or other document registered at any Register Office, shall, if certified under the signature of the Registrar be admitted in all Courts as evidence of the due registration of such Assurance or other document, or of such part of such Assurance or other document as such copy or extract shall purport to contain, without proof of the hand writing of the certifying Officer.

XVIII. And it is hereby enacted, that the fees for registering any Assurance or for entering any Caveat, shall be brought or sent to the Register Office, with the document to be registered and the fees for making office copies of and extracts from any registered documents, shall be paid before such office copies or extracts shall be delivered, and the fees for the several other acts and things for which fees are in the said Schedule expressed to be payable, shall be paid before such acts or things respectively shall be done or permitted; and no person shall be entitled to the delivery from a Register Office, of any compared or examined document, office copy, extract or certificate, or to make any search in the said Register Office, until the fees payable thereon shall have been paid.

XIX. And it is hereby enacted, that in case of the death or absence on leave of any person appointed by the Local Government to register Assurances under this Act, it shall be lawful for the Zillah Judge or other Officer specially authorized by the Local Government, to appoint any person whom he may think proper to take temporary charge of the office and to register Assurances in the same manner as if such person had been appointed to the office by the orders of the Local Government.

XX. And it is hereby enacted, that any person fraudulently removing any registered copy of any Assurance or other document from the office of Registry, or fraudulently making any alteration or erasure therein, or fraudulently destroying, tearing, or effacing the same, or any part thereof, shall be liable to be imprisoned with hard labor for any period not exceeding fourteen nor less than four years.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58′ 30″ N. Long. 88° 4′ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

Master Attendant.

By order of the Marine Board,
C. B. GREENLAW, *Secretary.*
Fort William, the 18th October, 1841.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

" It has been proposed by the Master Attendant, " and approved of by the Marine Board, to change " the Cruizing Ground of the Pilot Vessels during " the S. W. Monsoon, or between the 15th of March " and 15th of September from their present Station " of Point Palmyras, to a position 6 or 8 miles S. W. " from the South Channel Buoy in from 16 to 20 " fathoms, and the following directions are offered as a " guide to direct Vessels from False Point Light House " to the New Cruizing Station."

" False Point Light House is in Latitude 20° " 19⅓′ N. and Longitude 86° 47′ E., and that of the " South Channel Buoy in Latitude 20° 59′ N. and " Longitude 88° 4′ E., and bears from the former " N. 61 E. true or N. E. by E. ¼ E. by Compass, " distant 83 miles, and is laid in 12 fathoms."

" By an inspection of the Chart it will be seen that " the Bank of Soundings off Point Palmyras extend in " a direction towards the tail of the Western Sea Reef, " and the nature of the bottom (as distinguished from " that of the Hoogley deposit which is Sand and Mud " with shining specks) is a gravelly substance com" posed of Sand Shells and small Pebbles discharged " from the " Kunka" and other Rivers near Point " Palmyras, the lighter materials of which being " carried further out, is deposited and forms what is " called the Pilot's Ridge, which in crossing to the " N. W. shews a little less water than on either side, " and in coming from Seaward you Shoal rather " suddenly from 28 to 23 fathoms upon its Eastern " edge. It is composed of a shelly Sand or Minute " Gravel, of a reddish or rusty brown colour."

" The best Guide therefore to enable a Vessel to " direct her course from False Point to the Vessels at " the New Station will be to run down the edge of " the Pilot's Ridge, and having made the Light House " and brought it to bear about W. S. W. or S. W. by W. " and distant by computation from 10 to 15 miles, should " steer to the E. N. E., and having gradually encreased " her depth of water to 23 fathoms upon the Eastern " edge of the Ridge, she should regulate her course to " keep between it and 27 fathoms, when, by attention to " the lead and nature of the Soundings, course and " distance run from the Light House, it is almost " impossible to miss the Pilot Vessels (if the above " limits are kept within) either by getting too far to " Windward or falling to Leeward, for the Soundings " encrease so rapidly to Seaward from the proposed " New Station, that 28 fathoms will not be more " than 3 or 4 miles to the Southward of it, and 23 " fathoms the same distance to the Westward of it."

" The Soundings to Seaward of the Ridge are in " general a greenish or olive coloured mud, with " occasionally a few bits of broken Shells mixed " with it."

The Goods and Merchandize of Individuals intended for Consignment to England, re-payable to the Court of Directors of the East India Company.

The rate of Exchange to be determined from time to time at the place where the Advance is made under the Court's orders.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

Or such public Officers or authorized Agents of the East India Company as may be specified.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England; and in cases where interest shall have accrued, such interest shall be computed at the rate or rates per cent. at which the Company have allowed Discount during the period for which such interest is chargeable.

No. 14 of 1842.—1. The Hon'ble the Court of Directors having provided Cloth of English manufacture for the gratuitous supply of Great Coats to the European Foot Artillery and Regiments of European Infantry in Her Majesty's and the Honorable Company's Service, Officers Commanding all such Corps will transmit Indents prepared according to annexed Form No. 1 to the Secretary to the Clothing Board and to the Army Clothing Agents in their respective Divisions, with whom Muster Patterns will be lodged, and on the receipt of the Great Coats Distribution Statements will be forwarded to those Departments as prescribed for other Clothing,

2. The Cloth provided being of a description very superior to that in use for similar purposes with Infantry Regiments, the Coats will, under no circumstances, be replaced under six years, nor are they to be supplied to a Regiment or to Individuals as a matter of course at the expiration of that period, but only as the necessity for such supply may be satisfactorily established by the Report of a Committee of Survey : moreover, it is not intended they should ever be considered the property of the Soldier : they are to be taken care of in the same manner as his other necessaries, any loss occasioned by his neglect is to be made good from his Pay, and whenever any Great Coats are condemned as unserviceable the Survey Report should specify the date or dates of issue, and they are to be returned into Regimental Store to be held at the disposal of the Clothing Board for the advantage of the State—An Indent to replace the number condemned, if necessary, to be submitted with the Survey Report.

3. The month and year when issued from the Agencies to be marked on the Great Coats in such a manner as not to be removed.

4. Quarter Masters of Regiments will be held responsible for the number supplied on Indent, and that on the occurrence of any Casualties the Great Coats are to be returned into the Regimental Store, and carefully preserved for issue to Recruits—A Special Report is to be made by the Officer Commanding the Regiment to the Secretary to the Clothing Board, when the number in store is likely to cause detriment or inconvenience to the Public Service.

OVERLAND LETTERS AND POSTAGE.

IT is hereby notified for general information—

First.—That all Letters and Newspapers, except Soldiers' and Sailors' Letters, intended for transmission by the Overland Mails, and except those specially marked "via Falmouth," will be sent through France, and thus be subject to the heavier rate of postage.

Second.—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets for England. Letters, &c., for places lying between Bombay and Marseilles, will be despatched in separate Packets

Third.—Letters for the United Kingdom of Great Britain, weighing less than a quarter of an ounce, and passing through France, are charged single postage, which by that route amounts to 2s. 8d. Newspapers, if sent via Falmouth, are free of postage; but if transmitted by the way of Marseilles, they are charged 2d. each.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58', 30" N. Long. 88° 4' East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

Master Attendant.

By order of the Marine Board,
C. B. GREENLAW, *Secretary.*
Fort William, the 18th October, 1841.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

"It has been proposed by the Master Attendant, and approved of by the Marine Board, to change the Cruizing Ground of the Pilot Vessels during the S. W. Monsoon, or between the 15th of March and 15th of September from their present Station of Point Palmyras, to a position 6 or 8 miles S. W. from the South Channel Buoy in from 16 to 20 fathoms, and the following directions are offered as a guide to direct Vessels from False Point Light House to the New Cruizing Station."

"False Point Light House is in Latitude 20° 19½' N. and Longitude 86° 47' E., and that of the South Channel Buoy in Latitude 20° 59' N. and Longitude 88° 4' E., and bears from the former N. 61 E. true or N. E. by E. ½ E. by Compass, distant 83 miles, and is laid in 12 fathoms."

"By an inspection of the Chart it will be seen that the Bank of Soundings off Point Palmyras extend in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hoogley deposit which is Sand and Mud with shining specks) is a gravelly substance composed of Sand Shells and small Pebbles discharged from the "Kunka" and other Rivers near Point Palmyras, the lighter materials of which being carried further out, is deposited and forms what is called the Pilot's Ridge, which in crossing to the N. W. shews a little less water than on either side, and in coming from Seaward you Shoal rather suddenly from 28 to 23 fathoms upon its Eastern edge. It is composed of a shelly Sand or Minute Gravel, of a reddish or rusty brown colour."

"The best Guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station will be to run down the edge of the Pilot's Ridge, and having made the Light House and brought it to bear about W. S. W. or S. W. by W. and distant by computation from 10 to 15 miles, should steer to the E. N. E., and having gradually encreased her depth of water to 23 fathoms upon the Eastern edge of the Ridge, she should regulate her course to keep between it and 27 fathoms, when, by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels (if the above limits are kept within) either by getting too far to Windward or falling to Leeward, for the Soundings encrease so rapidly to Seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it, and 23 fathoms the same distance to the Westward of it."

"The Soundings to Seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken Shells mixed with it."

(Sd.) RD. LLOYD, *Capt. I. N.,*
Offg. M. S. Genl.

The price of the Chart will be Rupees 2 each, and parties desirous of being supplied are requested to send their names for registry at this Office.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the encreasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a GOOD Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will *not* however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58′ 30″ N. Long. 88° 4′ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *good* Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descry the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

Master Attendant.
By order of the Marine Board,
C. B. GREENLAW, *Secretary.*
Fort William, the 18th October, 1841.

No. 1745.

NOTICE.

REFERRING to the Notification indicating the proposed change of the Pilot Station during the approaching S. W. Monsoon, the Marine Board hereby give Notice, that with the sanction of Government, a Chart of Captain Lloyd's late Survey of the Ground between Lacam's Channel and False Point is being lithographed for public Sale, and the following is copy of Instructions proposed by Captain Lloyd with a view to the more ready Guide of Vessels from False Point to the New Station.

"It has been proposed by the Master Attendant, and approved of by the Marine Board, to change the Cruizing Ground of the Pilot Vessels during the S. W. Monsoon, or between the 15th of March and 15th of September from their present Station of Point Palmyras, to a position 6 or 8 miles S. W. from the South Channel Buoy in from 16 to 20 fathoms, and the following directions are offered as a guide to direct Vessels from False Point Light House to the New Cruizing Station."

"False Point Light House is in Latitude 20° 19½′ N. and Longitude 86° 47′ E., and that of the South Channel Buoy in Latitude 20° 59′ N. and Longitude 88° 4′ E., and bears from the former N. 61 E. true or N. E. by E. ¼ E. by Compass, distant 83 miles, and is laid in 12 fathoms."

"By an inspection of the Chart it will be seen that the Bank of Soundings off Point Palmyras extend in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hoogley deposit which is Sand and Mud with shining specks) is a gravelly substance composed of Sand Shells and small Pebbles discharged from the "Kunka" and other Rivers near Point Palmyras, the lighter materials of which being carried further out, is deposited and forms what is called the Pilot's Ridge, which in crossing to the N. W. shews a little less water than on either side, and in coming from Seaward you Shoal rather suddenly from 28 to 23 fathoms upon its Eastern edge. It is composed of a shelly Sand or Minute Gravel, of a reddish or rusty brown colour."

"The best Guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station will be to run down the edge of the Pilot's Ridge, and having made the Light House and brought it to bear about W. S. W. or S. W. by W. and distant by computation from 10 to 15 miles, should steer to the E. N. E., and having gradually encreased her depth of water to 23 fathoms upon the Eastern edge of the Ridge, she should regulate her course to keep between it and 27 fathoms, when, by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels (if the above limits are kept within) either by getting too far to Windward or falling to Leeward, for the Soundings encrease so rapidly to Seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it, and 23 fathoms the same distance to the Westward of it."

"The Soundings to Seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken Shells mixed with it."

(Sd.) RD. LLOYD, *Capt. I. N.,*
Offg. M. S. Genl.

The price of the Chart will be Rupees 2 each, and parties desirous of being supplied are requested to send their names for registry at this Office.

FORT WILLIAM, *26th January,* 1842.

No. 20 of 1842.—The following paragraphs of a Military Letter, No. 99, from the Hon'ble the Court of Directors, to the Governor of the Presidency of Fort William in Bengal, under date the 1st December 1841, are published for general information, in continuation of General Orders No. 159, of the 5th November 1838.

"Para. 1. The General Brevet, which has just been announced, having promoted to the rank of Major General all the Colonels in our Service, and no Lieutenant Colonels being for the present eligible for promotion as Colonels, we have thought it right to suspend that part of the Regulations which precludes Major Generals in our Army from holding the appointments of Brigadiers, and to permit, until further Orders, the selection of Major Generals for those Commands in the same manner, and for the same tour of Service, as if their promotion to that rank had not taken place.

2. Upon the occasion of the last General Brevet, viz. that of June 1838, we, in consideration of the large addition then made to the number of Major Generals, authorized the continuance of Officers in the appointments specified in the margin,* notwithstanding their promotion to that rank. Present circumstances being similar to those which then prevailed, we have resolved that the same measure of relief shall be granted to the Colonels now promoted.

3. We have further resolved, that Major Generals holding Staff Appointments, for which no tour of Service is fixed, but who, under ordinary circumstances, would have been required to vacate on promotion to their present rank, shall not be permitted to continue in their Offices beyond five years from the date of the promotions now announced."

Chittagong, Commissioner's Office,

A FORM OF PRAYER AND THANKSGIVING TO ALMIGHTY GOD,

for the safe delivery of the Queen, and the happy birth of a Prince; to be used at Morning and Evening Service, after the General Thanksgiving, on Sunday next, January 30th, in and near Calcutta, and at other Stations on the Sunday after the Reverend Chaplains shall receive the same.

O Merciful Lord and Heavenly Father, by whose gracious gift mankind is increased, we most humbly offer unto Thee our hearty thanks for Thy great goodness vouchsafed to Thy people, in delivering Thy servant our Sovereign Lady the Queen from the perils of child-birth, and giving her the blessing of a son. Continue, we beseech Thee, Thy Fatherly care over her; support and comfort her in the hours of weakness, and day by day renew her strength. Preserve the infant Prince from whatever is hurtful either to body or soul; endue him, as he advances in years, with true wisdom; and make him, in due time, a blessed instrument of Thy goodness to this Church and Nation, and to the whole world. Regard with Thine especial favor our Queen and her Royal Consort that they may long live together in the enjoyment of all earthly happiness, and may finally be made partakers of everlasting glory. Implant in the hearts of Thy people a deep sense of Thy manifold mercies; and give us grace to show forth our thankfulness by dutiful affection to our Sovereign, by brotherly love one towards another, and by constant obedience to Thy Commandments; so that passing through this life in Thy faith and fear, we may in the life to come be received into Thy heavenly kingdom, through the merits and mediation of Thy blessed Son Jesus Christ our Lord. Amen.

The foregoing Form of Prayer and Thanksgiving is directed, under the approval of the Right Honorable The Governor General of India, to be used as above, in this Diocese.

By Order of the Lord Bishop, dated at Calcutta, this 27th day of January, 1842,

W. H. ABBOTT,

NOTIFICATION.

FORT WILLIAM, SECRET DEPARTMENT,

THE 31ST JANUARY, 1842.

Intelligence having been received which leaves no room to doubt that, after the British Force at Cabool had maintained its position against overpowering numbers of Insurgents for more than six weeks, the Officer Commanding had judged it necessary, in consequence of a failure of Provisions, to agree to a convention with the enemy, and to retire, in reliance on the faith of that convention, towards Jellalabad, when the Troops exposed to the worst rigors of cold and privation in the mountain defiles, and harassed by treacherous attacks, suffered extreme disaster,—the Governor General in Council deems it proper to notify, that the most active measures have been adopted, and will be steadfastly prosecuted, for expediting powerful reinforcements to the Affghan Frontier, and for assisting such operations as may be required in that quarter for the maintenance of the honor and interests of the British Government.

The ample Military means at the disposal of the British Government will be strenuously applied to these objects, so as at once to support external operations, and to ensure efficient protection to its subjects and allies.

A faithless enemy, stained by the foul crime of assassination, has, through a failure of supplies, followed by consummate treachery, been able to overcome a body of British Troops, in a country removed, by distance and difficulties of season, from the possibility of succour. But the Governor General in Council, while he most deeply laments the loss of brave Officers and men, regards this partial reverse only as a new occasion for displaying the stability and vigor of the British Power, and the admirable spirit and valor of the British Indian Army.

By order of the Right Hon'ble the Governor General of India in Council,

T. H. MADDOCK,

Secy. to the Govt. of India.

LEGISLATIVE DEPARTMENT,

THE 1ST FEBRUARY, 1842.

The following Draft of a proposed Act was read in Council for the first time on the 1st of February, 1842.

ACT No. —— OF 1842.

An Act for regulating the service of Hereditary Officers under the Presidency of Bombay.

Preamble. Whereas it has been found that the provisions of Regulation XVI. 1827 of the Bombay Code, are insufficient to secure the efficient discharge of the duties of Hereditary Officers:

I. It is hereby enacted, that Sections XVII and XVIII. of Regulation XVI. of 1827 of the Bombay Code, be rescinded.

II. And it is hereby enacted, that all Hereditary Officers of whatever denomination, belonging to, or employed in the management of the Land Revenue, or of the Customs or Town Duties, or Excise, or other Revenue, or in the Police, or in the Civil Administration of the country, shall render the usual services of their respective Offices, as far as the same may be required by the Collector, or other Officer under whose control they may be placed by usage or the orders of Government.

III. And it is hereby enacted, that when the duties of an Hereditary Office fall in more than one Department, it shall be competent to the Governor in Council of Bombay to prescribe what Officer shall be vested with the control of such Office.

IV. And it is hereby enacted, that it shall be competent to the Collector or other Officer to whom the duties of an Hereditary Office are, as provided in Clause II., to be rendered, when the performance of those duties is claimed in rotation by different sharers, to require that the sharers in the wutun shall nominate a fit and proper person from among their number, who shall hold the Office as the Representative of the family either during life, or for such term, not being less in each instance than (five) 5 years, as the Collector or Controlling Officer shall determine with the sanction of the Governor in Council, and in the event of the sharers not so nominating one or more, if required of their number within a reasonable period to be fixed by the Collector or Controlling Officer, the latter shall himself exercise the power of selection, subject to the approval of the Governor in Council.

V. And it is hereby enacted, that it shall be competent to the Collector or Controlling Officer to refuse to confirm the nomination by the sharers of any individual, if he shall have reason to think, that from age or personal disqualification the duties of the Office will not be properly performed by him, or if from character and past conduct the person nominated be considered unworthy of trust, provided that the grounds of such refusal shall be recorded in writing and that an appeal from such decision shall lie to the Governor in Council, whose order thereon shall be final.

VI. And it is hereby enacted, that the Collector or Controlling Officer shall have power to punish Officiating Hereditary Officers for misconduct or neglect of duty by suspension from office, pay, and emolument, or by fine not exceeding the computed official emolument of their offices for three months, and to levy the said fine in the mode authorized for realizing Revenue demands.

VII. And it is hereby further enacted, that the Collector or Controlling Officer, in cases of misconduct or incompetency on the part of an Officiating Hereditary Officer, shall have power to dismiss such Officer from his employment, but no such dismissal shall take place, except on an investigation recorded in writing, which shall be submitted for the approval and sanction of the Governor in Council.

VIII. And it is hereby enacted, that, in conducting the investigation prescribed in the preceding Section, the Collector or Controlling Officer shall have the same authority as a Magistrate in compelling the attendance of parties and witnesses, and the production of papers, and in taking evidence.

IX. And it is hereby further enacted, that, if fraud or malversation, or any criminal offence in the conduct of the duties of the Office is proved in a competent Court against an Officiating Hereditary Officer, it shall be lawful for the said Governor in Council, on the report of the Collector or Controlling Officer, to direct the attachment and confiscation of the entire wutun, either wholly or in part, or for a term of years, and during such attachment and confiscation the duties of the office shall be performed, and the proceeds of the wutun disposed of, in such manner as the said Governor in Council may direct.

X. And it is hereby enacted, that no female shall perform in person the duties of any hereditary office.

XI. And it is hereby enacted, that if any Hereditary Officer is incapable of personally discharging the duties of his or her office by reason of sex, minority, mental or bodily infirmity, or manifest incapacity, it shall be lawful for the Collector or Controlling Officer to call upon him or her, or his or her Guardians to appoint a Deputy, subject to his approval, and on the party or parties failing to appoint a fit Deputy within a reasonable period, the appointment shall be made by the said Collector or Controlling Officer.

XII. And it is hereby enacted, that all deputies appointed to perform the Duties of Hereditary Offices under this Act, and under Section IV. Regulation V. 1833, of the Bombay Code, shall be subject to the same rules and penalties as the Principals,—and the wutun of the office shall also be liable to attachment and confiscation for misconduct of the Deputy, when appointed by the Hereditary Officer's in the same manner as it would be, if the Hereditary Officer himself were the offender.

XIII. And it is hereby enacted, that nothing contained in this Act shall be construed to debar the right of any sharer to participate in the rents and profits of any Hereditary Office so held and filled as above provided, after provision shall have been made therefrom for the fit maintenance of the Officiating Hereditary Officer, for which purpose it shall be competent to the Collector or Controlling Officer to fix and assign a specific portion of such rents and emoluments, leaving the remainder only, subject to the claims of the other sharers—and further that the portion of the rents and emoluments so fixed and assigned shall be the official remuneration of the Officiating Hereditary Officer, and shall not be liable to Civil process of any Court of Law.

XIV. And it is hereby enacted, that whenever it may be necessary, as above provided, that the Collector or Controlling Officer shall appoint a Deputy to conduct the duties of an Hereditary Office, it shall be lawful for him to assign to such Deputy a fit remuneration from the rents and profits of the said Office.

XV. And it is hereby enacted, that the terms "Hereditary District or Village Office or Officers" or "Hereditary District or Village Revenue Office or Officers" used in Regulation XVI 1827 and Regulation V 1833, of the Bombay Code, shall be held to apply to all descriptions of Hereditary Offices and Officers.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be reconsidered at the first meeting of the Legislative Council of India, after the 1st day of May next.

T. H. MADDOCK,
Secy. to the Govt. of India.

3. If at the above Sale the entire quantity of 2,000 Chests shall not be sold, it shall subsequently be competent for the Board of Customs, Salt and Opium, to dispose of the Lots which remain on hand at future Sales.

4. Each Lot to contain Five Chests.

10. No Sub-Treasurer's Receipts or Deposit of Public Securities under the fifth of the present Conditions, will be received in this Office except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. No. 2. Report of the examination of such Opium.

15. An account of the weight of the Drug when packed at Behar and Benares, and a Statement of the average weight of Six Chests from each dispatch at Calcutta, may be seen on application at the Office of the Secretary to the Board of Customs, Salt and Opium.

LEGISLATIVE DEPARTMENT,
THE 1ST FEBRUARY, 1842.

The following Draft of a proposed Act was read in Council for the first time on the 1st of February, 1842.

ACT NO. —— OF 1842.

An Act for regulating the service of Hereditary Officers under the Presidency of Bombay.

Preamble. Whereas it has been found that the provisions of Regulation XVI. 1827 of the Bombay Code, are insufficient to secure the efficient discharge of the duties of Hereditary Officers:

I It is hereby enacted, that Sections XVII and XVIII. of Regulation XVI. of 1827 of the Bombay Code, be rescinded.

II. And it is hereby enacted, that all Hereditary Officers of whatever denomination, belonging to, or employed in the management of the Land Revenue, or of the Customs or Town Duties, or Excise, or other Revenue, or in the Police, or in the Civil Administration of the country, shall render the usual services of their respective Offices, as far as the same may be required by the Collector, or other Officer under whose control they may be placed by usage or the orders of Government.

III. And it is hereby enacted, that when the duties of an Hereditary Office fall in more than one Department, it shall be competent to the Governor in Council of Bombay to prescribe what Officer shall be vested with the control of such Office.

IV. And it is hereby enacted, that it shall be competent to the Collector or other Officer to whom the duties of an Hereditary Office are, as provided in Clause II., to be rendered, when the performance of those duties is claimed in rotation by different sharers, to require that the sharers in the wutun shall nominate a fit and proper person from among their number, who shall hold the Office as the Representative of the family either during life, or for such term, not being less in each instance than (five) 5 years, as the Collector or Controlling Officer shall determine with the sanction of the Governor in Council, and in the event of the sharers not so nominating one or more, if required, of their number within a reasonable period to be fixed by the Collector or Controlling Officer, the latter shall himself exercise the power of selection, subject to the approval of the Governor in Council.

V. And it is hereby enacted, that it shall be competent to the Collector or Controlling Officer to refuse to confirm the nomination by the sharers of any individual, if he shall have reason to think, that from age or personal disqualification the duties of the Office will not be properly performed by him, or if from character and past conduct the person nominated be considered unworthy of trust, provided that the grounds of such refusal shall be recorded in writing and that an appeal from such decision shall lie to the Governor in Council, whose order thereon shall be final.

VI. And it is hereby enacted, that the Collector or Controlling Officer shall have power to punish Officiating Hereditary Officers for misconduct or neglect of duty by suspension from office, pay, and emolument, or by fine not exceeding the computed official emolument of their offices for three months, and to levy the said fine in the mode authorized for realizing Revenue demands.

VII. And it is hereby further enacted, that the Collector or Controlling Officer, in cases of misconduct or incompetency on the part of an Officiating Hereditary Officer, shall have power to dismiss such Officer from his employment, but no such dismissal shall take place, except on an investigation recorded in writing, which shall be submitted for the approval and sanction of the Governor in Council.

VIII. And it is hereby enacted, that, in conducting the investigation prescribed in the preceding Section, the Collector or Controlling Officer shall have the same authority as a Magistrate in compelling the attendance of parties and witnesses, and the production of papers, and in taking evidence.

IX. And it is hereby further enacted, that, if fraud or malversation, or any criminal offence in the conduct of the duties of the Office is proved in a competent Court against an Officiating Hereditary Officer, it shall be lawful for the said Governor in Council, on the report of the Collector or Controlling Officer, to direct the attachment and confiscation of the entire wutun, either wholly or in part, or for a term of years, and during such attachment and confiscation the duties of the office shall be performed, and the proceeds of the wutun disposed of, in such manner as the said Governor in Council may direct.

X. And it is hereby enacted, that no female shall perform in person the duties of any hereditary office.

XI. And it is hereby enacted, that if any Hereditary Officer is incapable of personally discharging the duties of his or her office by reason of sex, minority, mental or bodily infirmity, or manifest incapacity, it shall be lawful for the Collector or Controlling Officer to call upon him or her, or his or her Guardians to appoint a Deputy, subject to his approval, and on the party or parties failing to appoint a fit Deputy within a reasonable period, the appointment shall be made by the said Collector or Controlling Officer.

XII. And it is hereby enacted, that all deputies appointed to perform the Duties of Hereditary Offices under this Act, and under Section IV. Regulation V. 1833, of the Bombay Code, shall be subject to the same rules and penalties as the Principals.—and the wutun of the office shall also be liable to attachment and confiscation for misconduct of the Deputy, when appointed by the Hereditary Officer's in the same manner as it would be, if the Hereditary Officer himself were the offender.

XIII. And it is hereby enacted, that nothing contained in this Act shall be construed to debar the right of any sharer to participate in the rents and profits of any Hereditary Office so held and filled as above provided, after provision shall have been made therefrom for the fit maintenance of the Officiating

Hereditary Officer, for which purpose it shall be competent to the Collector or Controlling Officer to fix and assign a specific portion of such rents and emoluments, leaving the remaindor only, subject to the claims of the other sharers—and further that the portion of the rents and emoluments so fixed and assigned shall be the official remuneration of the Officiating Hereditary Officer, and shall not be liable to Civil process of any Court of Law.

XIV. And it is hereby enacted, that whenever it may be necessary, as above provided, that the Collector or Controlling Officer shall appoint a Deputy to conduct the duties of an Hereditary Office, it shall be lawful for him to assign to such Deputy a fit remuneration from the rents and profits of the said Office.

XV. And it is hereby enacted, that the terms "Hereditary District or Village Office or Officers" or "Hereditary District or Village Revenue Office or Officers" used in Regulation XVI 1827 and Regulation V 1833, of the Bombay Code, shall be held to apply to all descriptions of Hereditary Offices and Officers.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be reconsidered at the first meeting of the Legislative Council of India, after the 1st day of May next.

The following Draft of a proposed Act was read in Council for the first time on the 1st of February, 1842.

Act No. —— of 1842.

An Act for regulating the service of Hereditary Officers under the Presidency of Bombay.

Preamble. Whereas it has been found that the provisions of Regulation XVI. 1827 of the Bombay Code, are insufficient to secure the efficient discharge of the duties of Hereditary Officers:

I. It is hereby enacted, that Sections XVII and XVIII. of Regulation XVI. of 1827 of the Bombay Code, be rescinded.

II. And it is hereby enacted, that all Hereditary Officers of whatever denomination, belonging to, or employed in the management of the Land Revenue, or of the Customs or Town Duties, or Excise, or other Revenue, or in the Police, or in the Civil Administration of the country, shall render the usual services of their respective Offices, as far as the same may be required by the Collector, or other Officer under whose control they may be placed by usage or the orders of Government.

III. And it is hereby enacted, that when the duties of an Hereditary Office fall in more than one Department, it shall be competent to the Governor in Council of Bombay to prescribe what Officer shall be vested with the control of such Office.

IV. And it is hereby enacted, that it shall be competent to the Collector or other Officer to whom the duties of an Hereditary Office are, as provided in Clause II., to be rendered, when the performance of those duties is claimed in rotation by different sharers, to require that the sharers in the wutun shall nominate a fit and proper person from among their number, who shall hold the Office as the Representative of the family either during life, or for such term, not being less in each instance than (five) 5 years, as the Collector or Controlling Officer shall determine with the sanction of the Governor in Council, and in the event of the sharers not so nominating one or more, if required of their number within a reasonable period to be fixed by the Collector or Controlling Officer, the latter shall himself exercise the power of selection, subject to the approval of the Governor in Council.

V. And it is hereby enacted, that it shall be competent to the Collector or Controlling Officer to refuse to confirm the nomination by the sharers of any individual, if he shall have reason to think, that from age or personal disqualification the duties of the Office will not be properly performed by him, or if from character and past conduct the person nominated be considered unworthy of trust, provided that the grounds of such refusal shall be recorded in writing and that an appeal from such decision shall lie to the Governor in Council, whose order thereon shall be final.

VI. And it is hereby enacted, that the Collector or Controlling Officer shall have power to punish Officiating Hereditary Officers for misconduct or neglect of duty by suspension from office, pay, and emolument, or by fine not exceeding the computed official emolument of their offices for three months, and to levy the said fine in the mode authorized for realizing Revenue demands.

VII. And it is hereby further enacted, that the Collector or Controlling Officer, in cases of misconduct or incompetency on the part of an Officiating Hereditary Officer, shall have power to dismiss such Officer from his employment, but no such dismissal shall take place, except on an investigation recorded in writing, which shall be submitted for the approval and sanction of the Governor in Council.

VIII. And it is hereby enacted, that, in conducting the investigation prescribed in the preceding Section, the Collector or Controlling Officer shall have the same authority as a Magistrate in compelling the attendance of parties and witnesses, and the production of papers, and in taking evidence.

IX. And it is hereby further enacted, that, if fraud or malversation, or any criminal offence in the conduct of the duties of the Office is proved in a competent Court against an Officiating Hereditary Officer, it shall be lawful for the said Governor in Council, on the report of the Collector or Controlling Officer, to direct the attachment and confiscation of the entire wutun, either wholly or in part, or for a term of years, and during such attachment and confiscation the duties of the office shall be performed, and the proceeds of the wutun disposed of, in such manner as the said Governor in Council may direct.

X. And it is hereby enacted, that no female shall perform in person the duties of any hereditary office.

XI. And it is hereby enacted, that if any Hereditary Officer is incapable of personally discharging the duties of his or her office by reason of sex, minority, mental or bodily infirmity, or manifest incapacity, it shall be lawful for the Collector or Controlling Officer to call upon him or her; or his or her Guardians to appoint a Deputy, subject to his approval, and on the party or parties failing to appoint a fit Deputy within a reasonable period, the appointment shall be made by the said Collector or Controlling Officer.

XII. And it is hereby enacted, that all deputies appointed to perform the Duties of Hereditary Offices under this Act, and under Section IV. Regulation V, 1833, of the Bombay Code, shall be subject to the same rules and penalties as the Principals,—and the wutun of the office shall also be liable to attachment and confiscation for misconduct of the Deputy, when appointed by the Hereditary Officer's in the same manner as it would be, if the Hereditary Officer himself were the offender.

XIII. And it is hereby enacted, that nothing contained in this Act shall be construed to debar the right of any sharer to participate in the rents and profits of any Hereditary Office so held and filled as above provided, after provision shall have been made therefrom for the fit maintenance of the Officiating

Hereditary Officer, for which purpose it shall be competent to the Collector or Controlling Officer to fix and assign a specific portion of such rents and emoluments, leaving the remainder only, subject to the claims of the other sharers—and further that the portion of the rents and emoluments so fixed and assigned shall be the official remuneration of the Officiating Hereditary Officer, and shall not be liable to Civil process of any Court of Law.

XIV. And it is hereby enacted, that whenever it may be necessary, as above provided, that the Collector or Controlling Officer shall appoint a Deputy to conduct the duties of an Hereditary Office, it shall be lawful for him to assign to such Deputy a fit remuneration from the rents and profits of the said Office.

XV. And it is hereby enacted, that the terms "Hereditary District or Village Office or Officers" or "Hereditary District or Village Revenue Office or Officers" used in Regulation XVI 1827 and Regulation V 1833, of the Bombay Code, shall be held to apply to all descriptions of Hereditary Offices and Officers.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be reconsidered at the first meeting of the Legislative Council of India, after the 1st day of May next.

Secy. to the Govt. of India.

The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

M.'s Envoy Extraordinary and Minister Plenipotentiary to the Court of Persia, to be Her sole Plenipotentiary, and the said Plenipotentiaries having concluded a Commercial Treaty in these two Articles, have annexed and united it to the original Treaty, that by the aid of God it may henceforth be observed between the two Governments, and be a source of advantage to the subjects of both.

ARTICLE 1.

The Merchants of the two mighty States are reciprocally permitted and allowed to carry into each other's Territories their Goods and Manufactures of every description, and to sell or exchange them in any part of their respective countries, and on the Goods which they import or export Custom duties shall be levied, that is to say, on entering the Country the same amount of Custom duties shall be levied once for all that is levied on Merchandize imported by the Merchants of the most favoured European Nations, and at the time of going out of the Country, the same amount of Custom duties, which is levied on the Merchandize of Merchants of the most favored European Nations, shall be levied from the Merchants subjects of the High Contracting Parties, and except this no claim shall be made upon the Merchants of the two States in each other's dominions, on any pretext, or under any denomination, and the Merchants or persons connected with or dependent upon the high contracting parties in each other's dominions mutually shall receive the same aid and support, and the same respect which is received by the subjects of the most favored Nations.

Article 2.

As it is necessary for the purpose of attending to the affairs of the Merchants of the two parties respectively, that from both Governments Commercial Agents should be appointed to reside in stated places, it is therefore arranged that two Commercial Agents on the part of the British Government shall reside, one in the Capital and one in Tabreez, and in those places only, and on this condition that he who shall reside at Tabreez, and he alone shall be honored with the privileges of Consul General; and as for a series of years a Resident of the British Government has resided at Bushire, the Persian Government grants permission that the said Resident shall reside there as heretofore, and in like manner two Commercial Agents shall reside on the part of the Persian Government, one in the Capital of London, and one in the port of Bombay, and shall enjoy the same rank and privileges, which the Commercial Agents of the British Government shall enjoy in Persia.

This Commercial Treaty we, the Plenipotentiaries of the High Contracting Parties have agreed to, and in witness thereof have set thereunto our hands and seals at the Capital City of Tehran, this Twenty-eighth day of October, in the year of our Lord One Thousand Eight Hundred and Forty-one, corresponding to the Twelfth day of the month Ramazan, in the year of the Hejeira 1257.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium,* Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order ; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued ; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor ; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England ; and in cases where interest shall have accrued, such interest shall be computed at the rate or rates per cent. at which the Company have allowed Discount during the period for which such interest is chargeable.

SATURDAY, MARCH 26, 1842.

FORT WILLIAM,

LEGISLATIVE DEPARTMENT,

THE 21ST MARCH, 1842.

The following Draft of a proposed Act was read in Council for the first time on the 21st March 1842.

ACT NO. —— OF 1842.

An Act concerning the acquirement and extinction of rights by prescription in the territories subject to the Government of the East India Company, without the local jurisdiction of Her Majesty's Courts, at Calcutta, Madras, and Bombay, and in the Straits Settlements; and for the limitation of Suits in the Courts of the East India Company.

Prescription.—Section I. It is hereby enacted, that subject to the exceptions hereinafter mentioned, a title by prescription shall be acquired in respect of property, moveable and immoveable, and hereditary offices, by uninterrupted possession, mediate or immediate, as proprietor, for six years, in the case of moveable property, and for twelve years in the case of immoveable property and hereditary offices; provided that if any other title be proved, the possession shall have been adverse thereto—and provided that nothing herein contained shall be construed to affect any right arising from possession of moveable property now recognized by Law.

Section II. And it is hereby enacted, that in the case of any benefits, liberties, or privileges, derived out of, or affecting any immoveable property which shall have been enjoyed without interruption for twelve years, a right to the enjoyment thereof against the owner of the property shall be acquired by prescription, subject to the exceptions hereinafter mentioned, unless such benefits, liberties, or privileges shall have been enjoyed by some consent or agreement expressly given or made for that purpose by some Deed or writing.

Section III. And it is hereby enacted, that when a right to any such benefits, liberties, or privileges, as aforesaid, whether acquired by prescription or otherwise, shall have been disused for twelve years, the right shall be extinguished.

Section IV. And it is hereby enacted, that when a party shall have been forcibly dispossessed of immoveable property, or shall have been prevented from enjoying some benefit, liberty or privilege, derived out of, or affecting immoveable property, and shall have applied within the time limited by any law now in force, or within one month, to the proper authority, for assistance to recover the possession or the use thereof, and shall have recovered the same—the period during which his possession or enjoyment was interrupted in such manner shall not be considered an interruption within the meaning of this Act.

Section V. And it is hereby enacted, that when the possession upon which a title by prescription is claimed shall have been acquired by the deprivation of another party who was previously in possession, or in opposition to a title which had accrued but upon which possession had not been taken, or having been taken had been previously interrupted, it shall be deemed adverse in respect of the party so deprived of possession, and of any one claiming in the same right, or in respect of the parties interested in the said title, as the case may be, from the time at which the possession actually commenced; and that when an adverse title shall have accrued after the possession was acquired, the possession shall be deemed adverse to the parties interested therein from the time at which such title accrued.

Section VI. And it is hereby enacted, that possession acquired by a bonâ fide purchaser for valuable consideration from a Trustee, or from a Depository or Mortgagee, shall be deemed adverse to the Mortgagor, or Depositor, or Beneficial Owner under the Trust, from the time of the acquisition by purchase.

Section VII. And it is hereby enacted, that a title by prescription shall be acquired by possession by or through a Depository or Mortgagee which shall have continued without interruption, for thirty years in the case of moveable property, and sixty years in the case of immoveable property, unless in the mean time an acknowledgment of the title of the Mortgagor or Depositor, or of his right of redemption, shall have been given to him or some person claiming his interest, in writing signed by the Mortgagee or Depository or the person claiming through him, in which case prescription shall not take effect until possession shall have been had without interruption for 30, or 60 years, as the property may be moveable or immoveable, from the date of such acknowledgment.

Section VIII. And it is hereby enacted, that in the case of a concealed fraud by which a party shall have been deprived of any property, the possession thereof shall not be deemed adverse to the party entitled until the time at which such fraud shall or with reasonable diligence might have been first known by him, except when it shall have

been acquired by a bonâ fide purchaser for a valuable consideration, or when a party shall have succeeded to it by inheritance or devise : in the former case adverse possession shall be deemed to have commenced from the time that the party entitled was deprived of the property by means of such fraud—in the latter from the time of the succession—provided it shall not appear that the party to whom the possession devolved assisted in the commission of the fraud, or at the time he entered into possession knew, or had reason to believe that the fraud had been committed.

Section IX. And it is hereby enacted, that when a party having a right to any Estate or interest in reversion or remainder shall have become entitled to the same in possession by reason of any forfeiture or breach of condition, but shall have waived his action to recover thereupon, possession shall not be deemed adverse to him or any party claiming in the same right until the determination of the previous right.

Limitation of suits.

Section X. And it is hereby enacted, that suits other than for property and rights to which the above rules are applicable shall not be admitted in the Courts of Judicature of the East India Company except as hereinafter provided, unless they are instituted respectively within the period specified in the following Section.

Section XI. First. Within one year from the time the cause of action arose.

Suits for penal damages or pecuniary penalties, or forfeitures, for the breach of any law or regulation.

Suits for damage for injury to the person and personal property or to the reputation.

Suits for debt, on account of wages of servants, artizans, and labourers ; for hire of animals and vehicles; for retail supplies of victuals and articles of daily consumption ; for tavern bills and bills for board and lodging, and for lodging only ; for the rent of building; and on any other account subject by established custom to settlement by the month, or a shorter period.

Suits to alter or set aside summary decisions or orders of the ordinary Courts of Judicature.

Suits to alter or set aside summary awards by Collectors and other Officers of Revenue, in disputes regarding arrears and exactions of rent.

Suits founded on the right of pre-emption in cases to be governed by a law or usage which recognizes such right.

Second. Within six years from the time the cause of action arose.

All suits for debts and damages, upon contracts, or for wrongs, other than are described in Clause first of this Section; and for the enforcement of contracts.

Third. Within twelve years from the time the cause of action arose.

Suits for the recovery of Legacies.

Section XII. Provided, that suits against Trustees shall not be barred by any length of time.

Section XIII. And provided that whereby any law a shorter period is specially prescribed for the institution of a particular suit, the limitation so prescribed shall still be observed notwithstanding this Act.

Section XIV. 1st. And it is hereby enacted,—with respect to suits for the recovery of legacies and for debts that if an acknowledgment shall have been made by the party liable within the period of limitation applicable to the case, either by writing signed by him, or by part payment or part satisfaction on account of principal, or interest due thereon, then a new period of limitation shall be reckoned, according to the nature of the case from the date of such acknowledgment, or payment or satisfaction.

2d. Provided that if there be two or more parties liable no one of them shall be chargeable by reason only of a written acknowledgment made or signed by any other.

Section XV. And it is hereby enacted, that in suits for balances upon accounts current between Merchants and Traders who have had mutual dealings, the period of limitation shall be computed from the close of the year in the accounts of which there is the last entry indicating the continuance of mutual dealings; reckoning the year as it is reckoned in the accounts.

Section XVI. And it is hereby enacted, that in suits for damages for wrong done by a concealed fraud the cause of action shall be deemed to have first arisen at the time at which such fraud shall or with reasonable diligence might have been first known by the party wronged.

Section XVII. And it is hereby enacted, that in computing the periods of prescription specified in Sections I. and II. the time shall be excluded during which some party entitled to interrupt the possession or enjoyment shall have been under the disability of infancy or unsoundness of mind, or shall have been absent out of the Territories of the East India Company, and the contiguous Territories, and the Island of Ceylon, provided that no longer time than 18 years shall be excluded on account of any such disability, and no longer time than 5 years on account of such absence, and provided that the absence shall have been continuous from the time the title accrued.

Section XVIII. And it is hereby enacted, that in computing the period of prescription specified in Section I. in the case of moveable property the time shall be excluded during which the party in possession shall have been absent out of the Territories of the East India Company.

Section XIX. And it is hereby enacted, that in computing the periods of prescription specified in Sections I. and II. the time shall be excluded during which any suit brought bonâ fide to interrupt the possession shall have been pending and shall have been diligently prosecuted in any Court of Judicature which from defect of jurisdiction or other cause shall have been unable to decide upon it, or shall have passed a decision which shall have been annulled on appeal for any such cause.

Section XX. And it is hereby enacted, that the provision of Section III. shall not have effect when the party entitled to use the benefits, liberties or privileges therein referred to, shall have been under any of the disabilities specified in Section XVII., except as subject to the provisions contained in that Section.

Section XXI. And it is hereby enacted, that in computing the periods of limitation specified in Section XI. the time shall be excluded during which the claimant or any person through whom he claims shall have been under the disability of infancy or unsoundness of mind; provided in respect of the suits described in Clauses 2 or 3 of the said Section that no longer time than 18 years shall be so excluded; and

in respect of the suits specified in Clause I. of the same Section, excepting suits for penal damages, that no longer time than 5 years shall be so excluded: provided further, that suits for penal damages shall never be admitted after the expiration of 1 year.

Section XXII. And it is hereby enacted, that in all suits described in Section XI. except suits for penal damages, when the claimant or the person through whom he claims shall have been absent out of the Territories of the East India Company, and the contiguous territories and the Island of Ceylon, at the time the cause of action arose, and shall have continued so absent, the time of such continued absence shall be excluded in computing the prescribed period of limitation, provided that no longer time than 5 years shall be so excluded.

Section XXIII. And it is hereby enacted, that in all suits described in Section XI. the time during which the defendant shall have been absent out of the Territories of the East India Company, shall be excluded in computing the prescribed period of limitation.

Section XXIV. And it is hereby enacted, that in computing the period of limitation applicable to any case the time shall be excluded, during which the claimant or the person through whom he claims shall have been engaged in prosecuting a suit upon the same cause of action against the same party or some party whom he represents, bonâ fide and with due diligence, in any Court of Judicature, which from defect of jurisdiction or other cause shall have been unable to decide upon it, or shall have passed a decision which on appeal shall have been annulled for any such cause.

Section XXV. And it is hereby enacted, that when by the provisions of this Act a person is barred from bringing a suit for the recovery of any legacy, debt, or damages, his right to the legacy, debt, or damages, for which a suit might have been brought by him, but for those provisions, shall be extinguished unless such right is secured by some mortgage, pledge or lien.

Section XXVI. And it is hereby enacted, that no complaint or information shall be proceeded upon by any Magistrate or Justice of the Peace against any person for any offence punishable by fine only, or by any Officer of Revenue against any person liable to any penalty or forfeiture, unless such complaint or information shall have been received within one year from the commission of the act charged, or within any shorter period that may be prescribed by any existing law for preferring such complaint or information.

Section XXVII. And it is hereby provided, that this Act shall not be construed to affect the provisions of Section X. Regulation XIX. 1793, extended to Cuttack by Section XXIV. Regulation XII. 1805, Section X. Regulation XLI. 1795, and Section VI. Regulation XXXI. 1803, extended to the Territories ceded by Dowlut Rao Scindiah and the Peishwah by Section XXI. Regulation VIII. 1805 of the Bengal Code.

Section XXVIII. And it is hereby provided, that this Act shall not extend to any public property or right, nor to any suits for the recovery of the public Revenue, or for any public claim whatever.

Section XXIX. And it is hereby enacted, that all suits that may be now pending or that may be instituted within the period of 6 months from the date of the passing of this Act shall be tried and determined as if this Act had not been passed.

Section XXX. And it is hereby enacted, that the provisions of this Act concerning the acquisition and extinction of rights shall not be of force in respect of any property situated or being within the local jurisdiction of Her Majesty's Supreme Courts at Calcutta, Madras and Bombay, and of the Recorder's Court in the Straits of Malacca, and that the Rules of limitation contained in this Act shall not be applied to any suits or actions in those Courts.

Ordered, that the Draft now read be published for general information.

ACT NO. —— OF 1842.

An Act for extending the Statute Ch. XXI. 4th and 5th of Queen Victoria in certain cases to the Territories of the East India Company.

I. It is hereby enacted, that the Statute Ch. XXI. of the 4th and 5th years of the reign of Queen Victoria, entitled "An Act for rendering a Release as effectual "for the conveyance of Freehold Estates as a Lease "and Release by the same parties," shall be extended to the territories of the East India Company from the 1st day of July next; provided always that this Act shall not be construed to affect any case which would not have been governed by the Law of England before the passing of the aforesaid Statute, if this Act had not passed.

An Act for rendering a Release as effectual for the conveyance of Freehold Estates as a Lease and Release by the same Parties.

[18TH MAY, 1841.]

"Whereas it is expedient to lessen the expense of "conveying Freehold Estates:" Be it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, That every Deed or Instrument of Release of a Freehold Estate, or Deed or Instrument purporting or intended to be a Deed or Instrument of Release of a Freehold Estate, which shall be executed on or after the 15th day of May 1841, and shall be expressed to be made in pursuance of this Act, shall be as effectual for the purposes therein expressed, and shall take effect as a conveyance to uses or otherwise, and shall operate in all respects both at Law and Equity as if the releasing party or parties who shall have executed the same had also executed in due form a Deed or Instrument of Bargain and Sale or Lease for a year for giving effect to such Release, although no such Deed or Instrument of Bargain and Sale or Lease for a year shall be executed, provided that every such Deed or Instrument so taking effect under this Act shall be chargeable with the same amount of Stamp Duty as any Bargain and Sale or Lease for a year would have been chargeable with (except progressive Duty) if executed to give effect to such Deed or Instrument, in addition to the Stamp Duties which such Deed or Instrument shall be chargeable with as a Release or otherwise under any Act or Acts relating to Stamp Duties.

II. "And whereas many Deeds or Instruments of "Bargain and Sale or Leases for a year, to give "effect to Deeds or Instruments of Release of Free- "hold Estates heretofore executed, have been lost "or mislaid;" be it enacted, That where, in or by any Deed or Instrument of Release of Freehold Estates executed before the the 15th day of May 1841, any Deed or Instrument of Bargain and Sale or Lease for a year for giving effect to such Deed or Instrument of Release shall be recited, or by any

mention thereof in such Deed or Instrument of Release appear to have been made or executed, such recital or mention thereof shall be deemed and taken to be conclusive Evidence of the Deed or Instrument of Bargain and Sale or Lease for a year so recited or mentioned having been made and executed; and such Deed or Instrument of Release shall also have the like effect as if the same had been executed after the 15th day of May 1841, whether such Deed or Instrument of Bargain and Sale or Lease for a year shall or shall not have been lost or mislaid, or may or may not be produced: Provided always, that this Act shall not prejudice or affect any proceedings at Law or in Equity pending at the time of the passing of this Act, in which the validity of any Bargain and Sale or Lease for a year shall be in question between the party claiming under such Bargain and Sale or Lease for a year and the party claiming adversely thereto, and such Bargain and Sale or Lease for a year if the result of such proceedings shall invalidate the same, shall not be rendered valid by this Act.

III. And be it enacted, that in the construction of this Act the word "Freehold" shall have not only its usual signification, but shall extend to all Lands and Hereditaments for the conveyance of which, if this Act had not been passed, a Bargain and Sale or Lease for a year, as well as a Release, would have been used.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India after the 21st day of June next.

WEDNESDAY, MARCH 30, 1842.

FORT WILLIAM,
LEGISLATIVE DEPARTMENT,

THE 21ST MARCH, 1842.

The following Draft of a proposed Act was read in Council for the first time on the 21st March 1842.

ACT NO. —— OF 1842.

An Act concerning the acquirement and extinction of rights by prescription in the territories subject to the Government of the East India Company, without the local jurisdiction of Her Majesty's Courts, at Calcutta, Madras, and Bombay, and in the Straits Settlements; and for the limitation of Suits in the Courts of the East India Company.

Prescription.—Section I. It is hereby enacted, that subject to the exceptions hereinafter mentioned, a title by prescription shall be acquired in respect of property, moveable and immoveable, and hereditary offices, by uninterrupted possession, mediate or immediate, as proprietor, for six years, in the case of moveable property, and for twelve years in the case of immoveable property and hereditary offices; provided that if any other title be proved, the possession shall have been adverse thereto—and provided that nothing herein contained shall be construed to affect any right arising from possession of moveable property now recognized by Law.

Section II. And it is hereby enacted, that in the case of any benefits, liberties, or privileges, derived out of, or affecting any immoveable property which shall have been enjoyed without interruption for twelve years, a right to the enjoyment thereof against the owner of the property shall be acquired by prescription, subject to the exceptions hereinafter mentioned, unless such benefits, liberties, or privileges shall have been enjoyed by some consent or agreement expressly given or made for that purpose by some Deed or writing.

Section III. And it is hereby enacted, that when a right to any such benefits, liberties, or privileges, as aforesaid, whether acquired by prescription or otherwise, shall have been disused for twelve years, the right shall be extinguished.

Section IV. And it is hereby enacted, that when a party shall have been forcibly dispossessed of immoveable property, or shall have been prevented from enjoying some benefit, liberty or privilege, derived out of, or affecting immoveable property, and shall have applied within the time limited by any law now in force, or within one month, to the proper authority, for assistance to recover the possession or the use thereof, and shall have recovered the same—the period during which his possession or enjoyment was interrupted in such manner shall not be considered an interruption within the meaning of this Act.

Section V. And it is hereby enacted, that when the possession upon which a title by prescription is claimed shall have been acquired by the deprivation of another party who was previously in possession, or in opposition to a title which had accrued but upon which possession had not been taken, or having been taken had been previously interrupted, it shall be deemed adverse in respect of the party so deprived of possession, and of any one claiming in the same right, or in respect of the parties interested in the said title, as the case may be, from the time at which the possession actually commenced; and that when an adverse title shall have accrued after the possession was acquired, the possession shall be deemed adverse to the parties interested therein from the time at which such title accrued.

Section VI. And it is hereby enacted, that possession acquired by a bonâ fide purchaser for valuable consideration from a Trustee, or from a Depository or Mortgagee, shall be deemed adverse to the Mortgagor, or Depositor, or Beneficial Owner under the Trust, from the time of the acquisition by purchase.

Section VII. And it is hereby enacted, that a title by prescription shall be acquired by possession by or through a Depository or Mortgagee which shall have continued without interruption, for thirty years in the case of moveable property, and sixty years in the case of immoveable property, unless in the mean time an acknowledgment of the title of the Mortgagor or Depositor, or of his right of redemption, shall have been given to him or some person claiming his interest, in writing signed by the Mortgagee or Depository or the person claiming through him, in which case prescription shall not take effect until possession shall have been had without interruption for 30, or 60 years, as the property may be moveable or immoveable, from the date of such acknowledgment.

Section VIII. And it is hereby enacted, that in the case of a concealed fraud by which a party shall have been deprived of any property, the possession thereof shall not be deemed adverse to the party entitled until the time at which such fraud shall or with reasonable diligence might have been first known by him, except when it shall have

been acquired by a bonâ fide purchaser for a valuable consideration, or when a party shall have succeeded to it by inheritance or devise: in the former case adverse possession shall be deemed to have commenced from the time that the party entitled was deprived of the property by means of such fraud—in the latter from the time of the succession—provided it shall not appear that the party to whom the possession devolved assisted in the commission of the fraud, or at the time he entered into possession knew, or had reason to believe that the fraud had been committed.

Sectoni IX. And it is hereby enacted, that when a party having a right to any Estate or interest in reversion or remainder shall have become entitled to the same in possession by reason of any forfeiture or breach of condition, but shall have waived his action to recover thereupon, possession shall not be deemed adverse to him or any party claiming in the same right until the determination of the previous right.

Limitation of suits.

Section X. And it is hereby enacted, that suits other than for property and rights to which the above rules are applicable shall not be admitted in the Courts of Judicature of the East India Company except as hereinafter provided, unless they are instituted respectively within the period specified in the following Section.

Section XI. First. Within one year from the time the cause of action arose.

Suits for penal damages or pecuniary penalties, or forfeitures, for the breach of any law or regulation.

Suits for damage for injury to the person and personal property or to the reputation.

Suits for debt, on account of wages of servants, artizans, and labourers; for hire of animals and vehicles; for retail supplies of victuals and articles of daily consumption; for tavern bills and bills for board and lodging, and for lodging only; for the rent of building; and on any other account subject by established custom to settlement by the month, or a shorter period.

Suits to alter or set aside summary decisions or orders of the ordinary Courts of Judicature.

Suits to alter or set aside summary awards by Collectors and other Officers of Revenue, in disputes regarding arrears and exactions of rent.

Suits founded on the right of pre-emption in cases to be governed by a law or usage which recognizes such right.

Second. Within six years from the time the cause of action arose.

All suits for debts and damages, upon contracts, or for wrongs, other than are described in Clause first of this Section; and for the enforcement of contracts.

Third. Within twelve years from the time the cause of action arose.

Suits for the recovery of Legacies.

Section XII. Provided, that suits against Trustees shall not be barred by any length of time.

Section XIII. And provided that whereby any law a shorter period is specially prescribed for the institution of a particular suit, the limitation so prescribed shall still be observed notwithstanding this Act.

Section XIV. 1st. And it is hereby enacted,—with respect to suits for the recovery of legacies and for debts that if an acknowledgment shall have been made by the party liable within the period of limitation applicable to the case, either by writing signed by him, or by part payment or part satisfaction on account of principal, or interest due thereon, then a new period of limitation shall be reckoned, according to the nature of the case from the date of such acknowledgment, or payment or satisfaction.

2d. Provided that if there be two or more parties liable no one of them shall be chargeable by reason only of a written acknowledgment made or signed by any other.

Section XV. And it is hereby enacted, that in suits for balances upon accounts current between Merchants and Traders who have had mutual dealings, the period of limitation shall be computed from the close of the year in the accounts of which there is the last entry indicating the continuance of mutual dealings; reckoning the year as it is reckoned in the accounts.

Section XVI. And it is hereby enacted, that in suits for damages for wrong done by a concealed fraud the cause of action shall be deemed to have first arisen at the time at which such fraud shall or with reasonable diligence might have been first known by the party wronged.

Section XVII. And it is hereby enacted, that in computing the periods of prescription specified in Sections I. and II. the time shall be excluded during which some party entitled to interrupt the possession or enjoyment shall have been under the disability of infancy or unsoundness of mind, or shall have been absent out of the Territories of the East India Company, and the contiguous Territories, and the Island of Ceylon, provided that no longer time than 18 years shall be excluded on account of any such disability, and no longer time than 5 years on account of such absence, and provided that the absence shall have been continuous from the time the title accrued.

Section XVIII. And it is hereby enacted, that in computing the period of prescription specified in Section I. in the case of moveable property the time shall be excluded during which the party in possession shall have been absent out of the Territories of the East India Company.

Section XIX. And it is hereby enacted, that in computing the periods of prescription specified in Sections I. and II. the time shall be excluded during which any suit brought bonâ fide to interrupt the possession shall have been pending and shall have been diligently prosecuted in any Court of Judicature which from defect of jurisdiction or other cause shall have been unable to decide upon it, or shall have passed a decision which shall have been annulled on appeal for any such cause.

Section XX. And it is hereby enacted, that the provision of Section III. shall not have effect when the party entitled to use the benefits, liberties or privileges therein referred to, shall have been under any of the disabilities specified in Section XVII., except as subject to the provisions contained in that Section.

Section XXI. And it is hereby enacted, that in computing the periods of limitation specified in Section XI. the time shall be excluded during which the claimant or any person through whom he claims shall have been under the disability of infancy or unsoundness of mind; provided in respect of the suits described in Clauses 2 or 3 of the said Section that no longer time than 18 years shall be so excluded; and

in respect of the suits specified in Clause I. of the same Section, excepting suits for penal damages, that no longer time than 5 years shall be so excluded: provided further, that suits for penal damages shall never be admitted after the expiration of 1 year.

Section XXII. And it is hereby enacted, that in all suits described in Section XI. except suits for penal damages, when the claimant or the person through whom he claims shall have been absent out of the Territories of the East India Company, and the contiguous territories and the Island of Ceylon, at the time the cause of action arose, and shall have continued so absent, the time of such continued absence shall be excluded in computing the prescribed period of limitation, provided that no longer time than 5 years shall be so excluded.

Section XXIII. And it is hereby enacted, that in all suits described in Section XI. the time during which the defendant shall have been absent out of the Territories of the East India Company, shall be excluded in computing the prescribed period of limitation.

Section XXIV. And it is hereby enacted, that in computing the period of limitation applicable to any case the time shall be excluded, during which the claimant or the person through whom he claims shall have been engaged in prosecuting a suit upon the samé canse of action against the same party or some party whom he represents, bonâ fide and with due diligence, in any Court of Judicature, which from defect of jurisdiction or other cause shall have been unable to decide upon it, or shall have passed a decision which on appeal shall have been annulled for any such cause.

Section XXV. And it is hereby enacted, that when by the provisions of this Act a person is barred from bringing a suit for the recovery of any legacy, debt, or damages, his right to the legacy, debt, or damages, for which a suit might have been brought by him, but for those provisions, shall be extinguished unless such right is secured by some mortgage, pledge or lien.

Section XXVI. And it is hereby enacted, that no complaint or information shall be proceeded upon by any Magistrate or Justice of the Peace against any person for any offence punishable by fine only, or by any Officer of Revenue against any person liable to any penalty or forfeiture, unless such complaint or information shall have been received within one year from the commission of the act charged, or within any shorter period that may be prescribed by any existing law for preferring such complaint or information.

Section XXVII. And it is hereby provided, that this Act shall not be construed to affect the provisions of Section X. Regulation XIX. 1793, extended to Cuttack by Section XXIV. Regulation XII. 1805, Section X. Regulation XLI. 1795, and Section VI. Regulation XXXI. 1803, extended to the Territories ceded by Dowlut Rao Scindiah and the Peishwah by Section XXI. Regulation VIII. 1805 of the Bengal Code.

Section XXVIII. And it is hereby provided, that this Act shall not extend to any public property or right, nor to any suits for the recovery of the public Revenue, or for any public claim whatever.

Section XXIX. And it is hereby enacted, that all suits that may be now pending or that may be instituted within the period of 6 months from the date of the passing of this Act shall be tried and determined as if this Act had not been passed.

Section XXX. And it is hereby enacted, that the provisions of this Act concerning the acquisition and extinction of rights shall not be of force in respect of any property situated or being within the local jurisdiction of Her Majesty's Supreme Courts at Calcutta, Madras and Bombay, and of the Recorder's Court in the Straits of Malacca, and that the Rules of limitation contained in this Act shall not be applied to any suits or actions in those Courts.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be reconsidered at the first meeting of the Legislative Council after the 21st day of June next.

FORT WILLIAM,

LEGISLATIVE DEPARTMENT,

THE 21ST MARCH, 1842.

The following Draft of a proposed Act was read in Council for the first time on the 21st March, 1842:

ACT NO. —— OF 1842.

An Act for extending the Statute Ch. XXI. 4th and 5th of Queen Victoria in certain cases to the Territories of the East India Company.

I. It is hereby enacted, that the Statute Ch. XXI. of the 4th and 5th years of the reign of Queen Victoria, entitled "An Act for rendering a Release as effectual "for the conveyance of Freehold Estates as a Lease "and Release by the same parties," shall be extended to the territories of the East India Company from the 1st day of July next; provided always that this Act shall not be construed to affect any case which would not have been governed by the Law of England before the passing of the aforesaid Statute, if this Act had not passed

An Act for rendering a Release as effectual for the conveyance of Freehold Estates as a Lease and Release by the same Parties.

[18TH MAY, 1841.]

"Whereas it is expedient to lessen the expense of "conveying Freehold Estates:" Be it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, That every Deed or Instrument of Release of a Freehold Estate, or Deed or Instrument purporting or intended to be a Deed or Instrument of Release of a Freehold Estate, which shall be executed on or after the 15th day of May 1841, and shall be expressed to be made in pursuance of this Act, shall be as effectual for the purposes therein expressed, and shall take effect as a conveyance to uses or otherwise, and shall operate in all respects both at Law and Equity as if the releasing party or parties who shall have executed the same had also executed in due form a Deed or Instrument of Bargain and Sale or Lease for a year for giving effect to such Release, although no such Deed or Instrument of Bargain and Sale or Lease for a year shall be executed, provided that every such Deed or Instrument so taking effect under this Act shall be chargeable with the same amount of Stamp Duty as any Bargain and Sale or Lease for a year would have been chargeable with (except progressive Duty) if executed to give effect to such Deed or Instrument, in addition to the Stamp Duties which such Deed or Instrument shall be chargeable with as a Release or otherwise under any Act or Acts relating to Stamp Duties.

II "And whereas many Deeds or Instruments of "Bargain and Sale or Leases for a year, to give "effect to Deeds or Instruments of Release of Free"hold Estates heretofore executed, have been lost "or mislaid;" be it enacted, That where, in or by any Deed or Instrument of Release of Freehold Estates executed before the the 15th day of May 1841, any Deed or Instrument of Bargain and Sale or Lease for a year for giving effect to such Deed or Instrument of Release shall be recited, or by any

mention thereof in such Deed or Instrument of Release appear to have been made or executed, such recital or mention thereof shall be deemed and taken to be conclusive Evidence of the Deed or Instrument of Bargain and Sale or Lease for a year so recited or mentioned having been made and executed; and such Deed or Instrument of Release shall also have the like effect as if the same had been executed after the 15th day of May 1841, whether such Deed or Instrument of Bargain and Sale or Lease for a year shall or shall not have been lost or mislaid, or may or may not be produced: Provided always, that this Act shall not prejudice or affect any proceedings at Law or in Equity pending at the time of the passing of this Act, in which the validity of any Bargain and Sale or Lease for a year shall be in question between the party claiming under such Bargain and Sale or Lease for a year and the party claiming adversely thereto, and such Bargain and Sale or Lease for a year if the result of such proceedings shall invalidate the same, shall not be rendered valid by this Act.

III. And be it enacted, that in the construction of this Act the word "Freehold" shall have not only its usual signification, but shall extend to all Lands and Hereditaments for the conveyance of which, if this Act had not been passed, a Bargain and Sale or Lease for a year, as well as a Release, would have been used.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India after the 21st day of June next.

FORT WILLIAM,

LEGISLATIVE DEPARTMENT,

THE 21ST MARCH, 1842.

The following Draft of a proposed Act was read in Council for the first time on the 21st March 1842.

ACT No. —— OF 1842.

An Act concerning the acquirement and extinction of rights by prescription in the territories subject to the Government of the East India Company, without the local jurisdiction of Her Majesty's Courts, at Calcutta, Madras, and Bombay, and in the Straits Settlements; and for the limitation of Suits in the Courts of the East India Company.

Prescription.—Section I. It is hereby enacted, that subject to the exceptions hereinafter mentioned, a title by prescription shall be acquired in respect of property, moveable and immoveable, and hereditary offices, by uninterrupted possession, mediate or immediate, as proprietor, for six years, in the case of moveable property, and for twelve years in the case of immoveable property and hereditary offices; provided that if any other title be proved, the possession shall have been adverse thereto—and provided that nothing herein contained shall be construed to affect any right arising from possession of moveable property now recognized by Law.

Section II. And it is hereby enacted, that in the case of any benefits, liberties, or privileges, derived out of, or affecting any immoveable property which shall have been enjoyed without interruption for twelve years, a right to the enjoyment thereof against the owner of the property shall be acquired by prescription, subject to the exceptions hereinafter mentioned, unless such benefits, liberties, or privileges shall have been enjoyed by some consent or agreement expressly given or made for that purpose by some Deed or writing.

Section III. And it is hereby enacted, that when a right to any such benefits, liberties, or privileges, as aforesaid, whether acquired by prescription or otherwise, shall have been disused for twelve years, the right shall be extinguished.

Section IV. And it is hereby enacted, that when a party shall have been forcibly dispossessed of immoveable property, or shall have been prevented from enjoying some benefit, liberty or privilege, derived out of, or affecting immoveable property, and shall have applied within the time limited by any law now in force, or within one month, to the proper authority, for assistance to recover the possession or the use thereof, and shall have recovered the same—the period during which his possession or enjoyment was interrupted in such manner shall not be considered an interruption within the meaning of this Act.

Section V. And it is hereby enacted, that when the possession upon which a title by prescription is claimed shall have been acquired by the deprivation of another party who was previously in possession, or in opposition to a title which had accrued but upon which possession had not been taken, or having been taken had been previously interrupted, it shall be deemed adverse in respect of the party so deprived of possession, and of any one claiming in the same right, or in respect of the parties interested in the said title, as the case may be, from the time at which the possession actually commenced; and that when an adverse title shall have accrued after the possession was acquired, the possession shall be deemed adverse to the parties interested therein from the time at which such title accrued.

Section VI. And it is hereby enacted, that possession acquired by a bonâ fide purchaser for valuable consideration from a Trustee, or from a Depository or Mortgagee, shall be deemed adverse to the Mortgagor, or Depositor, or Beneficial Owner under the Trust, from the time of the acquisition by purchase.

Section VII. And it is hereby enacted, that a title by prescription shall be acquired by possession by or through a Depository or Mortgagee which shall have continued without interruption, for thirty years in the case of moveable property, and sixty years in the case of immoveable property, unless in the mean time an acknowledgment of the title of the Mortgagor or Depositor, or of his right of redemption, shall have been given to him or some person claiming his interest, in writing signed by the Mortgagee or Depository or the person claiming through him, in which case prescription shall not take effect until possession shall have been had without interruption for 30, or 60 years, as the property may be moveable or immoveable, from the date of such acknowledgment.

Section VIII. And it is hereby enacted, that in the case of a concealed fraud by which a party shall have been deprived of any property, the possession thereof shall not be deemed adverse to the party entitled until the time at which such fraud shall or with reasonable diligence might have been first known by him, except when it shall have

been acquired by a bonâ fide purchaser for a valuable consideration, or when a party shall have succeeded to it by inheritance or devise: in the former case adverse possession shall be deemed to have commenced from the time that the party entitled was deprived of the property by means of such fraud—in the latter from the time of the succession—provided it shall not appear that the party to whom the possession devolved assisted in the commission of the fraud, or at the time he entered into possession knew, or had reason to believe that the fraud had been committed.

Sectoni IX. And it is hereby enacted, that when a party having a right to any Estate or interest in reversion or remainder shall have become entitled to the same in possession by reason of any forfeiture or breach of condition, but shall have waived his action to recover thereupon, possession shall not be deemed adverse to him or any party claiming in the same right until the determination of the previous right.

Limitation of suits.

Section X. And it is hereby enacted, that suits other than for property and rights to which the above rules are applicable shall not be admitted in the Courts of Judicature of the East India Company except as hereinafter provided, unless they are instituted respectively within the period specified in the following Section.

Section XI. First. Within one year from the time the cause of action arose.

Suits for penal damages or pecuniary penalties, or forfeitures, for the breach of any law or regulation.

Suits for damage for injury to the person and personal property or to the reputation.

Suits for debt, on account of wages of servants, artizans, and labourers; for hire of animals and vehicles; for retail supplies of victuals and articles of daily consumption; for tavern bills and bills for board and lodging, and for lodging only; for the rent of building; and on any other account subject by established custom to settlement by the month, or a shorter period. .

Suits to alter or set aside summary decisions or orders of the ordinary Courts of Judicature.

Suits to alter or set aside summary awards by Collectors and other Officers of Revenue, in disputes regarding arrears and exactions of rent.

Suits founded on the right of pre-emption in cases to be governed by a law or usage which recognizes such right.

Second. Within six years from the time the cause of action arose.

All suits for debts and damages, upon contracts, or for wrongs, other than are described in Clause first of this Section; and for the enforcement of contracts.

Third. Within twelve years from the time the cause of action arose.

Suits for the recovery of Legacies.

Section XII. Provided, that suits against Trustees shall not be barred by any length of time.

Section XIII. And provided that whereby any law a shorter period is specially prescribed for the institution of a particular suit, the limitation so prescribed shall still be observed notwithstanding this Act.

Section XIV. 1st. And it is hereby enacted,—with respect to suits for the recovery of legacies and for debts that if an acknowledgment shall have been made by the party liable within the period of limitation applicable to the case, either by writing signed by him, or by part payment or part satisfaction on account of principal, or interest due thereon, then a new period of limitation shall be reckoned, according to the nature of the case from the date of such acknowledgment, or payment or satisfaction.

2d. Provided that if there be two or more parties liable no one of them shall be chargeable by reason only of a written acknowledgment made or signed by any other.

Section XV. And it is hereby enacted, that in suits for balances upon accounts current between Merchants and Traders who have had mutual dealings, the period of limitation shall be computed from the close of the year in the accounts of which there is the last entry indicating the continuance of mutual dealings; reckoning the year as it is reckoned in the accounts.

Section XVI. And it is hereby enacted, that in suits for damages for wrong done by a concealed fraud the cause of action shall be deemed to have first arisen at the time at which such fraud shall or with reasonable diligence might have been first known by the party wronged.

Section XVII. And it is hereby enacted, that in computing the periods of prescription specified in Sections I. and II. the time shall be excluded during which some party entitled to interrupt the possession or enjoyment shall have been under the disability of infancy or unsoundness of mind, or shall have been absent out of the Territories of the East India Company, and the contiguous Territories, and the Island of Ceylon, provided that no longer time than 18 years shall be excluded on account of any such disability, and no longer time than 5 years on account of such absence, and provided that the absence shall have been continuous from the time the title accrued.

Section XVIII. And it is hereby enacted, that in computing the period of prescription specified in Section I. in the case of moveable property the time shall be excluded during which the party in possession shall have been absent out of the Territories of the East India Company.

Section XIX. And it is hereby enacted, that in computing the periods of prescription specified in Sections I. and II. the time shall be excluded during which any suit brought bonâ fide to interrupt the possession shall have been pending and shall have been diligently prosecuted in any Court of Judicature which from defect of jurisdiction or other cause shall have been unable to decide upon it, or shall have passed a decision which shall have been annulled on appeal for any such cause.

Section XX. And it is hereby enacted, that the provision of Section III. shall not have effect when the party entitled to use the benefits, liberties or privileges therein referred to, shall have been under any of the disabilities specified in Section XVII., except as subject to the provisions contained in that Section.

Section XXI. And it is hereby enacted, that in computing the periods of limitation specified in Section XI. the time shall be excluded during which the claimant or any person through whom he claims shall have been under the disability of infancy or unsoundness of mind; provided in respect of the suits described in Clauses 2 or 3 of the said Section that no longer time than 18 years shall be so excluded; and

in respect of the suits specified in Clause I. of the same Section, excepting suits for penal damages, that no longer time than 5 years shall be so excluded: provided further, that suits for penal damages shall never be admitted after the expiration of 1 year.

Section XXII. And it is hereby enacted, that in all suits described in Section XI. except suits for penal damages, when the claimant or the person through whom he claims shall have been absent out of the Territories of the East India Company, and the contiguous territories and the Island of Ceylon, at the time the cause of action arose, and shall have continued so absent, the time of such continued absence shall be excluded in computing the prescribed period of limitation, provided that no longer time than 5 years shall be so excluded.

Section XXIII. And it is hereby enacted, that in all suits described in Section XI. the time during which the defendant shall have been absent out of the Territories of the East India Company, shall be excluded in computing the prescribed period of limitation.

Section XXIV. And it is hereby enacted, that in computing the period of limitation applicable to any case the time shall be excluded, during which the claimant or the person through whom he claims shall have been engaged in prosecuting a suit upon the same cause of action against the same party or some party whom he represents, bonâ fide and with due diligence, in any Court of Judicature, which from defect of jurisdiction or other cause shall have been unable to decide upon it, or shall have passed a decision which on appeal shall have been annulled for any such cause.

Section XXV. And it is hereby enacted, that when by the provisions of this Act a person is barred from bringing a suit for the recovery of any legacy, debt, or damages, his right to the legacy, debt, or damages, for which a suit might have been brought by him, but for those provisions, shall be extinguished unless such right is secured by some mortgage, pledge or lien.

Section XXVI. And it is hereby enacted, that no complaint or information shall be proceeded upon by any Magistrate or Justice of the Peace against any person for any offence punishable by fine only, or by any Officer of Revenue against any person liable to any penalty or forfeiture, unless such complaint or information shall have been received within one year from the commission of the act charged, or within any shorter period that may be prescribed by any existing law for preferring such complaint or information.

Section XXVII. And it is hereby provided, that this Act shall not be construed to affect the provisions of Section X. Regulation XIX. 1793, extended to Cuttack by Section XXIV. Regulation XII. 1805, Section X. Regulation XLI. 1795, and Section VI. Regulation XXXI. 1803, extended to the Territories ceded by Dowlut Rao Scindiah and the Peishwah by Section XXI. Regulation VIII. 1805 of the Bengal Code.

Section XXVIII. And it is hereby provided, that this Act shall not extend to any public property or right, nor to any suits for the recovery of the public Revenue, or for any public claim whatever.

Section XXIX. And it is hereby enacted, that all suits that may be now pending or that may be instituted within the period of 6 months from the date of the passing of this Act shall be tried and determined as if this Act had not been passed.

Section XXX. And it is hereby enacted, that the provisions of this Act concerning the acquisition and extinction of rights shall not be of force in respect of any property situated or being within the local jurisdiction of Her Majesty's Supreme Courts at Calcutta, Madras and Bombay, and of the Recorder's Court in the Straits of Malacca, and that the Rules of limitation contained in this Act shall not be applied to any suits or actions in those Courts.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be reconsidered at the first meeting of the Legislative Council after the 21st day of June next.

FORT WILLIAM,

LEGISLATIVE DEPARTMENT,

THE 21ST MARCH, 1842.

The following Draft of a proposed Act was read in Council for the first time on the 21st March, 1842:

ACT NO. —— OF 1842.

An Act for extending the Statute Ch. XXI. 4th and 5th of Queen Victoria in certain cases to the Territories of the East India Company.

I. It is hereby enacted, that the Statute Ch. XXI. of the 4th and 5th years of the reign of Queen Victoria, entitled "An Act for rendering a Release as effectual "for the conveyance of Freehold Estates as a Lease "and Release by the same parties," shall be extended to the territories of the East India Company from the 1st day of July next; provided always that this Act shall not be construed to affect any case which would not have been governed by the Law of England before the passing of the aforesaid Statute, if this Act had not passed.

An Act for rendering a Release as effectual for the conveyance of Freehold Estates as a Lease and Release by the same Parties.

[18TH MAY, 1841.]

"Whereas it is expedient to lessen the expense of "conveying Freehold Estates:" Be it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, That every Deed or Instrument of Release of a Freehold Estate, or Deed or Instrument purporting or intended to be a Deed or Instrument of Release of a Freehold Estate, which shall be executed on or after the 15th day of May 1841, and shall be expressed to be made in pursuance of this Act, shall be as effectual for the purposes therein expressed, and shall take effect as a conveyance to uses or otherwise, and shall operate in all respects both at Law and Equity as if the releasing party or parties who shall have executed the same had also executed in due form a Deed or Instrument of Bargain and Sale or Lease for a year for giving effect to such Release, although no such Deed or Instrument of Bargain and Sale or Lease for a year shall be executed, provided that every such Deed or Instrument so taking effect under this Act shall be chargeable with the same amount of Stamp Duty as any Bargain and Sale or Lease for a year would have been chargeable with (except progressive Duty) if executed to give effect to such Deed or Instrument, in addition to the Stamp Duties which such Deed or Instrument shall be chargeable with as a Release or otherwise under any Act or Acts relating to Stamp Duties.

II. "And whereas many Deeds or Instruments of "Bargain and Sale or Leases for a year, to give "effect to Deeds or Instruments of Release of Free-"hold Estates heretofore executed, have been lost "or mislaid;" be it enacted, That where, in or by any Deed or Instrument of Release of Freehold Estates executed before the the 15th day of May 1841, any Deed or Instrument of Bargain and Sale or Lease for a year for giving effect to such Deed or Instrument of Release shall be recited, or by any

mention thereof in such Deed or Instrument of Release appear to have been made or executed, such recital or mention thereof shall be deemed and taken to be conclusive Evidence of the Deed or Instrument of Bargain and Sale or Lease for a year so recited or mentioned having been made and executed; and such Deed or Instrument of Release shall also have the like effect as if the same had been executed after the 15th day of May 1841, whether such Deed or Instrument of Bargain and Sale or Lease for a year shall or shall not have been lost or mislaid, or may or may not be produced: Provided always, that this Act shall not prejudice or affect any proceedings at Law or in Equity pending at the time of the passing of this Act, in which the validity of any Bargain and Sale or Lease for a year shall be in question between the party claiming under such Bargain and Sale or Lease for a year and the party claiming adversely thereto, and such Bargain and Sale or Lease for a year if the result of such proceedings shall invalidate the same, shall not be rendered valid by this Act.

III. And be it enacted, that in the construction of this Act the word "Freehold" shall have not only its usual signification, but shall extend to all Lands and Hereditaments for the conveyance of which, if this Act had not been passed, a Bargain and Sale or Lease for a year, as well as a Release, would have been used.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India after the 21st day of June next.

NOTIFICATION.

FORT WILLIAM, SECRET DEPARTMENT,

THE 4TH APRIL, 1842.

The following copy of a Despatch from Lieutenant Colonel Palmer, Commanding at Ghuznee, to the address of the Officer Commanding at Jelalabad, dated the 1st March 1842, is published for general information by order of the Governor General in Council.

Ghuzni, 1st March, 1842.

To Officer Commanding at Jellalabad.

SIR,—It is with much concern I acquaint you that from want of water and by an overpowering force under cover and within 50 yards of us in the City, I have been compelled to enter into terms to evacuate the Citadel and Fort, within six days. The Garrison is to occupy the N. E. corner of the Town. The Garrison is exhausted by fatigue and constant duty, and the men have suffered greatly from cold, the thermometer having been 14 below Zero. The terms are honorable treatment and safety whilst here and on the march to Cabool, solemnly sworn to by the Chiefs. In capitulating, I have only acted up to the orders of Major Pottinger and General Elphinstone, who directed me, in an official letter, to evacuate the Citadel and City on the arrival of Roohilla Khan, son of Ameenoolah Khan, Sirdar of Logur. This Chief arrived and promised to escort us in safety to Cabool. Amooun Shumsoodeen Khan, nephew of Dost Mahomed Khan, has also arrived as Governor of Ghuzni, and, as Political Agent, I received instructions to march immediately on his arrival for Cabool, from the late Sir W. Macnaghten, Bart. Abandoned as this Garrison has been in the very centre of the enemy's country, cut off from all communication with any quarter, and without a sufficiency of water even at this season, with 200 men detached to hold an outpost which is destitute of water, and must have fallen in 48 hours, nothing but capitulation remained. From the outpost falling into the hands of the enemy, they would command our only Well and Comg. Fort, the whole Garrison would have been destroyed in a few days. The bearer has received only subsistence on the road, and is to receive a handsome reward on delivering this letter. We have upwards of 100 sick and wounded and 137 casualties. The Officers, including Captain Burnett, 54th, and Lieutenant Crawford, S. S. Force, are all well.

I have, &c.,

(Signed) T. PALMER, *Lt.-Col.,*

Pol. Agent, Commg. at Ghuzni.

P. S. There is great reason to fear for our safety as there are some thousands of Ghazis in the city, whom the Chiefs cannot disperse. The snow is still deep. No tidings from the Southward, but report says the Troops hold the City of Kandahar, and are daily fighting.

The Governor General in Council has directed that the Commander in Chief will submit the conduct of Lieut.-Colonel Palmer, in surrendering the Citadel of Ghuznee, to the judgment of a Court Martial, at the earliest period at which such Court can be duly assembled.

The Governor General in Council has already (on the 28th of January last,) directed that a full Military Enquiry shall be made into all the circumstances connected with the direction and conduct of the Troops at Cabool, at the earliest period at which such an Enquiry may be practicable.

The Governor General in Council has now directed that the conduct of Major General Elphinstone, in Affghanistan, shall be submitted to the judgment of a Court Martial, at the earliest period at which such Court can be duly assembled.

The Governor General in Council will further direct that a full Enquiry shall likewise be made into the conduct of all the Political Functionaries employed at Cabool, at the earliest possible period after he shall be in possession of certain material documents of which he has already ordered the immediate transmission to Government.

No. 569.

Jellalabad, 12*th March*, 1842.

To CAPTAIN PONSONBY,

Assist. Adjutant General.

SIR,—Do me the favor to acquaint Major General Pollock, C. B., that since I last addressed you, the enemy have, in furtherance of their plan of establishing a vigorous blockade, daily insulted the place by throwing swarms of skirmishers into the ravines and hollows round the walls and behind the remains of mud Forts, which are so extensive, that no industry has enabled us wholly to clear them away. It has been their practice to plant their standards in conspicuous points of the circumference thus occupied, and to keep up a constant fire of Musquetry upon our Parapets. I have resisted these attempts, by the fire from Batteries, and the occasional aim from best marksmen. We have sustained few casualties, and those of the enemy have, I suspect, been uniformly serious. On the 10th instant, the covert advance of the Affghans was particularly persevering against our Northern face; towards evening our spies brought us information that the enemy were driving a mine in this direction, and tho' I entertained great doubts of the correctness of this statement, I thought it prudent to ascertain the truth by a sortie; on the morning of the 11th I placed under the orders of Lt.-Col. Dennie, 300 men of the 13th, 300 of the 35th, and 200 of the Corps of Sappers; having at the same time directed Captain Oldfield to move on with the Cavalry into the plain to the Southward, and endeavour to fix the attention of the enemy in that direction. The Lieutenant Colonel sallied out by the Peshawur gate a little after day-break, and his column swept steadily round into the low ground, to the northward. Contrary to expectation this was found to be abandoned; but a strong picquet of the enemy's foot occupied a salient point on a rising ground, which commanded it; from this they were driven in a most spirited manner by Captain Broadfoot at the head of the detachment of Sappers and Miners, and he pursued the retreating enemy into and beyond a Tower and Garden wall, of which he took and kept possession. The 35th, under Captain Seaton, and Captain Wilkinson's Company of the 13th, were then established Skirmishers around the ruins of old Forts, whilst the remainder of the 13th were held in reserve. The Cavalry appeared at the same moment and supported the left flank of our line of occupation: an examination of the ground proved that neither shaft nor gallery had been commenced, and I therefore directed the Troops to withdraw. The whole camp of Mahomed Akbar was, by this time, in full alert, and heavy masses of Cavalry and a cloud of Foot were pressing forward towards our Skirmishers. Our detachment, however, retired in the most perfect order, and their fire, and that of our guns and mortars from the walls, kept the Affghans in check in the most satisfactory manner—on our extreme right, their horse made an attempt to ride in upon Captain Broadfoot's party, but a volley from the Sappers and Miners brought them to a halt in evident discomfiture. Our loss in wounded was very trifling.

NOTIFICATION.

SECRET DEPARTMENT,

BENARES,

THE 21ST APRIL, 1842.

The Governor General feels assured that every subject of the British Government will peruse with the deepest interest and satisfaction, the report he now communicates of the entire defeat of the Afghan Troops, under Mahomed Akbar Khan, by the Garrison of Jellalabad.

That illustrious Garrison, which, by its constancy in enduring privation, and by its valour in action, has already obtained for itself the sympathy and respect of every true Soldier, has now, sallying forth from its walls, under the command of its gallant leader, Major General Sir Robert Sale, thoroughly beaten in open field an enemy of more than three times its numbers, taken the Standards of their boasted Cavalry, destroyed their Camp, and re-captured four Guns, which, under circumstances which can never again occur, had during the last winter fallen into their hands.

The Governor General cordially congratulates the army upon the return of victory to its ranks. He is convinced that there, as in all former times, it will be found, while, as at Jellalabad the European and Native Troops mutually supporting each other, and evincing equal discipline and valour, are led into action by Officers in whom they justly confide.

The Governor General directs that the substance of this Notification and of Major General Sir Robert Sale's report be carefully made known to all the Troops, and that a salute of 21 guns be fired at every principal Station of the Army.

By order of the Right Hon'ble the Governor General of India,

T. H. MADDOCK,
Secy. to the Govt. of India.

Julalabad, April 7th, 1842.

SIR,

Information was on the evening of the 5th instant brought into this place, in the most positive and circumstantial terms from spies in the enemy's Camp, to the effect that the Force under Major General Pollock, C. B., had met with reverse in the Khyber, and retraced its steps towards Peshawur, and about 10 P. M. on the 6th a feu de-joie and salute of artillery was fired by Mahumud Akbur, which was said to be in honor of the same event. It was on the same day and through similar channels announced to me that the Afghans were sending reinforcements to aid in defending the Frontier Passes. Although I could not wholly depend upon these statements, which were improbable in themselves, and accompanied by counter reports of another revolution at Cabool, which was assigned by some as the cause of the rejoicing of the defeat of the Afghans in Khyber, and by an account of the intended and even actual retreat of the Sirdar to-day; however I came, on a full consideration of the various circumstances and rumours, to the resolution of anticipating the last mentioned event by a general attack on the Afghan Camp, in the hopes of relieving this place from blockade, and facilitating General Pollock's advance. I accordingly gave directions to form three columns of Infantry. The centre consisting of H. M.'s 13th Light Infantry, 500 Rank and File under Colonel Dennie, C. B. The left of the 35th N. I, 510 Rank and File under Lieutenant Colonel Monteith, C. B. The right of a Company of the 13th Light Infantry, another of the 35th N. I. and the detachment of Sappers under Lieutenant Orr, (the severity of Captain Broadfoot's wound still rendering him non-effective) the whole 360 strong, commanded by Captain Havelock, 13th Light Infantry. These were to be supported by the fire of the guns of No. 6, Light Field Battery, under Captain Abbott, to which Captain Backhouse, Shah Shoojah's Artillery, was also attached, and by the whole of my small Cavalry force under Captain Oldfield and Lieutenant Mayne. The troops issued from the Cabul and Peshawur Gates at daylight this morning. So far from the Sirdar having made any dispositions to avoid the encounter, his whole force (not falling short in all of 6000 men) was formed in order of battle for the defence of his Camp, its right resting on a Fort, and its left on the Cabul river, and even the ruined walls within 800 yards of the place, recently repaired, were filled with Ghilzie marksmen, evidently prepared for a stout resistance. The attack was led by the Skirmishers in column, under Captain Havelock, which drove the enemy in the most satisfactory manner from the extreme left of his advanced line of walls, which it pierced at once, and proceeded to advance into the plain, whilst the central column directed its efforts against a square post, the defence of which was obstinately maintained.

With the deepest regret I have to mention that, whilst nobly leading his Regiment to the assault, Colonel Dennie, C. B., of the 13th Light Infantry, received a shot through the body, which shortly after proved fatal. The rear of this work being gained by passing to its left, I gave orders for a combined attack on the enemy's camp. It was in every way brilliant and successful. The Artillery advanced at the gallop, and directed a heavy fire on the Afghan centre, whilst two of the columns of Infantry penetrated his line at the same point, and the third drove his left back from his support on the river, into the stream of which some of his Horse and Foot were forced. The Afghans made repeated attempts to check our advance by a smart fire of musquetry, and throwing forward heavy bodies of horse, which twice closely threatened the Troops under Captain Havelock, and by opening against us 3 Guns from a Battery, screened by a Garden Wall, and said to have been served under the personal superintendence of the Sirdar; but in a short time they were dislodged from every point of their position, their Cannon taken, and their Camp involved in a general conflagration. The battle was over, and the enemy in full retreat in the direction of Lughman by about 7 A. M. We have made ourselves masters of 2 Cavalry Standards, recaptured 4 Guns, lost by the Cabool and Gundamuck Forces, the restoration of which to our Government is viewed by the Force with much honest exultation, and destroyed the whole of the Enemy's Tents. In short, the defeat of Mahomud Akbar by the force which he boasted of blockading, has been, in open field, complete and signal.

The fall of an Officer so distinguished as Colonel Dennie will be felt as a public calamity. Lamenting it in every way, I must share with his country, his Regiment, and his friends, in the consolation afforded by the reflection that he was killed most gallantly performing his duty.

I have to express my entire satisfaction with the conduct on this occasion of Lieutenant Colonel Monteith, C. B., Commanding one of the Infantry Columns under my own eye, and of Captain Wilkinson, on whom the charge of the other devolved on the death of his Lieutenant Colonel. Of Captain Oldfield and Lieutenant Mayne, who led the Cavalry, and of Captains Abbott and Backhouse and Lieutenant Dawes of the Artillery. The able and judicious manner in which Captain Havelock moved the force under his command, which acted on a line so distant as to render its manœuvres independent of my immediate control, demands my particular and separate commendation. My acknowledgments are also especially due to Captain Wade, my Brigade Major, whose exertions were on this day, as they have ever been, most meritorious. To Major Frazer of the Light Cavalry, who acted as my A. D. C., and to Captain Mainwaring, Commissariat Officer with the force, who was present in and active on the field. Captain Macgregor, Political Agent, handsomely offered his services with No. 6, Light Field Battery, and was most useful in serving the Guns.

I enclose Returns of Killed and Wounded and of Ordnance captured. Lieutenant and Adjutant Wood of H. M. 13th Light Infantry, made a dash at one of the Enemy, and in cutting him down his charger was so severely wounded as to have been since destroyed. Captain Havelock reports in the most favorable manner, the gallant conduct of Lieutenant Cox, H. M.'s 13th Light Infantry, who was the first to seize the Enemy's Guns of the party which captured them.

I have, &c.,

FORT WILLIAM,

SECRET DEPARTMENT,

THE 28TH APRIL, 1842.

The Hon'ble the President in Council has the highest satisfaction in republishing a Notification by the Right Hon'ble the Governor General, dated Benares, the 21st instant, and the Official Despatch referred to therein, announcing the total defeat of the Afghan Troops, under Mahomed Akbar Khan, by the Garrison of Jellalabad, and in expressing his cordial concurrence in the applause bestowed by His Lordship on Major General Sir Robert Sale, K. C. B., and the Officers and Men under his Command, for this gallant achievement.

A Salute of 21 Guns will be this-day fired from the Ramparts of Fort William in honor of the occasion.

By order of the Hon'ble the President in Council,

G. A. BUSHBY,

Offg. Secy. to the Govt. of India.

NOTIFICATION.

SECRET DEPARTMENT,

BENARES,

THE 21ST APRIL, 1842.

The Governor General feels assured that every subject of the British Government will peruse with the deepest interest and satisfaction, the report he now communicates of the entire defeat of the Afghan Troops, under Mahomed Akbar Khan, by the Garrison of Jellalabad.

That illustrious Garrison, which, by its constancy in enduring privation, and by its valour in action, has already obtained for itself the sympathy and respect of every true Soldier, has now, sallying forth from its walls, under the command of its gallant leader, Major General Sir Robert Sale, thoroughly beaten in open field an enemy of more than three times its numbers, taken the Standards of their boasted Cavalry, destroyed their Camp, and re-captured four Guns, which, under circumstances which can never again occur, had during the last winter fallen into their hands.

The Governor General cordially congratulates the army upon the return of victory to its ranks. He is convinced that there, as in all former times, it will be found, while, as at Jellalabad the European and Native Troops mutually supporting each other, and evincing equal discipline and valour, are led into action by Officers in whom they justly confide.

The Governor General directs that the substance of this Notification and of Major General Sir Robert Sale's report be carefully made known to all the Troops, and that a salute of 21 guns be fired at every principal Station of the Army.

By order of the Right Hon'ble the Governor General of India,

T. H. MADDOCK,

Secy. to the Govt. of India.

Julalabad, April 7th, 1842.

SIR,

Information was on the evening of the 5th instant brought into this place, in the most positive and circumstantial terms from spies in the enemy's Camp, to the effect that the Force under Major General Pollock, C. B., had met with reverse in the Khyber, and retraced its steps towards Peshawur, and about 10 P. M. on the 6th a feu de-joie and salute of artillery was fired by Mahumud Akbur, which was said to be in honor of the same event. It was on the same day and through similar channels announced to me that the Afghans were sending reinforcements to aid in defending the Frontier Passes. Although I could not wholly depend upon these statements, which were improbable in themselves, and accompanied by counter reports of another revolution at Cabool, which was assigned by some as the cause of the rejoicing of the defeat of the Afghans in Khyber, and by an account of the intended and even actual retreat of the Sirdar to-day; however I came, on a full consideration of the various circumstances and rumours, to the resolution of anticipating the last mentioned event by a general attack on the Afghan Camp, in the hopes of relieving this place from blockade, and facilitating General Pollock's advance. I accordingly gave directions to form three columns of Infantry. The centre consisting of H. M.'s 13th Light Infantry, 500 Rank and File under Colonel Dennie, C. B. The left of the 35th N. I., 510 Rank and File under Lieutenant Colonel Monteith, C. B. The right of a Company of the 13th Light Infantry, another of the 35th N. I. and the detachment of Sappers under Lieutenant Orr, (the severity of Captain Broadfoot's wound still rendering him non-effective) the whole 360 strong, commanded by Captain Havelock. 13th Light Infantry. These were to be supported by the fire of the guns of No. 6, Light Field Battery, under Captain Abbott, to which Captain Backhouse, Shah Shoojah's Artillery, was also attached, and by the whole of my small Cavalry force under Captain Oldfield and Lieutenant Mayne. The troops issued from the Cabul and Peshawur Gates at daylight this morning. So far from the Sirdar having made any dispositions to avoid the encounter, his whole force (not falling short in all of 6000 men) was formed in order of battle for the defence of his Camp, its right resting on a Fort, and its left on the Cabul river, and even the ruined walls within 800 yards of the place, recently repaired, were filled with Ghilzie marksmen, evidently prepared for a stout resistance. The attack was led by the Skirmishers in column, under Captain Havelock, which drove the enemy in the most satisfactory manner from the extreme left of his advanced line of walls, which it pierced at once, and proceeded to advance into the plain, whilst the central column directed its efforts against a square post, the defence of which was obstinately maintained.

With the deepest regret I have to mention that, whilst nobly leading his Regiment to the assault, Colonel Dennie, C. B., of the 13th Light Infantry, received a shot through the body, which shortly after proved fatal. The rear of this work being gained by passing to its left, I gave orders for a combined attack on the enemv's camp. It was in every way brilliant and successful. The Artillery advanced at the gallop, and directed a heavy fire on the Afghan centre, whilst two of the columns of Infantry penetrated his line at the same point, and the third drove his left back from his support on the river, into the stream of which some of his Horse and Foot were forced. The Afghans made repeated attempts to check our advance by a smart fire of musquetry, and throwing forward heavy bodies of horse, which twice closely threatened the Troops under Captain Havelock, and by opening against us 3 Guns from a Battery, screened by a Garden Wall, and said to have been served under the personal superintendence of the Sirdar; but in a short time they were dislodged from every point of their position, their Cannon taken, and their Camp involved in a general conflagration. The battle was over, and the enemy in full retreat in the direction of Lughman by about 7 A. M. We have made ourselves masters of 2 Cavalry Standards, recaptured 4 Guns, lost by the Cabool and Gundamuck Forces, the restoration of which to our Government is viewed by the Force with much honest exultation, and destroyed the whole of the Enemy's Tents. In short, the defeat of Mahomud Akbar by the force which he boasted of blockading, has been, in open field, complete and signal.

The fall of an Officer so distinguished as Colonel Dennie will be felt as a public calamity. Lamenting it in every way, I must share with his country, his Regiment, and his friends, in the consolation afforded by the reflection that he was killed most gallantly performing his duty.

I have to express my entire satisfaction with the conduct on this occasion of Lieutenant Colonel Monteith, C. B., Commanding one of the Infantry Columns under my own eye, and of Captain Wilkinson, on whom the charge of tho other devolved on the death of his Lieutenant Colonel. Of Captain Oldfield and Lieutenant Mayne, who led the Cavalry, and of Captains Abbott and Backhouse and Lieutenant Dawes of the Artillery. The able and judicious manner in which Captain Havelock moved the force under his command, which acted on a line so distant as to render its manœuvres independent of my immediate control, demands my particular and separate commendation. My acknowledgments are also especially due to Captain Wade, my Brigade Major, whose exertions were on this day, as they have ever been, most meritorious. To Major Frazer of the Light Cavalry, who acted as my A. D. C., and to Captain Mainwaring, Commissariat Officer with the force, who was present in and active on the field. Captain Macgregor, Political Agent, handsomely offered his services with No. 6, Light Field Battery, and was most useful in serving the Guns.

I enclose Returns of Killed and Wounded and of Ordnance captured. Lieutenant and Adjutant Wood. of H. M. 13th Light Infantry, made a dash at one of the Enemy, and in cutting him down his charger was so severely wounded as to have been since destroyed, Captain Havelock reports in the most favorable manner, the gallant conduct of Lieutenant Cox, H. M.'s 13th Light Infantry, who was the first to seize the Enemy's Guns of the party which captured them.

FORT WILLIAM,
LEGISLATIVE DEPARTMENT,

The 22d April, 1842.

The following Draft of a proposed Act was read in Council for the first time on the 22d April, 1842.

Act No. —— of 1842.

For the better Collection of Revenue from Lands within the Bombay Presidency, of which the Revenue has been alienated by the State.

I. Whereas it is expedient to authorise the grant by the Governor in Council of Bombay of Commissions to certain Jageerdars, at the discretion of the said Governor in Council, by virtue of which such Jageerdars shall possess increased powers for collecting the Revenue due to them in respect of Lands within the Bombay Presidency of which the Revenue has been alienated by the State.

It is hereby enacted, that it shall be lawful for the Governor in Council of Bombay, to grant to any Jageerdar, Surinjamdar, Inamdar, or other person holding Lands, the Revenue of which has been alienated to him by the State, a Commission conferring upon him authority for the collection of such Revenue by the powers hereinafter mentioned, or such of them as shall be specified in the Commission in addition to the powers now exercisable by law.

II. And it is hereby enacted, that such Commission shall be granted or withheld, and, when granted, shall be liable to be withdrawn at the discretion of Government, and such Commission may, if the Governor in Council of Bombay see fit, include one or more Agents of such Jageerdar or other holder of alienated Lands as well as such holder in person.

III. And it is hereby enacted, that the holder of such Commission shall have authority to demand security for the payment of the Land Revenue, in respect of the Lands specified in the Commission, and, if the same be not furnished, to take such precaution as the Collector is authorised to take under Section XI. Regulation XVII. of 1827, Bombay Code.

IV. And it is hereby enacted, that the holder of such Commission shall have authority to send Mohussuls on Defaulters under the Provisions of Clauses 2, 3, 4, 5, Section XII. Regulation XVII. of 1827, Bombay Code, provided that one foot Mohussul only be employed in each case, and that the Mohussullee shall cease on the enforcement of any other remedy for the collection of the Revenue, except the taking of such security as aforesaid.

V. And it is hereby enacted, that the holder of any such Commission shall be authorised to attach the property of persons making default in the payment of such Revenue as aforesaid, making an immediate report to the Collector or his Assistant of his having done so, and should the demand on account of which the attachment may be made appear to the Collector or his Assistant to be just, he shall give orders for the sale of such property, and the sale shall be conducted agreeably to the Provisions of Clause VII. Section XII. Regulation XVII. of 1827, Bombay Code, except in cases in which the holder of the Commission by whom the attachment has been made shall be a Jageerdar, Surinjamdar or Inamdar, vested by Regulation XIII. of 1830, with Civil jurisdiction and with power to execute his own decrees or his Agents, when the sale shall be conducted by him, and not by the Collector and his subordinate Revenue Officers.

VI. And it is hereby enacted, that if the Revenue or rent payable by any Malgoozar or Ryot to a Jageerdar or other holder of Government alienated lands shall have been fixed by a Government Officer before the grant of the Land in Jageer, or if any Malgoozar or Ryot have paid at the same rate on account of any land for five years consecutively, or if the rent tendered by any Malgoozar or Ryot be at the usual rate payable for the Land according to the custom of the Village and Pergunna as declared by the Koolkurnee and other Local Officers of Revenue, the demand by any Jageerdar under color of this Act of an excess of rent beyond the amount due as above provided shall be deemed to be extortion, and the person against whom such demand shall have been made shall obtain upon any judgment being passed after regular or summary trial three times the amount of any such excessive demand as damages for the same. Provided, however, that nothing herein prescribed or contained shall prevent a Jageerdar or other Lakhirajdar from instituting a suit in any Court of competent jurisdiction for the purpose of establishing his claim to re-assess the Lands of any Malgoozar or Ryot who may be paying less than the full Juma to which he is justly liable, and upon the Jageerdars obtaining a decree adjudging to him such power the demand made by him under such decree, shall if conformable thereto be deemed a legal demand for arrears, and shall be leviable by the same process as is above provided for other arrears due.

VII. And it is hereby enacted, that no Jageerdar shall proceed under this Act by arrest or by distraint and sale of effects for any arrear of longer standing than one year from the date of instituting such process.

VIII. And it is hereby enacted, that the holder of any such Commission as is above described shall be liable to the same penalty for an excessive demand of Revenue or rent as other Jageerdars.

IX. And it is hereby enacted, that all compulsory process under this Act shall cease on the alleged defaulter furnishing security to pay the amount which may be decreed against him with costs and interest in a Court competent to try such suits, provided that such suits in which any one of the privileged classes established by Regulation XXIX. of 1827, Sections III. and IV. and by Regulation VII. of 1830, Bombay Code, may be the defendant, shall be tried before the Collector and his Assistants. Any thing in Regulations I and XVI of 1831, notwithstanding. And any holder of any such Commission as aforesaid by himself or his Agents proceeding with any compulsory process under this Act after the furnishing of such security as aforesaid, or after the due tender thereof shall forfeit all the Revenue sought to be recovered by such compulsory process.

Ordered, that the Draft now read, be published for general information.

Ordered, that the said Draft be reconsidered at the first Meeting of the Legislative Council of India after the 22d day of July next.

The following Draft of a proposed Act was read in Council for the first time on the 22d April, 1842.

ACT No. —— of 1842.

For the better Collection of Revenue from Lands within the Bombay Presidency, of which the Revenue has been alienated by the State.

I. Whereas it is expedient to authorise the grant by the Governor in Council of Bombay of Commissions to certain Jageerdars, at the discretion of the said Governor in Council, by virtue of which such Jageerdars shall possess increased powers for collecting the Revenue due to them in respect of Lands within the Bombay Presidency of which the Revenue has been alienated by the State.

It is hereby enacted, that it shall be lawful for the Governor in Council of Bombay, to grant to any Jageerdar, Surinjamdar, Inamdar, or other person holding Lands, the Revenue of which has been alienated to him by the State, a Commission conferring upon him authority for the collection of such Revenue by the powers hereinafter mentioned, or such of them as shall be specified in the Commission in addition to the powers now exercisable by law.

II. And it is hereby enacted, that such Commismission shall be granted or withheld, and, when granted, shall be liable to be withdrawn at the discretion of Government, and such Commission may, if the Governor in Council of Bombay see fit, include one or more Agents of such Jageerdar or other holder of alienated Lands as well as such holder in person.

III. And it is hereby enacted, that the holder of such Commission shall have authority to demand security for the payment of the Land Revenue, in respect of the Lands specified in the Commission, and, if the same be not furnished, to take such precaution as the Collector is authorised to take under Section XI. Regulation XVII. of 1827, Bombay Code.

IV. And it is hereby enacted, that the holder of such Commission shall have authority to send Mohussuls on Defaulters under the Provisions of Clauses 2, 3, 4, 5, Section XII. Regulation XVII. of 1827, Bombay Code, provided that one foot Mohussul only be employed in each case, and that the Mohussullee shall cease on the enforcement of any other remedy for the collection of the Revenue, except the taking of such security as aforesaid.

V. And it is hereby enacted, that the holder of any such Commission shall be authorised to attach the property of persons making default in the payment of such Revenue as aforesaid, making an immediate report to the Collector or his Assistant of his having done so, and should the demand on account of which the attachment may be made appear to the Collector or his Assistant to be just, he shall give orders for the sale of such property, and the sale shall be conducted agreeably to the Provisions of Clause VII. Section XII. Regulation XVII. of 1827, Bombay Code, except in cases in which the holder of the Commission by whom the attachment has been made shall be a Jageerdar, Surinjamdar or Inamdar, vested by Regulation XIII. of 1830, with Civil jurisdiction and with power to execute his own decrees or his Agents, when the sale shall be conducted by him, and not by the Collector and his subordinate Revenue Officers.

VI. And it is hereby enacted, that if the Revenue or rent payable by any Malgoozar or Ryot to a Jageerdar or other holder of Government alienated lands shall have been fixed by a Government Officer before the grant of the Land in Jageer, or if any Malgoozar or Ryot have paid at the same rate on account of any land for five years consecutively, or if the rent tendered by any Malgoozar or Ryot be at the usual rate payable for the Land according to the custom of the Village and Pergunna as declared by the Koolkurnee and other Local Officers of Revenue, the demand by any Jageerdar under color of this Act of an excess of rent beyond the amount due as above provided shall be deemed to be extortion, and the person against whom such demand shall have been made shall obtain upon any judgment being passed after regular or summary trial three times the amount of any such excessive demand as damages for the same. Provided, however, that nothing herein prescribed or contained shall prevent a Jageerdar or other Lakhirajdar from instituting a suit in any Court of competent jurisdiction for the purpose of establishing his claim to re-assess the Lands of any Malgoozar or Ryot who may be paying less than the full Juma to which he is justly liable, and upon the Jageerdars obtaining a decree adjudging to him such power the demand made by him under such decree, shall if conformable thereto be deemed a legal demand for arrears, and shall be leviable by the same process as is above provided for other arrears due.

VII. And it is hereby enacted, that no Jageerdar shall proceed under this Act by arrest or by distraint and sale of effects for any arrear of longer standing than one year from the date of instituting such process.

VIII. And it is hereby enacted, that the holder of any such Commission as is above described shall be liable to the same penalty for an excessive demand of Revenue or rent as other Jageerdars.

IX. And it is hereby enacted, that all compulsory process under this Act shall cease on the alleged defaulter furnishing security to pay the amount which may be decreed against him with costs and interest in a Court competent to try such suits, provided that such suits in which any one of the privileged classes established by Regulation XXIX. of 1827, Sections III. and IV. and by Regulation VII. of 1830, Bombay Code, may be the defendant, shall be tried before the Collector and his Assistants. FRIDAY MORNING, MAY 6, 1842.

FORT WILLIAM,
POLITICAL DEPARTMENT,

5TH MAY, 1842.

The Hon'ble the President in Council is pleased to direct that the following Order by the Right Hon'ble the Governor General of India be published for general information.

G. A. BUSHBY,
Offg. Secy. to the Govt. of India.

POLITICAL DEPARTMENT,
GENERAL ORDER BY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA.
HEAD QUARTERS, ALLAHABAD,

APRIL 30TH, 1842.

The Governor General has received a report from Major General Pollock, C. B. dated the 16th instant, announcing his arrival at Jelalabad.

The Major General has thus carried into effect the orders of the Government in a manner which entitles him to the highest approbation.

Receiving the command of the Army at Peshawur under circumstances of peculiar difficulty, he has in the midst of new and unforeseen embarrassments and disappointments, preserved a firm mind, and justly relying upon his own judgment he has at last, with equal discretion and decision, accomplished the object he was directed to effect.

The Governor General requests Major Pollock to accept his acknowledgements of the good service he has thus rendered to the Government of India, and begs he will communicate to the gallant Officers and troops under his command the entire satisfaction with which their conduct has been regarded on this occasion.

The Governor General has already, in communicating the despatch from Major General Sir Robert Sale, K. C. B., dated the 7th instant, expressed his high sense of the services of that Officer and of the garrison of Jelalabad, terminating on that day by a decisive victory, which would have left nothing to desire had Colonel Dennie survived to enjoy it.

The garrison of Jelalabad having on that day achieved its safety by its own prowess, and being now reunited to the Army by the movements of the force under the command of Major General Pollock, C. B., it remains only for the Governor General to testify his opinion of the just claims of that garrison to the gratitude of the Government and of their country.

The Governor General is pleased to direct that the second company of the sixth battalion of Artillery shall bear upon its appointments, and the fifth regiment of Light Cavalry upon its standards and appointments, and the thirty-fifth regiment of Native Infantry upon its colors and appointments, a mural crown superscribed "Jelalabad," as a memorial of the fortitude, perseverance and enterprise evinced by those several corps during the blockade of Jelalabad.

The Governor General is likewise pleased, in conformity with the recommendation of his Excellency the Commander in Chief, to direct that " in order to give additional and lasting honors to the 35th Native Infantry, whilst it benefits the Service generally, that corps shall hereafter be made a Light Infantry regiment, the duties of which it is already so well acquainted with, and has performed with so much zeal and spirit."

The Governor General is further pleased to direct that a silver medal be made for every officer, non-commissioned officer, and private, European and native, who belonged to the Garrison of Jelalabad on the seventh of April, 1842, such medals to be all similar, and to bear on one side a mural crown superscribed " Jelalabad," and on the other side the words " April 7th, 1842."

The Government of India will present such medal to every officer, non-commissioned officer, and private, European and native, belonging to their service, and will request the home authorities to lay before her Majesty their most humble prayer that her Majesty will be graciously pleased to permit the Major General Commanding and the officers, non-commissioned officers, and privates in her Majesty's service, who formed part of the Garrison of Jelalabad, to receive and wear a medal similar to that which will be so presented to their brothers in arms.

The Governor General, taking into consideration the many great privations to which the troops composing the garrison of Jelalabad were exposed during the blockade of that place, and the noble fortitude with which all such privations were borne, as well as the various losses the troops sustained, is pleased to direct that a donation of six months' batta be made to all the officers, non-commissioned officers, and privates, European and native, who composed the garrison of Jelalabad on the 7th of April, 1842.

The Governor General will request his Excellency the Commander in Chief of the Army to give instructions in due time that the several corps composing the garrison of Jelalabad may, on their return to India, be received at all the stations on their route to their cantonments, by all the troops at such stations, in review order with presented arms.

By order of the Right Honorable the Governor General of India,

Signed—— T. H. MADDOCK,
Secretary of the Govt. of India,
with the Governor General.

FORT WILLIAM,

LEGISLATIVE DEPARTMENT,

THE 22D APRIL, 1842.

The following Draft of a proposed Act was read in Council for the first time on the 22d April, 1842.

ACT No. —— of 1842.

For the better Collection of Revenue from Lands within the Bombay Presidency, of which the Revenue has been alienated by the State.

I. Whereas it is expedient to authorise the grant by the Governor in Council of Bombay of Commissions to certain Jageerdars, at the discretion of the said Governor in Council, by virtue of which such Jageerdars shall possess increased powers for collecting the Revenue due to them in respect of Lands within the Bombay Presidency of which the Revenue has been alienated by the State.

It is hereby enacted, that it shall be lawful for the Governor in Council of Bombay, to grant to any Jageerdar, Surinjamdar, Inamdar, or other person holding Lands, the Revenue of which has been alienated to him by the State, a Commission conferring upon him authority for the collection of such Revenue by the powers hereinafter mentioned, or such of them as shall be specified in the Commission in addition to the powers now exercisable by law.

II. And it is hereby enacted, that such Commismission shall be granted or withheld, and, when granted, shall be liable to be withdrawn at the discretion of Government, and such Commission may, if the Governor in Council of Bombay see fit, include one or more Agents of such Jageerdar or other holder of alienated Lands as well as such holder in person.

III. And it is hereby enacted, that the holder of such Commission shall have authority to demand security for the payment of the Land Revenue, in respect of the Lands specified in the Commission, and, if the same be not furnished, to take such precaution as the Collector is authorised to take under Section XI. Regulation XVII. of 1827, Bombay Code.

IV. And it is hereby enacted, that the holder of such Commission shall have authority to send Mohussuls on Defaulters under the Provisions of Clauses 2, 3, 4, 5, Section XII. Regulation XVII. of 1827, Bombay Code, provided that one foot Mohussul only be employed in each case, and that the Mohussullee shall cease on the enforcement of any other remedy for the collection of the Revenue, except the taking of such security as aforesaid.

V. And it is hereby enacted, that the holder of any such Commission shall be authorised to attach the property of persons making default in the payment of such Revenue as aforesaid, making an immediate report to the Collector or his Assistant of his having done so, and should the demand on account of which the attachment may be made appear to the Collector or his Assistant to be just, he shall give orders for the sale of such property, and the sale shall be conducted agreeably to the Provisions of Clause VII. Section XII. Regulation XVII. of 1827, Bombay Code, except in cases in which the holder of the Commission by whom the attachment has been made shall be a Jageerdar, Surinjamdar or Inamdar, vested by Regulation XIII. of 1830, with Civil jurisdiction and with power to execute his own decrees or his Agents, when the sale shall be conducted by him, and not by the Collector and his subordinate Revenue Officers.

VI. And it is hereby enacted, that if the Revenue or rent payable by any Malgoozar or Ryot to a Jageerdar or other holder of Government alienated lands shall have been fixed by a Government Officer before the grant of the Land in Jageer, or if any Malgoozar or Ryot have paid at the same rate on account of any land for five years consecutively, or if the rent tendered by any Malgoozar or Ryot be at the usual rate payable for the Land according to the custom of the Village and Pergunna as declared by the Koolkurnee and other Local Officers of Revenue, the demand by any Jageerdar under color of this Act of an excess of rent beyond the amount due as above provided shall be deemed to be extortion, and the person against whom such demand shall have been made shall obtain upon any judgment being passed after regular or summary trial three times the amount of any such excessive demand as damages for the same. Provided, however, that nothing herein prescribed or contained shall prevent a Jageerdar or other Lakhirajdar from instituting a suit in any Court of competent jurisdiction for the purpose of establishing his claim to re-assess the Lands of any Malgoozar or Ryot who may be paying less than the full Juma to which he is justly liable, and upon the Jageerdars obtaining a decree adjudging to him such power the demand made by him under such decree, shall if conformable thereto be deemed a legal demand for arrears, and shall be leviable by the same process as is above provided for other arrears due.

VII. And it is hereby enacted, that no Jageerdar shall proceed under this Act by arrest or by distraint and sale of effects for any arrear of longer standing than one year from the date of instituting such process.

VIII. And it is hereby enacted, that the holder of any such Commission as is above described shall be liable to the same penalty for an excessive demand of Revenue or rent as other Jageerdars.

IX. And it is hereby enacted, that all compulsory process under this Act shall cease on the alleged defaulter furnishing security to pay the amount which may be decreed against him with costs and interest in a Court competent to try such suits, provided that such suits in which any one of the privileged classes established by Regulation XXIX. of 1827, Sections III. and IV. and by Regulation VII. of 1830, Bombay Code, may be the defendant, shall be tried before the Collector and his Assistants. Any thing in Regulations I and XVI. of 1831, notwithstanding. And any holder of any such Commission as aforesaid by himself or his Agents proceeding with any compulsory process under this Act after the furnishing of such security as aforesaid, or after the due tender thereof shall forfeit all the Revenue sought to be recovered by such compulsory process.

Ordered, that the Draft now read, be published for general information.

Ordered, that the said Draft be reconsidered at the first Meeting of the Legislative Council of India after the 22d day of July next.

F. J. HALLIDAY,

FORT WILLIAM,

THE 29TH APRIL, 1842.

The following Extract from the Proceedings of the Hon'ble the President in Council, in the Legislative Department, under date the 29th of April 1842, is published for general information :

Read a second time the Draft of a proposed Act, dated the 6th of December 1841, and published in the Calcutta Gazette of the 8th of the same month, for the better regulation of Military Bazars and defining the liabilities of Camp-followers.

Resolution.—The Hon'ble the President in Council resolves that the following Amended Draft on the subject, be re-published for general information :

ACT No. —— of 1842.

An Act for the better Regulation of Military Bazars, and defining the liabilities of Camp followers.

I. It is hereby enacted, that no person residing within the limits of any Military Cantonment shall be allowed to recover, in any Military Court of Requests for the Native Troops of the East India Company, held within such Cantonment, any debt contracted in the way of trade, or for the loan of money within such Cantonment, by any person subject to the jurisdiction of such Court, unless the person seeking to recover the debt, shall, at the time of the contracting thereof, have been registered as a Military Bazarman within such Cantonment.

II. And it is hereby declared, that the several descriptions of persons specified in Regulation XX. of 1810. of the Bengal Code, Sections 2, 4 and 22, shall be subject to the provisions of Acts No. XI. of 1841, and No. XXVIII. of 1841, in like manner as enlisted Soldiers.

No. 496.
FORT WILLIAM,
JUDICIAL AND REVENUE DEPARTMENT,
THE 18TH APRIL, 1842.

Read a Letter from the Register of the Sudder Dewanny Adawlut, (No. 1104 of the 26th ultimo) submitting the results of the Examinations held in January last, by the several Committees for the examination of Candidates for Moonsiffships.

Judicial Dept. Resolution. } 1. The Honorable the Deputy Governor of Bengal observes that the thanks of Government are due to the Members of the several Committees for the care with which they have conducted the duties of the Examinations, and to the Presidency Committee Government is especially indebted, not only for the zeal and ability which has characterized its proceedings, but also for the many valuable suggestions and remarks contained in the Report submitted by its Members.

2. The Deputy Governor will first remark upon the results of the several Examinations, after which His Honor will proceed to notice such other parts of the documents before him as may appear to require comment.

Presidency Committee.

3. Seventy-five Candidates were admitted to examination—of whom 14 were remanded to be re-examined after the expiration of a year and 36 after a period of six months. The remainder (25) were admitted to the oral examination—6 of these were considered deficient and were consequently remanded for a period of six months—to 18, Diplomas of fitness were granted, and the case of one individual, otherwise qualified, was suspended for the orders of the Sudder Court, owing to it having been discovered that he had once been criminally convicted.

4. The names of the successful Candidates are as follow:

Gooroodass Sein.
Mahomed Monniam.
Kylass Day.
Nobinchunder Mitter.
Eswanchunder Dutt.
Ramnarrain Roy.
Rajmohun Mitter.
Poornochund Mitter.
Doorgapershad Roy.
Juggonathpershad Bannerjea.
Monumohun Baboo.
Faqueerchund Singh.
Golam Batool Tumkin.
Syed Itruth Hossein.
Jummeeruddeen Ahmed.
Peareemohun Bannerjea.
Syud Fuzzul Ruhoma.
Rakaldoss Chowdrie.

Dacca Committee.

5. Of eleven Candidates who were admitted to examination none were faultless, but it appears that two,

Ubhoy Comar Dutt,
Gopee Mohun Roy,

evinced such qualifications as to induce the Committee to recommend them specially for Diplomas, a measure in which the Presidency Committee concurred.

Patna Committee.

6. Fourteen Candidates were examined and Diplomas were granted to the following individuals, viz.

Khyrat Hosein,
Furhut Ali,
Rajchunder Chuckerbutty
and
Ulee Uzeem.

7. Five Candidates were directed to appear for re-examination in July next, and the remaining 5 Candidates,

Mahomed Zynool Abdeen,
Sheikh Azhur Ali,
Muhee Ooddeen,
Fakeer Hosein,
and
Mr. Almeida,

were, on the special recommendation of the Committee, admitted to Diplomas by the Presidency Committee.

Moorshedabad Committee.

8. Six Candidates were examined and a Diploma was granted to

Sreekunt Sing,

four others of the Candidates were recommended by the Committee for Diplomas, but it appears that the Presidency Committee did not see reason to comply with the recommendation.

9. The result then is, that at the Examinations held in January last, by the several Committees, 30 young men have been declared competent to enter the Judicial service of Government, and His Honor has much pleasure in observing that out of the number of Candidates who have hitherto received Diplomas, 31 have already been appointed to Moonsiffships, exclusive of others who have been temporarily provided, for it is gratifying to observe too, that, as far as the recentness of these appointments will admit of a judgment being formed on the subject, the nominees appear to have given satisfaction to their superiors.

10. With respect to the individual from whom a Diploma was withheld by the Presidency Committee, the Deputy Governor has only to observe that he perfectly concurs with the Committee and the Court that it is of the highest importance that Diplomas be granted to none whose characters are not without stain—and His Honor quite approves of the Presidency Committee's suggestions for amending the present system of granting Certificates to Candidates for Examination, viz.

11. That notice be given to the Sudder Court by the several Judges of the number of Candidates whose names are registered for examination—and, in order that the Judges may be enabled to state correctly the number of Candidates to the Court, that no Certificates be granted within a less period than one month previous to the assembly of the Committees.

12. That the restriction which now prevents the Judges of Patna, Moorshedabad, Dacca and the 24-Pergunnahs from granting Certificates to Candidates for examination be withdrawn, and that no Judges grant Certificates to any individuals who may not reside, or be employed in their respective Districts, and also that all Certificates shall bear on the face of them the result of the Judges' enquiries into the character and respectability of the Candidates, together with any particulars relative to their family and connexions, as may seem worthy of notice.

13. That the Chief Magistrate of Calcutta may, under similar Rules and according to the manner in which such Certificates are granted by the several Zillah Judges, grant Certificates for examination to persons, inhabitants of, or employed in Calcutta.

14. And that the Principals of the several Schools and Colleges under the control of the Council of Education be also in like manner authorized to grant similar Certificates to bonâ fide Students of their respective Schools or Colleges, such Certificates to be countersigned by the Judge of the Zillah in which the School or College may be situate, after that Officer shall have satisfied himself that the Candidate is a fit person to be admitted to examination according to the Rules now in force.

15. The Deputy Governor approves of the Court's proposal that the Local Judges be instructed to mention in the Certificates which they grant the number of times which the Candidate has already been examined and that the Sudder Court decide with reference thereto whether they will admit the Candidate to re-examination. His Honor also agrees with the Court that no Candidates under the age of 21 be eligible to examination, and he is pleased to direct that individuals whose names are at the head of the list of Candidates who have received Diplomas, shall, on refusal to proceed to any station to which they may be appointed, have their names placed at the bottom of the list and wait their turn accordingly.

16. With a view to additional publicity and convenience, the Examinations of the Presidency Committee may in future, as recommended by the Committee, be held at the Town Hall, Calcutta.

Resolved, that the foregoing observations be published in the several Government Gazettes, and that a copy hereof be forwarded to the Court of Sudder Dewanny Adawlut, with a view to the necessary instructions being issued upon His Honor's orders.

J. J. HARVEY,

Calcutta, 13*th May*, 1842. *Collector of Govt. Customs.*

The Collector has no objection to pass Packages, which are intended for private use, and not for Sale, unopened—provided that at the time they are applied for, satisfactory proof of their contents in the shape of Invoices, Bills, or Letters of Advice are produced. In the absence of these documents, owners should depute a person to be present at the opening of their Packages.

The Collector has nothing to do with the landing of Packages from Ships, nor with forwarding them to their owners or destinations.

NOTIFICATION.

FORT WILLIAM, OPIUM DEPARTMENT,

THE 28TH APRIL, 1842.

NOTICE is hereby given, that on Monday, the 23d day of May 1842, at the hour of 11 o'Clock in the Forenoon, will be put up to Sale, at the Exchange Rooms at Calcutta, and sold by Public Auction, for Exportation by Sea, the undermentioned Quantity of Opium, the Provision of 1840-41, subject to the following Conditions, viz.

Produce of Behar Agency Opium, Chests..........	1,600
Ditto of Benares Ditto, ...	900
Total Chests,...	2,500

CONDITIONS OF SALE.

1. The Opium will be sold for Exportation by Sea only and no Certificate will be granted except to cover such Export.

2. The Opium to be offered for Sale at an upset Price of Rupees 400 per Chest, and to be all sold to the highest bidder above that price.

3. If at the above Sale the entire quantity of 2.500 Chests shall not be sold, it shall subsequently be competent for the Board of Customs, Salt and Opium, to dispose of the Lots which remain on hand at future Sales.

4. Each Lot to contain Five Chests.

5. A Deposit in a Promissory Note for 1,000 Rupees per Lot, or 200 Rupees per Chest, shall be made by the Purchaser in the Sale Room, and before the Lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'Clock of the Afternoon of Friday, the 27th May 1842, or on the other hand, failing such redemption by the time aforesaid, then the Lot or Lots for which no Sub-Treasurer's Receipts, or Deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times, and under such Conditions of Re-sale as the Board of Customs, Salt and Opium, shall see fit, and all losses and expences whatsoever attending such Re-sale, shall be borne and paid by the Defaulters, whilst any profit accruing from such Re-sale shall be forfeited to Government.

6. The Promissory Notes taken on the day of Sale under the last mentioned Condition, if remaining unredeemed on the said 27th May 1842, will be placed in the hands of the Attorney to the Hon'ble Company for realization in such manner as to him shall seem fit.

7. No Tender of Money, Sub-Treasurer's Receipts or Public Securities on account of Opium upon which the prescribed Deposit may not have been made before 4 o'Clock of the 27th May, will be afterwards accepted.

8. The Opium now advertised for Sale, shall be paid for within One Calendar Month from the day of Sale, that is to say, no Treasury Receipt will be accepted in payment after 4 P. 9. Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of Lots of their purchase which they may desire to be included in each Certificate or Order, and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single Lots, or of a different number of Lots or Chests, whether more or less than the number of Lots or Chests originally required to be included in each Certificate or Order.

10. No Sub-Treasurer's Receipts or Deposits of Public Securities under the fifth of the present Conditions, will be received in this Office except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for such Deposit will be granted only in the name of such Purchaser, and the Public Securities deposited will be returned when the clearance has been made by the said Purchaser or his order.

11. The Officer Superintending the Sale on the part of the Board of Customs, Salt and Opium, is empowered to reject at his discretion the bid of any individual, unless such individual shall on demand tender at the time a Deposit either in Bank of Bengal Notes, Sub-Treasurer's Receipts or other Government Securities equal to One Thousand Rupees per Lot (or Two Hundred Rupees per Chest,) on each Lot so bid for.

12. The Purchaser of any Lot shall have the option of naming and purchasing in immediate succession any number of Lots of the same Agency Opium to the extent of Fifty Lots; and for the Lots so purchased, the Purchaser shall deposit 1,000 Rupees per Lot, and pay the same price per Chest as that for which he purchased his first Lot, provided always that there remain a sufficient number of Lots of that Opium to complete the said Fifty, but not otherwise.

13. In the event of any dispute or difference touching or concerning any matter or question arising out of the Sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall, and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every Plea and Pleas to the jurisdiction of the said Supreme Court shall be waived.

14. The following Papers, together with Samples of the Opium for Sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date, by application at the Office of the Secretary to the Board of Customs, Salt and Opium.

No. 1. Certificate of the Opium now advertized for Sale.

No. 2. Report of the examination of such Opium.

15. The Public are hereby informed, that in providing the investment of the Behar and Benares Opium for the year 1840-41, the same precautions have been taken as those which have been observed during past years, to have the Drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the Drug when packed at Behar and Benares, and a Statement of the average weight of Six Chests from each dispatch at Calcutta, may be seen on application at the Office of the Secretary to the Board of Customs, Salt and Opium.

16. Four Chests of Behar and Benares Opium which have been reserved from the provision of the two preceding years, will be also shewn to the Purchasers on the day of Sale to enable them to judge of the state of preservation in which the Drug has kept.

17. The Public are hereby informed that in addition to the quantity abovementioned the following quantities more or less of Behar and Benares Opium, will be brought to Sale this year on or about the dates specified below:

	Behar about Chests.	Benares about Chests.	Total about Chests.
On or about June 27th, ...	3014	1146	4160

18. Application having been made by the French Authorities for the 300 Chests of Opium deliverable to them under the 6th Article of the Convention between Great Britain and France, dated 7th March 1815 in the proportions stated in the margin, it is hereby notified, that in the event of the whole or any portion of the Opium thus claimed by the French Government not being cleared out within the limited period allowed for clearance, viz. one month from the date of the sale, such quantity of Opium (or any part thereof) as may remain uncleared, will be sold at the sale next ensuing the date of payment or disposed of at a Sale to be held expressly for the purpose.

By Order of the Board of Customs, Salt and Opium,

H. TORRENS, *Secretary*.

NOTICE

IS hereby given, that from and after the 1st May next, Salt will be sold by private sale and at fixed prices, in quantities of not less than 100 Maunds; any Salt taken in excess of Maunds 100 to be taken in even quantities of Maunds 150, or Maunds 200 each, as Maunds 300, Maunds 350, Maunds 400, Maunds 500, &c.

2d. The Salt will be deliverable in the same manner and upon the same documents as heretofore from the several Ghauts and Golahs.

3d. The price of each description of Salt deliverable at the several Ghauts and Golahs will be specified from time to time by Public Notifications.

4th. Parties desirous to purchase Salt from any Ghaut or Golah, must pay the price at the rate fixed for such Salt into the General Treasury, and upon the production of the Sub-Treasurer's Receipt for the amount at the Board of Customs, Salt and Opium, with a written application stating the quantity of Salt required, and the Agency and Ghaut from whence it is deliverable, the applicant shall receive (provided there be in store at the Ghaut or Golah specified, the quantity of Salt applied for) an order upon the Salt Agent, or Superintendent of the Sulkea Golahs, to deliver the quantity of Salt purchased, such order will be accompanied by the usual protective documents which will be negotiable as at present.—In the event of more applications being received than there is Salt in store to answer, the preference will be given to the holders of the Sub-Treasurer's Receipts bearing the earliest numbers of Office Registry.—If the Salt be not cleared within three months, from the date of the Board's Order for delivery, Golah rent and wastage will be charged at the rate of Four Rupees per mensem for each 100 Maunds.

5th. No reduction will be made in the price of any Salt, the price of which has been fixed and publicly notified without a previous notice of ten days, or a longer notice, should it appear desirable to the Board of Customs, Salt and Opium.

6th. Seized, damaged, and inferior Salt, will be offered for Sale at such prices as may be equitable with reference to the quality of the Article, and in such quantities as the Board of Customs, Salt and Opium shall determine.

7th. All notices in regard to any reduction in the price of Salt, sold from Government Golahs, will be inserted in the Calcutta Gazette, and copies will be appended at the Office of the Board of Customs, Salt and Opium, and such other places as may be determined by the Board.

8th. Government do not contemplate the necessity of renewing the system of public Sale, but should a recurrence to that system become indispensable, two months' notice of the same will be given, and the notice will specify the upset price per hundred Maunds at which each description of Salt will be offered for public Sale after the expiration of two months from the date of such notice.

9th. All the provisions of the Salt Regulations are equally applicable to Salt purchased under this notification, as to Salt heretofore purchased at the public Sales.

10th. The above Conditions will remain in force until the 30th April, 1843.

By Order of the Board of Customs, Salt and Opium, the 30th April, 1842,

H. TORRENS, *Secretary*.

NOTIFICATION.

Her Britannic Majesty's Chief Superintendent of Trade, &c. &c. &c. in China, being about to remove his Establishments from Macao to Hong Kong, it is hereby notified that John Rickett, Esq., has been appointed Government Agent at the former place, with authority to open all Mails that may come to the address of the Post Master or other British functionary, to make up packets of letters sent to him for despatch on the departure of Vessels, of which the Government Agent will in all ordinary cases give due notice, and to be the medium of transmitting references and communications which Her Britannic Majesty's subjects residing at or visiting Macao, or others, may wish to have sent to the Chief Superintendent or his Deputy at Hong Kong.

It is further hereby notified, that it is the intention of the Chief Superintendent, &c., to address letters by the earliest opportunity to the Governments of Bengal, Madras, Bombay, and Singapore, as well as to Her Majesty's Post Master General in London, suggesting that letters intended for and specially addressed to Macao, or Canton shall, as far as possible, be henceforward made up in separate packets, whilst the great bulk of the correspondence will as heretofore, be forwarded in the Mails generally addressed China, and which latter it is proposed shall only be opened and assorted at the Post Office at Hong Kong, so soon as the arrangements now contemplated have been carried into effect.

All Merchants and others interested in the above described arrangements, are requested to note the same, and recommended to instruct their Agents and Correspondents in Europe, India, and elsewhere, accordingly.

By order,
(Signed) J. R. MORRISON,
Actg. Secy. and Treasurer.

OVERLAND LETTERS AND POSTAGE.

IT is hereby notified for general information—

First.—That all Letters and Newspapers, except Soldiers' and Sailors' Letters, intended for transmission by the Overland Mails, and except those specially marked via "Falmouth," will be sent through France, and thus be subject to the heavier rate of postage.

Second.—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets for England. Letters, &c., for places lying between Bombay and Marseilles, will be despatched in separate Packets.

Third.—Letters for the United Kingdom of Great Britain, weighing less than a quarter of an ounce, and passing through France, are charged single postage, which by that route amounts to *2s. 8d.* By the Falmouth route, Letters of half an ounce in weight, are subject to single postage only, which by that route, has now been reduced to 1s.

Newspapers, if sent via Falmouth, are free of postage; but if transmitted by the way of Marseilles, they are charged *2d.* each.

FORT WILLIAM,

LEGISLATIVE DEPARTMENT,

THE 3D JUNE, 1842.

The following Draft of a proposed Act was read in Council for the first time on the 3d of June 1842.

ACT NO. —— OF 1842.

An Act for regulating the Emigration of the Native Inhabitants of the Territories under the Government of the East India Company to the Island of Mauritius.

I. Whereas it hath been ordered by the Queen's Most Excellent Majesty, by and with the advice of Her Majesty's Privy Council, as follows:

AT THE COURT AT WINDSOR,

THE 15TH OF JANUARY, 1842.

PRESENT—

THE QUEEN'S MOST EXCELLENT MAJESTY.

HIS ROYAL HIGHNESS PRINCE ALBERT.

Lord President.
Lord Privy Seal.
Lord Steward.
Lord Chamberlain.
Earl of Jersey.
Earl of Ripon.
Lord Stanley.

Lord FitzGerald & Vesci.
Sir Robert Peel, Bt.
Mr Chancellor of the Exchequer.
Sir James Graham, Bt.
Sir Edward Knatchbull, Bart.

Whereas it is probable that the Laws now in force in British India for preventing the emigration of the Inhabitants thereof to Her Majesty's Colonial Possessions will be shortly repealed so far as regards emigration to the Island of Mauritius, and that such last mentioned emigration will be sanctioned by Laws to be for that purpose enacted in India, subject to various provisions to be in such Laws made for the protection of such Emigrants, and for the prevention of abuses. And whereas it is probable that amongst the provisions so to be made, as last aforesaid, will be a provision for enabling the Governor General of India to appoint at ports or places in India, Officers charged with the care, protection and superintendence of all persons proposing to emigrate as Labourers from India to Mauritius. And whereas it is probable that provision will be made by Law at Mauritius for defraying from the public Revenue of that Island the expense of introducing emigration thither from British India. And whereas it is necessary that effectual provision should be made by Law at Mauritius for regulating any such expenditure, and for the prevention of abuses in the introduction of Emigrants from British India into that Island—It is therefore hereby ordered by the Queen's Most Excellent Majesty, by and with the advice of Her Majesty's Privy Council, that in the event of any Law being made in British India, authorizing the emigration to Mauritius of the Natives of India, and repealing the restrictions now in force there in regard to such emigrations, and in the event of any such Laws, containing provisions, enabling the Governor General of India to appoint at the several ports of embarkation in India, Officers charged with the protection of persons emigrating from such ports to Mauritius, the various Rules and Regulations comprized, and set forth in the Schedule to this present order subjoined, shall within the Island of Mauritius have the force and effect of Law, and shall be observed and carried into effect by all Her Majesty's Officers, Civil and Military, in Mauritius, and by all Her Majesty's subjects, within the same Island as to them may respectively appertain.

And the Right Hon'ble Lord Stanley, one of Her Majesty's Principal Secretaries of State, is to give the necessary instructions herein accordingly.

(Signed) C. GREVILLE.

The Schedule referred to in the preceding Order, comprising the Rules and Regulations to be observed at Mauritius in regard to Emigrants from British India, resorting to and arriving at that Island.

1st. The Governor of Mauritius may from time to time nominate such persons as he shall see fit to act as Emigration Agents at any port or place in India, while the Governor General of India may designate as a port or place for the embarkation of Emigrants to Mauritius, and may also from time to time nominate a proper person to act as Protector of Immigrants at Mauritius :—

2nd. The remuneration to be given to any such Agent in India, shall not depend upon or be regulated by the number of the Emigrants sent to Mauritius by him, but shall be in the nature of an annual salary.

3rd. Every such Emigration Agent shall ascertain by personal communication with every Emigrant previously to his or her embarkation from the port or place for which such Agent shall be appointed, that such Emigrant has not been induced to emigrate by any fraud, false nor unreasonable expectation, and is aware of the distance of Mauritius from the place where he or she is about to emigrate ; and such Agent shall explain the real advantages likely to be derived by such Emigrants from a removal to Mauritius, at the same time cautioning such Emigrant against unreasonable and unwarrantable expectations ; and such Agent shall also ascertain that every such Emigrant is in good health, and not incapacitated from labour by old age, bodily infirmity, or disease.

4th. And such Customs Officer shall remain on board such Vessel until she has finally left the Port and shall come away along with the Pilot. And before leaving such Ship or Vessel he shall require the Master or Commander to take a general Muster of the Crew and Passengers and Emigrant laborers on board, and he shall bring away with him a copy of the Muster Roll so taken, countersigned by the Pilot. And any Customs Officer who shall omit to require such Muster to be taken and to make a correct copy of the Roll, or who shall wilfully make a false, erroneous or incomplete report of the Emigrant laborers on board of any Ship, or who shall connive at the unathorized embarkation of any such Emigrant laborers, shall be liable, besides dismissal, to a fine of 500 Rupees, commutable if not paid, to imprisonment in the Calcutta Jail for six months, and the penalty shall be adjudged in like manner as similar penalties are adjudged for offences committed in respect to the Customs Revenue.

Reply to Military Letter dated 10th Nov. 1841.—(*No.* 151.) Offering observations on the subject of a claim preferred respectively by Majors T. Bullock of the 3d and F. Straton of the 8th Regiment Madras Light Cavalry, relative to precedence in the list of Majors of Cavalry for promotion to the rank of Lieutenant Colonel, they having obtained Majorities on the same day.	Para. 1. Having given our most attentive consideration to these proceedings we have resolved that the following rules shall be established for the future rise to Regimental Lieutenant Colonelcies of two or more Captains of the same Arm of

the Service who may be promoted to Regimental Majorities with date of Rank on the same day.

If promoted in succession to two or more Line steps, or one Line and one Regimental step (not occasioned by Augmentations to the Army) to rank together for future promotion according to the order in which their respective Regiments previously stood for the Line step.

"If promoted by Regimental steps or by an Augmentation of the Army, to rank together for future promotion according to their Army seniority as Captains.

2. We thus secure to Regiments the full benefit of their standing for the Line step, and as Regimental promotion is to the rank of Major *inclusive*, we at the same time secure to Regiments the last chance which the system gives of gaining or regaining precedence in the race of relative Regimental promotion.

"My Lords advert to their Minute of the 31st December last on the subject of the Donation granted by Her Majesty to the Forces engaged in the recent Operations in China."

"The Officers and Men entitled to participate in those operations are divided in the Minute into three classes, and the third class is described as follows. viz.

"Those employed only at Ningpo, Chusan and in "the operations in the Canton River in 1840, or in "one only of those operations."

"Representations have however been made to my Lords that some of the Officers and Men who were engaged in operations which took place in the Canton River in the early part of 1841, and who are not included in the two first classes will under the terms of their Lordships' Minute, be excluded from all participation in the Donation of Her Majesty, which would be altogether at variance with Her Majesty's Gracious intentions."

"My Lords are therefore pleased to direct, that the third Class be extended so as to include those who were employed in any of the Operations in the Canton River in the early part of 1841 previously to the commencement of those Operations against Canton, under the immediate pressure of which the 6,000 000 Dollars was paid by the Chinese Authorities for the ransom of that City, and who are not included in the 1st or 2d Class."

FORT WILLIAM,

LEGISLATIVE DEPARTMENT,

THE 3D JUNE, 1842.

The following Draft of a proposed Act was read in Council for the first time on the 3d of June 1842.

ACT NO. —— OF 1842.

An Act for regulating the Emigration of the Native Inhabitants of the Territories under the Government of the East India Company to the Island of Mauritius.

I. Whereas it hath been ordered by the Queen's Most Excellent Majesty, by and with the advice of Her Majesty's Privy Council, as follows:

AT THE COURT AT WINDSOR,

THE 15TH OF JANUARY, 1842.

PRESENT—

THE QUEEN'S MOST EXCELLENT MAJESTY.

HIS ROYAL HIGHNESS PRINCE ALBERT.

Lord President.
Lord Privy Seal.
Lord Steward.
Lord Chamberlain.
Earl of Jersey.
Earl of Ripon.
Lord Stanley.

Lord FitzGerald & Vesci.
Sir Robert Peel, Bt.
Mr. Chancellor of the Exchequer.
Sir James Graham, Bt.
Sir Edward Knatchbull, Bart.

Whereas it is probable that the Laws now in force in British India for preventing the emigration of the Inhabitants thereof to Her Majesty's Colonial Possessions will be shortly repealed so far as regards emigration to the Island of Mauritius, and that such last mentioned emigration will be sanctioned by Laws to be for that purpose enacted in India, subject to various provisions to be in such Laws made for the protection of such Emigrants, and for the prevention of abuses. And whereas it is probable that amongst the provisions so to be made, as last aforesaid, will be a provision for enabling the Governor General of India to appoint at ports or places in India, Officers charged with the care, protection and superintendence of all persons proposing to emigrate as Labourers from India to Mauritius. And whereas it is probable that provision will be made by Law at Mauritius for defraying from the public Revenue of that Island the expense of introducing emigration thither from British India. And whereas it is necessary that effectual provision should be made by Law at Mauritius for regulating any such expenditure, and for the prevention of abuses in the introduction of Emigrants from British India into that Island—It is therefore hereby ordered by the Queen's Most Excellent Majesty, by and with the advice of Her Majesty's Privy Council, that in the event of any Law being made in British India, authorizing the emigration to Mauritius of the Natives of India, and repealing the restrictions now in force there in regard to such emigrations, and in the event of any such Laws, containing provisions, enabling the Governor General of India to appoint at the several ports of embarkation in India, Officers charged with the protection of persons emigrating from such ports to Mauritius, the various Rules and Regulations comprized, and set forth in the Schedule to this present order subjoined, shall within the Island of Mauritius have the force and effect of Law, and shall be observed and carried into effect by all Her Majesty's Officers, Civil and Military, in Mauritius, and by all Her Majesty's subjects within the same Island as to them may respectively appertain.

And the Right Hon'ble Lord Stanley, one of Her Majesty's Principal Secretaries of State, is to give the necessary instructions herein accordingly.

(Signed) C. GREVILLE.

SIR,

I have the honor to forward a letter from Major General Sir Robert Sale, K. C. B., detailing the progress of events during the long and perilous siege sustained by the Force under his Command.

2nd. The gallantry of the Major General and his small Force are too well known to Government to require any commendations from me, but it is very pleasing to me to be the channel through which their many trials are brought to the notice of the Right Honorable the Governor General of India in Council.

I have had an opportunity of inspecting the works thrown up for their protection, by the indefatigable exertions of Sir R. Sale's Force, and my surprise at their strength and extent, has been only equalled by my admiration of the excellent arrangements which must have pervaded all Departments, since after a siege (by greatly superior numbers) of upwards of five months duration,. I find the Garrison in excellent health and spirits and in an admirable state of discipline, with a good supply of ammunition, ready and anxious to take the field, and most willing to advance on Cabool.

I have the honor to be, &c.,

To T. H. **MADDOCK**, Esq.,
Secy. to Govt. Pol. Dept.

Dated Jellalabad, April 16*th*, 1842.

SIR,

The relief of this place having been at length effected by the victorious advance through the passes of the Khyber, of the Army under Major General Pollock, C. B., I conceive that I owe it to the troops who have so long formed the Garrison here to address to you a Report, which may convey some notion of their conflicts and the severity of their duties, labours, and privations. It has before been made known to Government, that I reached Gundamuck on the 30th of October 1841, under instructions from the authorities at Cabool, and there received intelligence of the breaking out of a terrific insurrection at the Afghan Capital on the 2nd November. My retracing my steps on that city was, in a military sense, impracticable, since the first inevitable sacrifice would have been of the lives of 300 sick and wounded, whom I could not have left in depôt with the treasonable Irregulars at Gundamuck, whilst my cattle was unequal to the transport of my camp equipage, and my ammunition insufficient for protracted operations. In the position which I occupied, I could not absolutely command a day's provisions or even water, and should have been hemmed in on every side by hostile tribes, amounting to 30 or 40 thousand men, part of whom might have seized Jellalabad and reduced it to ashes, or, holding it, have left me no alternative but a disastrous retreat towards Peshawur. I therefore came to the resolution of anticipating any movement of this kind, and by possessing myself of this city establishing a point on which the Force at Cabool might retire if hardly pressed, and restoring a link in the chain of communication with our Provinces. Two marches brought me after a successful contest at Futtahabad to Jellalabad. My breaking up from Gundamuck was followed by the immediate defection of the Irregulars there, the destruction of the Cantonment, and a general rising of the Tribes. I found the walls of Jellalabad in a state which might have justified despair as to the possibility of defending them. The enceinte was far too extensive for my small Force, embracing a circumference of upwards of 2300 yards. Its tracing was vicious in the extreme; it had no parapet excepting for a few hundred yards, which there was not more than 2 feet high. Earth and rubbish had accumulated to such an extent about the ramparts, that there were roads in various directions across and over them into the country. There was a space of 400 yards together on which none of the Garrison could shew themselves, excepting at one spot; the population within was disaffected, and the whole enceinte was surrounded by ruined forts, walls, mosques, tombs, and gardens, from which a fire could be opened upon the defenders at 20 or 30 yards.

The Garrison took full possession of the town in such a state on the morning of the 15th of November, and in the course of the day, the place and detached hills by which on one side it is commanded, were surrounded and surmounted by a force of not fewer than 5000 Insurgents. A general attack on the 14th of November ridded us of these enemies, and a similar array brought against us a fortnight afterwards, was dissipated by a second sally on the 1st of December. But we had seized the town having in our possession not quite two days' provisions and corn for our men and horses, and beheld the arduous task before us of striving to render the works defensible, and collecting supplies for our Magazine from the midst of a fanatical and infuriated people with very narrow means in the way of treasure to purchase them. I appointed Captain Broadfoot, Shah Soojah's Sappers, Garrison Engineer, and Captain Abbott, of the Artillery, Commissary of Ordnance. Captain McGregor, Political Agent, gave me the aid of his local experience, and through his influence and measures our Dak communication with India was restored, and a great quantity of grain collected, whilst the unremitting and almost incredible labours of the troops aided by the zeal and science of Captain Broadfoot put the town in an efficient state of defence. Captain Abbott made the Artillery dispositions in the ablest manner, and used every exertion to add to and encourage our resources in the way of gun and musquet ammunition, in both of which we were deficient for the purposes of a siege. Lead and powder were procured in and about Jellalabad, and a quantity of cartridges discovered in an old magazine, and thus the troops completed to 200 rounds per man. It is to be remarked that I might in the second week of November have marched upon Pesh Bolak, relieved from investment the Corps of Jazalchees under Captain Ferris, and with it operated a doubtful retreat upon Peshawar. But I felt it to be my duty to give support to the last moment to our Troops, struggling against their numerous enemies at Cabool, and maintain for them a point on which to retreat and rally if they met with reverse.

On the 9th of January, I was summoned by the leaders of the Afghan Rebellion to give up the place in fulfilment of a Convention entered into by the Political and Military Authorities at Cabool, but as I was fully assured of the bad faith of our enemies, I refused to do this, and on the 13th received the melancholy intelligence of the disastrous retreat of our Troops from the Capital, and their annihilation in the Ghilzie defiles by the rigours of the climate and the basest treachery on the part of those in whose promises they had confided. Almost at the same time it became known to us, that the Brigade of four Regiments marched to my succour from Hindoostan had been beaten in detail and forced to fall back upon Peshawur: my position was most critical, and I might, whilst our enemies were engaged in plundering the Force from Cabool, have attempted, and perhaps effected, though with heavy loss, a retreat across Khyber; but I resolved at all hazards on not relinquishing my grasp on the chief town of the Valley of Ningrahar, and the key of Eastern Afghanistan so long as I had reason to consider that our Government desired to retain it. The discouragements of my Garrison at this moment were very great, their duties most severe, their labours unceasing, and the most insidious endeavours made by the enemy to seduce the native portion of them from their allegiance. But their fidelity was unshaken, and their serenity amidst labours and privations unclouded. With reference, however, to the state of fanatical excitement and national antipathy which prevailed around us, I had been compelled as a measure of prudence to get rid, first of the Corps of Khyber Rangers, and next of the detachment of Jazalchees, and a few of the Afghan Sappers and a body of Hindoostanee Gunners, who had formerly been in the employment of Dost Mahomed Khan. Works had in the mean time been completed of which the annexed reports and plans of Captain Broadfoot contain ample details. Generally, I may state, they consisted in the destruction of an immense quantity of cover for the enemy, extending to the demolition of forts and old walls, filling up ravines and destroying gardens and cutting down groves, raising the parapets to 6 or 7 feet high, repairing and widening the ramparts, extending the bastions, retrenching three of the gates, covering the fourth with an outwork, and excavating a ditch 10 feet in depth and 12 feet in width round the whole of the walls; the place was thus secure against the attack of any Asiatic enemy, not provided with siege artillery.

But it pleased Providence on the 19th February, to remove in an instant this ground of confidence. A tremendous earthquake shook down all our parapets built up with so much labour, injured several of our bastions, cast to the ground all our guard houses, demolished a third of the town, made a considerable breach in the rampart of a curtain in the Peshawur face, and reduced the Cabool gate to a shapeless mass of ruins. It savours of romance but is a sober fact, that the city was thrown into alarm, within the space of little more than one month, by the repetition of full one hundred shocks of this terrific phenomenon of nature.

The Troops turned with indefatigable industry to the reparation of their walls, but at the moment of the great convulsion, Sirdhar Mahomed Akbar Khan, Burukzye, the assassin of the late Envoy and treacherous destroyer of the Cabool force, having collected a body of Troops, flushed with a success consummated by the vilest means, had advanced to Murkhail within 7 miles of our gates. He attacked our foraging parties with a large body of Horse on the 21st and 22d of February, and soon after establishing his Head Quarters to the westward 2 miles from the place, and a secondary camp to the eastward about one mile distant, invested the town and established a rigorous blockade. From that time up to the 7th of April, the reduced Garrison was engaged in a succession of skirmishes with the enemy, who, greatly superior in horse, perpetually insulted our walls by attacks and alerts, and compelled us daily to fight at disadvantage for forage for our cattle. The most remarkable of these affairs were those of the Cavalry under Lieutenant Mayne, commanding detachment Shah Soojah's 2nd Cavalry, and Jemadar Deena Singh, 5th Light Cavalry, already reported; a sally under Colonel Dennie, C. B., to defeat a suspected attempt of the enemy to drive a mine on the 11th of March; the repulse of an assault upon the transverse walls to the northward of the place on the 24th of the same month, by detachments under Captain Broadfoot, (who was severely wounded,) and Captain Fenwick, H. M.'s 13th Light Infantry; the capture of bullocks and sheep by Lieutenant Mayne on the 30th and 31st of January, and the seizure of large flocks of the latter, in the face of Mahomed Akbar's Army, by a force of Infantry under Captain Pattison, H. M.'s 13th Light Infantry, and of Cavalry under Captain Oldfield, on the 1st instant. These successes were crowned by Providence by the issue of the brilliant and decisive attack on the camp of the Sirdhar on the 7th instant.

I have to notice as a measure of defence, my having enrolled as a Provisional Battalion a large body of our camp followers, and armed them with pikes and other weapons. On all occasions of assault and sally these men were available to make a show upon our curtains, and I have pledged myself to them to recommend to Government, that they should enjoy all the pecuniary advantages of Native soldiers beyond the Indus. I at the same time held forth to the troops of Shah Soojah's Force, the expectation that they would be put, during the especial service, on the same footing with their comrades of the Bengal Army.

From the time that the Brigade threw itself into Jellalabad, the Native Troops have been on half, and the followers on quarter rations, and for many weeks they have been able to obtain little or nothing in the bazars to eke out this scanty provision. I will not mention as a privation the European Troops from the same period having been without their allowance of spirits, because I verily believe this circumstance and their constant employment have contributed to keep them in the highest health and the most remarkable state of discipline. Crime has been almost unknown amongst them, but they have felt severely, although they never murmured, the diminution of their quantity of animal food, and the total want of ghee, flour, tea, coffee, and sugar; these may seem small matters to those who read of them at a distance, but they are serious reductions in the scale of comfort of the hard working and fighting soldier in Asia. The Troops have also been greatly in arrears of pay, besides their severe duties, in heat and cold, wind and rain, on the guards of the gates and bastions. The Troops, Officers and men, British and Hindoostanee, of every arm, remained fully accoutred on their alarm posts every night from the 1st March to the 7th of April. The losses of Officers and men in carriage cattle, camp equipage and baggage, between Cabool and Jellalabad, were heavy, and their expenditure, during the siege and blockade, in obtaining articles of mere subsistence and necessity, has been exorbitant.

I feel assured that Major General Pollock will consider it a most pleasing duty to bring the series of labours, privations and conflicts, imperfectly sketched in the foregoing details, to the notice of the head of the Supreme Government in India, and through his Lordship to that of the Court of Directors and of our Sovereign, as a claim for public acknowledgment and substantial reimbursement and reward.

The report of Captain Broadfoot, in his capacity of Garrison Engineer, will meet with attentive perusal: I have already stated how much I have been indebted to his scientific attainments, as well as his distinguished activity and resolution during the siege. His fertility in resource obviated great difficulties in procuring iron, timber and charcoal, and to the foresight of his arrangements we owe our having had a very ample supply of tools. The Corps under his command performed, from Bootkhak, the duties equally of good sappers and bold light infantry soldiers, and the Afghan Huzaree and Eusifzye portion of it have been singularly faithful in time of general defection. The two Infantry Regiments under the lamented Colonel Dennie and Lieutenant Colonel Monteath, have vied with each other in the steady performance of the duties of that arm; and it would be impossible for me to discriminate in favour of either, in awarding praise to the Squadron 5th Light Cavalry under Captain Oldfield, and the Resallah 2d Shah Soojah's Cavalry under Lieutenant Mayne; Lieutenant Plowden of the former, has been distinguished on several occasions. The Artillery practice of No. 6 Light Field Battery has ever been excellent, and has been equalled by that of the Mountain Train. Captains Abbott and Backhouse, and Lieutenant Dawes have proved themselves excellent Officers of Ordnance. I have more than once brought it to notice that Captain MacGregor, Political Agent, has cheerfully rendered very able assistance in serving the guns in every crisis of pressing danger. Of his labours in his own department, I ought not perhaps to attempt to constitute myself a judge; but I know that they have been unremitting, and their result in obtaining for my Force supplies and information, and keeping up our communication with India and with Cabool, and securing for us Afghan co-operation, I may be allowed to appreciate and am bound to point out to Government.

The medical duties of the Garrison have been ably fulfilled by Surgeon Forsyth, Superintending Surgeon Shah Soojah's Force, and Assistant Surgeons Robertson and Barnes, H. M.'s 13th Light Infantry, Hare, 35th Regiment, and Brown, late in charge of the Irregulars.

Captain Mainwaring, Commissariat Officer to the Force, has been indefatigable in his efforts to keep the Garrison well supplied, and his arrangements in very difficult times have merited my highest praise. Captain Moorehouse, 35th Regiment Native Infantry, has satisfactorily discharged his duties as Brigade Quarter Master; he was severely wounded on the 7th instant.

It is gratifying to me to forward the opinion of my second in Command, Lieutenant Colonel Monteath, C. B., placed on record without solicitation, of the merits of the 13th Light Infantry, of which Corps I am proud of being a member: I fully concur in the sentiments which he expresses, and hope the distinctions which he recommends for the Officers of his own Corps will be accorded. The cheerful and persevering manner in which the Native soldiers laboured with the shovel, mattock and hand-barrow were as surprising, as their steadiness and courage in the field were conspicuous.

I have to acknowledge the zealous manner in which Brevet Major Frazer, Light Cavalry, Brevet Captain Gerrard of the Corps of Jazalchees, Captain Burn and Lieutenant Hillersden of the Khyber Rangers, and Lieutenant Dawson, of the Janbazes, when their services could no longer be available with their Corps, volunteered to do duty with any Regiment in which they could be useful.

I must finally express my gratitude to Providence for having placed so gallant and devoted a Force under my command; in every way it has exceeded my most sanguine expectations, and I beg leave in the strongest manner to solicit the interposition of Major General Pollock, C. B, who has nobly laboured and fought to relieve it from its critical position in the midst of a hostile empire, in now committing it to the protection and favor of the Right Honorable the Governor General in Council, and through him of the Court of Directors and of our Sovereign.

I ask permission specially to recommend the following Officers for honorary distinctions or Brevet Rank, or both, viz.: Lieut. Col. Monteath, C. B., commanding 35th Regiment Native Infantry, now second in Command; Brevet Major Frazer, Light Cavalry, who acted as my Aid-de-camp on the 7th instant; Captain Abbott, Commandant of Artillery and Commissary of Ordnance; Captain Backhouse, commanding the Mountrain Train and Senior Officer of the Shah's Troops with my Force; Captain Broadfoot, commanding Sappers and Garrison Engineer; Captain Oldfield, 5th Light Cavalry, Senior Officer of that arm; Captain Seaton, 35th Regiment Native Infantry, particularly recommended for his conduct on the 7th instant by Lieut. Colonel Monteath; Captain Younghusband of the same Regiment, who was distinguished with the advanced guard in the Khoord Cabool Pass and there severely wounded; Captain Burn, late commandant of the Khybur Rangers and doing duty with the 35th Regiment N. I.; Captain Wilkinson, on whom the command of the 13th Light Infantry devolved in the field on the fall of Colonel Dennie, C. B.; Captain Fenwick, H. M.'s 13th Light Infantry, whose highly deserving conduct in the Pass of Jugdulluk was noticed then in my dispatch; Captain Havelock, H. M.'s 13th Light Infantry, Persian Interpreter to Major Generals Elphinstone and Pollock and attached to me as Staff, and who commanded the right column in the final attack on Mahomed Akbar's Camp; and Captain Hamlet Wade, H. M.'s 13th Light Infantry, my Brigade Major, whose exertions in the action of the 7th, I have elsewhere highly commended. Both these latter Officers rendered most valuable services throughout the investment and siege. The Officers of all ranks and Soldiers of all arms, European and Native, I have likewise to represent as generally and individually deserving of reward and encouragement, and I hope that the Government will sanction my calling upon Commandants of Corps and Detachments to send in Rolls of such Native Officers as they may deem worthy of the Insignia of the Order of "Merit and of British India."

I have the honor to be, &c.

From Lieutenant Colonel J. Monteath,
Commanding 35th Regiment,

To Major General Sir R. Sale, K. C. B.,
Commanding in Garrion, Jellalabad.

Dated Jellalabad, 16th April, 1842.

Sir,

The exertions of the Garrison of Jellalabad beyond ordinary routine, having ceased since the decisive victory obtained over the enemy on the 7th instant, and now finally terminated by the arrival of the British Army under Major General Pollock, C. B., I trust I may not be considered as going beyond the limits of my proper duty in addressing you, to state as follows:

As doing but due justice on this occasion to Her Majesty's 13th Light Infantry might be looked upon as a highly colored record of the merits of your own Regiment, and seeing that no such partial bias can possibly be supposed to guide my feelings in the estimate I have formed of their deserts, I have pleasure in sincerely declaring, that their conduct, throughout the painful and perilous position in which they have so long been placed, has been such as fully to deserve the applause and admiration of their country, and the confidence and best consideration of our well beloved Sovereign.

On our throwing ourselves on the 12th of November last, into the old and ruined town of Jellalabad, without money, without food, and almost without protection, with a nation of highly excited and barbarous enemies in arms against us, our situation seemed as hopeless a one as British Troops were ever called upon to confront; notwithstanding which the enemy was twice within twenty days attacked, and on both occasions defeated with signal success.

You yourself will doubtless detail the work performed by the Regiment, let it then be only my province, who have witnessed their exertions almost hourly during a period of five months, to record that their devoted perseverance and cheerfulness amidst all the gloom that surrounded them, after the destruction of their comrades of the Cabool Force, could not have been surpassed by any troops in the world; and that after months of extreme toil, when an earthquake, such as man is not often in the habit of experiencing, in a moment left scarcely a vestige of their labour standing, their flying as they did with redoubled zeal to the work and completing it in ten days, (so that on the arrival of the enemy before Jellalabad, they declared that the calamity which had befallen the valley arose from nothing but English witchcraft; it being the only place that had escaped uninjured :) was what none but British Soldiers could have performed, and what no price could have purchased, for it was the labour of the heart, work of all others most deserving of distinction and reward.

In regard to the Native Troops of all arms, I shall refrain from saying much for a reason which has in a measure induced me to address this letter to you, but as you have yourself been a daily witness of their conduct under every description of circumstance, you have it fully within your own power to say all, of which the Government they serve may very justly feel proud, and it may serve to shew as an example for imitation, what noble enthusiasm and zeal may be lighted up in their breasts by the high bearing and considerate conduct of determined British Officers.

I shall conclude by observing that we can now, Sir, proudly march forth from this Garrison with the enemy's standards in our hands, and their captured cannon to fire a salute, on delivering over the care of the honor of the British name, which we have had within our keeping for the last five months, pure and unspotted, and without a single circumstance existing to cast a breath upon its lustre.

The conduct of the Officers of the 35th Regiment generally, as well as of those doing duty with it throughout the siege, I am proud to say, has been such as well to deserve any reward or distinction that can be conferred upon them.

Of those holding the rank of Captain and above it, which enables Her Majesty to advance them a step, I could strongly recommend Captain Seaton, 35th Regiment; Captain Younghusband, 35th Regiment, (severely wounded;) Brevet Major Fraser, late 2nd Light Cavalry, and Captain Burn, 1st Regiment Native Infantry, both doing duty with the 35th Regiment.

Of the Native Officers of the 35th Regiment, I could also strongly recommend; that six should, as a compliment to the Regiment for its gallant and meritorious conduct, receive the Order of " *Merit*" and of " *British India* ;"—viz.

Sahib Ram, Subadar,
Manick Sing, Subadar,
Derriou Sing, Jemadar,
Rambuccus Tewarry, Jemadar,
Hoolass Ram, Subadar, and
Hurram Sing, Jemadar.

I have the honor to be, &c.

FORT WILLIAM,

GENERAL DEPARTMENT,

MARINE,

THE 8TH JUNE, 1842.

The Hon'ble the Deputy Governor of Bengal is pleased to direct, that the following Instructions received with a letter from the Acting Colonial Secretary to His Excellency the Governor of the Cape of Good Hope, dated the 21st March last, be published for general information:

INSTRUCTIONS

For entering Table Bay by Night, by the Plan constructed on the Observations made by H. M. Ship LEVEN,

November, 1825.

The Bearings mentioned in these Instructions are all by Compass, or magnetic.

1st. To enter Table Bay from the Northward, meaning to pass outside of Robben Island, a Ship should keep the Light to the Eastward of South—9 degrees East, or about South and by East, until she get soundings under 20 fathoms, at a little more than a mile from the Light House; she may then steer East South East, or East and by South, not to come under 10 or 12 fathoms until the Light bears West South West, she may then steer for the Anchorage, and may anchor in from 7 to 6 fathoms, as soon as the Lights are shutting in behind the Lion's Tail.—This track leads about a mile clear of danger on Green Point; but a Ship need not approach it so near, if she have, by seeing Robben Island, ascertained by its bearings, that she is clear of the Whale Rock, in which case she may round it at a greater distance from Green Point, if desirable, but the soundings in that case will not alone be a sure guide.

2d. In coming from the South-West, a Ship should not get less than 40 fathoms before the Light bears South East, or East South East, nor less than 20 fathoms before it bears South and by East, when the preceding directions may be followed.

From the Northward—inside of Robben Island—the Light should be kept about South West and by South, until a Ship have passed that Island; in doing which she may have some casts from 8 to 6 fathoms: and when on that course the Water deepens to 11 or 12 fathoms, she may steer for the Anchorage by the Plan as before directed.

In beating round Green Point, a Ship should never shoal her Water under 11 or 12 fathoms, until she have brought the Light to bear West South West, as before said.

In beating between Robben Island and the Main, to enter Table Bay, the soundings may be taken from the Island as it shoals to very regularly. In standing towards the Main, it appears prudent to tack at the first cast of the Lead after the Water shoalens.

In these directions it is taken for granted, that a Ship will always keep her Leads going.

By Day, or when the Shores or Surf can be seen, or indeed under any circumstances, the Plan ought to be a sufficient guide.

There are two Lights at the Light House, which are in one about South West and by West; these appear to be of no other use than to assure the Navigator which is the Light House, if he should see other Lights. We have seen the Lights clearly off deck at 16 miles distance; but they will not make clear as two Lights until within 6 or 7 miles to the Westward of them; and from the Northward one Light only will be seen.

(Signed) W. F. W. OWEN,

Captain of H. M. Ship Leven.

A Light House having been erected on the Mouille Point, with a Lenticular Light of the 4th class, for the better guidance of Vessels entering Table Bay during the Night, the following Instructions are appended to the Instructions by Capt. OWEN, R. N.

In standing in from the S W. a Ship should not pass the Lights on Green Point nearer than a mile—nor should the course be altered from the Eastward to the Southward, with the intention of steering for the anchorage,—nor should the ship be brought into less than 14 or 15 fathoms water, before the Lights on Green Point bear S. W. by W. ½ W. (they will then be in one,) when the Light on the Mouille Point will instantly be seen, (and not before,) bearing nearly S by W.—A Ship may then alter the course from the Eastward, and steer S. S. E for the centre of the anchorage, and anchor whenever the Lights on Green Point are shut in (by Sand-hills near the Mouille) and the Light on the Mouille Point bears N. W. distant about a Mile, in from 6 to 8 fathoms water. Vessels of light draft of water may steer S. by E ½ E. for the anchorage, and anchor with the Mouille Light bearing N. W. by N. in from 4 to 5 fathoms of water.

The Ship's distance from the Shore, when the Light on the Mouille appears, may be readily ascertained by the bearings of the two Light Houses, and the distance between them, which is 1,215 yards—the perpendicular height of the Mouille Light above high water mark is 40 feet.

In coming in from the Northward (inside Robben Island,) the Lights on Green Point will appear in one, (or nearly so,) and the Light on the Mouille Point will also be seen—the distance between the Light Houses being as above mentioned. The Directions by Capt. Owen, and the appended Directions, will be a sufficient guide to the anchorage.

It is earnestly recommended to Strangers not to attempt to beat into Table Bay at night, in squally or thick weather.—The strictest attention should be paid to the Soundings, and the Leads kept constantly going. The Plan of the Bay by Capt. Owen, (upon which the Instructions are founded,) should also be at hand for reference.

(Signed) J. BANCE, Port Captain.

By Command of His Excellency Sir GEO. T. NAPIER, K. C. B., Governor, Vice-Admiral, and Commander in Chief of the Colony of the Cape of Good Hope and its Dependencies, &c. &c. &c.

(Signed) J. MOORE CRAIG,
Acting Secretary to Government.

N. B.—The Light on the Mouille Point will be lighted from and after the 1st Day of July next.

Cape Town, 1st March, 1842.

FORT WILLIAM,
LEGISLATIVE DEPARTMENT,

THE 3D JUNE, 1842.

The following Draft of a proposed Act was read in Council for the first time on the 3d of June 1842.

ACT No. —— OF 1842.

An Act for regulating the Emigration of the Native Inhabitants of the Territories under the Government of the East India Company to the Island of Mauritius.

I. Whereas it hath been ordered by the Queen's Most Excellent Majesty, by and with the advice of Her Majesty's Privy Council, as follows:

AT THE COURT AT WINDSOR,

THE 15TH OF JANUARY, 1842.

PRESENT—

THE QUEEN'S MOST EXCELLENT MAJESTY.
HIS ROYAL HIGHNESS PRINCE ALBERT.

Lord President.
Lord Privy Seal.
Lord Steward
Lord Chamberlain.
Earl of Jersey.
Earl of Ripon.
Lord Stanley.
Lord FitzGerald & Vesci.
Sir Robert Peel, Bt.
Mr. Chancellor of the Exchequer.
Sir James Graham, Bt.
Sir Edward Knatchbull, Bart.

Whereas it is probable that the Laws now in force in British India for preventing the emigration of the Inhabitants thereof to Her Majesty's Colonial Possessions will be shortly repealed so far as regards emigration to the Island of Mauritius, and that such last mentioned emigration will be sanctioned by Laws to be for that purpose enacted in India, subject to various provisions to be in such Laws made for the protection of such Emigrants, and for the prevention of abuses. And whereas it is probable that amongst the provisions so to be made, as last aforesaid, will be a provision for enabling the Governor General of India to appoint at ports or places in India, Officers charged with the care, protection and superintendence of all persons proposing to emigrate as Labourers from India to Mauritius. And whereas it is probable that provision will be made by Law at Mauritius for defraying from the public Revenue of that Island the expense of introducing emigration thither from British India. And whereas it is necessary that effectual provision should be made by Law at Mauritius for regulating any such expenditure, and for the prevention of abuses in the introduction of Emigrants from British India into that Island—It is therefore hereby ordered by the Queen's Most Excellent Majesty, by and with the advice of Her Majesty's Privy Council, that in the event of any Law being made in British India, authorizing the emigration to Mauritius of the Natives of India, and repealing the restrictions now in force there in regard to such emigrations, and in the event of any such Laws, containing provisions, enabling the Governor General of India to appoint at the several ports of embarkation in India, Officers charged with the protection of persons emigrating from such ports to Mauritius, the various Rules and Regulations comprized, and set forth in the Schedule to this present order subjoined, shall within the Island of Mauritius have the force and effect of Law, and shall be observed and carried into effect by all Her Majesty's Officers, Civil and Military, in Mauritius, and by all Her Majesty's subjects within the same Island as to them may respectively appertain.

And the Right Hon'ble Lord Stanley, one of Her Majesty's Principal Secretaries of State, is to give the necessary instructions herein accordingly.

(Signed) C. GREVILLE.

The Hon'ble the President in Council, adverting to the violent Storm which visited Calcutta and the neighbourhood on the 2d, 3d and 4th instant, and to the importance of obtaining accurate local Registers of all such Phenomena, is pleased to direct the republication of the following Notification, to which the attention of public Officers, of the different Settlements and Stations of India, is requested.

FORT WILLIAM,

GENERAL DEPARTMENT,

Wednesday, 11th September, 1839.

NOTIFICATION.

The importance of investigating the Course and Phenomena of Storms has been brought to the notice of Government by the Hon'ble Court of Directors and the Hon'ble the President in Council is, in consequence, desirous of obtaining local Registers of these Phenomena taken simultaneously at as many Stations of India as may be found possible. The public Officers of the different Settlements and Stations of India are accordingly invited and requested, upon the occurrence of any Hurricane, Gale or other Storm of more violence than usual, to note accurately the time of its commencement, the direction from which the wind first blows, whether in gusts or regular, and whether accompanied with rain, thunder and lightning, or other Phenomena. Also to note, with as much accuracy as possible, the changes of direction in the wind and the time of the occurrence of each; and lastly, the duration of the Gale and in what quarter the wind is when it ceases. The variations of the Thermometer and Barometer at each period noticed will also be of importance, if the means are forthcoming of making such observations

The President in Council refrains from making it the business of any particular Officer to note the above circumstances, but relies on the known desire of all enlightened persons to promote objects of Scientific and useful Enquiry, that the public Officers will arrange in such manner as to ensure that the observations will be taken by some one in the vicinity of each Station.

Reports upon matters of the description, comprehended in this Order, may be forwarded to the Secretary to Government in the General Department, free of postage (Superscribed "Storm Report".)

A Scientific Gentleman in Calcutta has obligingly undertaken to combine all Reports that may be so received into a Synopsis for exhibition of the results in the manner adopted and recommended by Colonel Read, R. A.

FORT WILLIAM,

SECRET DEPARTMENT,

THE 15TH JUNE, 1842.

The Hon'ble the President in Council is pleased to order that the subjoined copy of a Dispatch from Major General Pollock, dated 20th May last, with its enclosures, be published for general information.

Copies.

No. 57 of 1842.

From Major General GEO. POLLOCK, C. B.,
Commanding Troops West of Indus

To T. H. MADDOCK, ESQ.,
Secy. to Govt. Pol. Department.

Dated Jellalabad, May 20, 1842.

SIR,

I have the honor to forward copy of a letter, together with its enclosures, received from General Sir R. Sale, K. C. B.

I have the honor to be, &c.

(Signed) GEO. POLLOCK, *Major Genl.*
Commanding Troops West of Indus.

Jellalabad,
May 20, 1842.

From Major General Sir R. SALE, K. C. B.,
&c. &c.

To Captain PONSONBY,
Assistant Adjutant General.

Dated Jellalabad, May 18, 1842.

SIR,

Observing by the Governor General's Orders, that the dispatch published, is that sent off by me on the evening of the action of the 7th ultimo, hurriedly written in Conjee water, I have to request that the Major General will do me the favor to express to the Right Hon'ble the Governor General, how gratifying it will be to me, to have my amended dispatch (sent to you the day after the action) published in Orders, as that now before the public contains many slight inaccuracies, caused I fancy by the writing not coming distinctly out, on the application of the Iodine, and the names of Officers who distinguished themselves on that day, were unavoidably left out of my first dispatch.

I take the liberty to enclose a triplicate of my Dispatch, fearing the duplicate may have miscarried.

I have, &c.,

(True Copy,)

(Signed) R. C. SHAKESPEAR,
Military Secretary.

To CAPTAIN PONSONBY,
Asst. Adjt. General.

SIR,—Information was on the evening of the 8th instant brought into this place in the most positive and circumstantial terms by spies from the enemy's camp, to the effect that the Force under Major General Pollock, C. B., had met with a reverse in the Khyber, retraced its steps towards Peshawur, and about 10 A. M. on the 6th, a *feu de joie* and salute of Artillery were fired by Mahomed Akbar, which were said to be in honor of the same event. It was on the same day and through similar channels announced to me that the Afghans were sending additional reinforcements to aid in defending their frontier passes. Although I could not wholly depend on these statements which were improbable in themselves, and accompanied by counter reports of a new Revolution at Cabool, which was assigned by some as the cause of the rejoicing and of the defeat of the Ghazees in Khyber, and by an account of the intended and even actual retreat of the Sirdar into Lughman, I adopted, on a full consideration of the various circumstances and rumours, the resolution of anticipating the last mentioned event, if it had not come to pass, by a general attack on the Afghan Camp, in the hope of relieving this place from blockade, and facilitating General Pollock's advance to our succour. I accordingly gave directions to form three columns of Infantry, the centre consisting of H. M.'s 13th Light Infantry, mustering 500 Bayonets, under Colonel Dennie, C. B; the left one also 500 strong, under Lieutenant Colonel Monteath, C. B., and the right composed of one Company 13th Light Infantry and one of the 35th N. I., and the Detachment of Sappers under Lieutenant Orr (the severity of Captain Broadfoot's wound still rendering him non-effective) the whole amounting to 360 men, commanded by Captain Havelock, H. M.'s 13th L. I. These were to be supported by the fire of the guns of No. 6 Light Field Battery under Captain Abbott, to which Captain Backhouse, S. S. Artillery, was attached, and by the whole of my small Cavalry Force under Captain Oldfield and Lieutenant Mayne. The Troops issued from the Cabool and Peshawur Gates at daylight this morning. So far from the Sirdar having made any dispositions to avoid the encounter, his whole force, not falling short in all of six thousand men, was formed in order of battle for the defence of his Camp, its right resting on a Fort, and its left on the Cabool River, and even the ruined works within eight hundred yards of the place recently repaired were filled with Ghilzie Marksmen, evidently prepared for a stout resistance. The attack was led by the Skirmishers and column under Captain Havelock, which drove the enemy in a most satisfactory manner, from the extreme left of his advanced line of works, which it pierced, and proceeded to advanced into the plain, whilst the central column directed its efforts against a square Fort on the same base, the defence of which was obstinately maintained. With the deepest regret I have to record that, whilst nobly leading his Regiment to the assault, Col. Dennie received a shot through the body, which shortly after proved fatal. The rear of the work having been finally aimed by passing to its left, I gave orders for a combined attack on the enemy's camp, it was in every way brilliant and successful. The Artillery advanced at the gallop, and directed a heavy fire upon the Afghan centre, whilst two of the columns of Infantry penetrated his line near the same point, and the third forced back its left from its support on the river, into the stream of which some of his horse and foot were driven. The Afghans made repeated attempts to check our advance by a smart fire of musquetry, by throwing forward heavy bodies of horse, which twice threatened the Detachments of Foot under Captain Havelock, and by opening upon us three guns from a Battery screened by a garden wall, and said to have been served under the personal superintendence of the Sirdar. But in a short time they were dislodged from every point of their position, their cannon taken and their Camp involved in a general conflagration. The battle was over, and the enemy in full retreat in the direction of Lughman by about 7 A. M. We have made ourselves masters of two Cavalry Standards, recaptured 4 Guns lost by the Cabool and Gundamuck Forces, the restoration of which to our Government is matter of much honest exultation amongst our Troops, seized and destroyed a great quantity of Materiel and Ordnance Stores, and burnt the whole of the enemy's Tents. In short, the defeat of Mahomed Akbar in open field, by the Troops whom he had boasted of blockading, has been complete and signal.

The fall of an Officer, so distinguished as Colonel Dennie, will be felt as a public calamity. Lamenting it on every account, I must yet share with his country, his Regiment, and his friends, in the consolation afforded by the reflection that he was killed whilst most gallantly performing his duty. I have to express my entire satisfaction with the conduct in this action of Lieutenant Colonel Monteath, C. B., Commanding one of the two Infantry columns under my own eye, and of Captain Wilkinson, H. M.'s 13th Light Infantry, on whom the charge of the other devolved on the death of his Lieutenant Colonel, of Captain Oldfield and Lieutenant Mayne who led the Cavalry, and of Captains Abbott and Backhouse, and Lieutenant Dawes, Artillery. The able and judicious manner in which Captain Havelock, H. M.'s 13th Light Infantry, moved the Force under his Command, which acted on a line sufficiently distant to render its manœuvres independant of my immediate control, demands my particular and especial commendation.

My acknowledgments are also due to my Brigade Major Captain Hamlet Wade, H. M.'s 13th Light Infantry, whose exertions were on this day, as they have ever been, most meritorious; to Major Frazer, Light Cavalry, who acted as my Aide-de-camp, and to Captain Mainwaring, Commissariat Officer with the Force, who was present on and active in the field; Captain Macgregor, Political Agent, handsomely offered his services with No. 6 Light Field Battery, and was most useful in serving the guns. I enclosed Returns of Killed and Wounded, and of Ordnance and Stores captured. Lieutenant and Adjutant Wood, H M.'s 13th Light Infantry, made a dash at one of the enemy, and in cutting him down his charger was so severely injured, as to have since been destroyed. Captain Havelock reports in the most favourable manner the gallant conduct throughout the day of Lieutenant Cox, H. M. 13th Light Infantry, and he was the first of the party which captured them to seize two of the enemy's cannon.

It will be seen from the preceding details that the force employed in this successful enterprize, amounted to about eighteen hundred men of all arms. The safety of the place was entrusted during the action to the ordinary guards of its gates and our Provisional Battalion of Followers of every description, armed with pikes and various other weapons, who manned the curtains, and made a respectable show of defence, as they had done on all occasions of attack on the walls. Captain Pattison, H. M.'s 13th Light Infantry, was left in charge of this diminished garrison. A sally was made from the Cabool Gate towards the conclusion of the engagement by Lieutenant Wade of H. M.'s 13th Light Infantry into the Fort, before which Colonel Dennie had fallen, and which the enemy were observed to be abandoning. All that it contained was set on fire, and some of its defenders intercepted and killed.

The enemy's loss during the day must have been severe. The field of battle was strewed with the bodies of men and horses, and the richness of the trappings of some of the latter, seemed to attest that persons of distinction had been among the casualties.

Lieutenant Colonel Monteath has noticed to me on high terms the gallant behaviour of Captain Seaton, 35th Regiment N. I., when in command of the Skirmishers of that Corps, and informed me of the fact of his having been the captor of a Howitzer from the enemy.

We have information to the fact that the following Chiefs were present and took part in the action, viz.

Sirdar Mahomed Akbar Khan in person, Umeer Khan, Chief of Bajour, Uzeez Khan, Ghool Mahomed Khan, Mahomed Shah Khan, Burukut Khan, Azad Khan and Shookoor Khan, principal men amongst the Eastern Ghilzies; Myan Abdool Rahman of Kama, Meer Ufzul Khan of Ghundaghur, Syud Oosman, and Oosmah Khan, Mohmunds, Syud Mahomed, son of the King of Kooner, Syud Hashim, the deposed ruler of the same place, Myah Hyder, Chief of Kivat, Mohumud Jan Khan, head of the Sungo Serai, Abdool Ghuffoor Khan, Achukzye, nephew of Abdoollah Khan of the same Tribe, and Abdool Ghuffoor Khan, Barukzye.

3. If at the above Sale the entire quantity of 4,162 Chests shall not be sold, it shall subsequently be competent for the Board of Customs, Salt and Opium, to dispose of the Lots which remain on hand at future Sales.

4. Each Lot to contain Five Chests.

5. A Deposit in a Promissory Note for 1,000 Rupees per Lot, or 200 Rupees per Chest, shall be made by the Purchaser in the Sale Room, and before the Lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'Clock of the Afternoon of Friday, the 1st July 1842, or on the other hand, failing such redemption by the time aforesaid, then the Lot or Lots for which no Sub-Treasurer's Receipts, or Deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times, and under such Conditions of Re-sale as the Board of Customs, Salt and Opium, shall see fit, and all losses and expences whatsoever attending such Re-sale, shall be borne and paid by the Defaulters, whilst any profit accruing from such Re-sale shall be forfeited to Government.

10. No Sub-Treasurer's Receipts or Deposits of Public Securities under the fifth of the present Conditions, will be received in this Office except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. No. 1. Certificate of the Opium now advertized for Sale.

No. 2. Report of the examination of such Opium.

15. The Public are hereby informed, that in providing the investment of the Behar and Benares Opium for the year 1840-41, the same precautions have been taken as those which have been observed during past years, to have the Drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the Drug when packed at Behar and Benares, and a Statement of the average weight of Six Chests from each dispatch at Calcutta, may be seen on application at the Office of the Secretary to the Board of Customs, Salt and Opium.

16. Four Chests of Behar and Benares Opium which have been reserved from the provision of the two preceding years, will be also shewn to the Purchasers on the day of Sale, to enable them to judge of the state of preservation in which the Drug has kept.

17. Application having been made by the French Authorities for 300 Chests of Opium deliverable to them under the 6th Article of the Convention between Great Britain and France, dated 7th March 1815, in the proportions stated in the margin, it is hereby notified, that in the event of the whole or any portion of the Opium thus claimed by the French Government not being cleared out within the limited period allowed for clearance, viz. one month from the date of the sale, such quantity of Opium (or any part thereof) as may remain uncleared, will be sold at the sale next ensuing the date of payment or disposed of at a Sale to be held expressly for the purpose.

GENERAL ORDERS BY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA.

ALLAHABAD, 16*th June*, 1842.

The Right Honorable the Governor General of India having determined to incorporate the Troops recently raised in Hindoostan, for the Service of His late Majesty Shah Soojah-Ool-Moolk, with the Bengal Native Army, is pleased to direct the following arrangements to be adopted for giving effect to the measure:

The Corps, with the exception of those at Jellalabad, will remain embodied until their arrival at Ferozepore, on which date they will be paid up, and each Soldier being furnished with a Certificate of his previous Service, will be sent to join the Corps assigned to him.

Any Officer or Soldier who may desire not to enter the Service of the East India Company, is to be discharged with a Gratuity of three Months' Pay and full Batta, and any Officer or Soldier who may be pronounced by a Special Committee (to be assembled for the examination of the whole by the Officer Commanding at Ferozepore) to be physically unfit for the Line, is to be discharged with a Gratuity of three Months Pay and full Batta of his present rank, for every year he may have served West of the Indus.

Any Officer or Soldier who may, previous to his transfer to the Shah's Force, have served in the Line long enough to establish a claim to pensionary support, and who may be pronounced unfit for the Service, is to be transferred to the Invalid Establishment on the pension of the rank he held in his former Corps, as provided for in the General Order of the 1st of November 1838.

The European Commissioned Officers lately in the Service of the Shah, with the exception of those at Jellalabad, will continue attached to their present Corps until their arrival at Ferozepore, when, as soon as they have completed the arrangements now directed for the disposal of the Men, they will proceed and join the Regiments to which they severally belong.

The Staff Sergeants of the Infantry Battalions will remain at Ferozepore under the orders of the Brigade Major at that Station, until instructions for their disposal are furnished from Army Head Quarters.

The Quarter Masters and Bazar Establishments of the Jellalabad Corps are to be distributed among the Corps of that Force, at the discretion of the Major General Commanding, and on their return to the Provinces, they are to be paid up and discharged.

The Establishments with the other Corps will remain attached to them until their arrival at Ferozepore, when they likewise will be paid up and discharged.

As none of the Native Officers of the Shah's Force held a rank higher than that of Jemadar, when originally transferred from the Line, His Lordship has been pleased to fix that rank as the highest in which any Officer shall return to the regular Army, and their Commissions, as Jemadars, are accordingly to bear the date of this order: the Non-Commissioned Officers and Privates must enter their new Corps as the juniors of their respective grades.

The Native Officers and Men of the Mountain Train are to be attached to the 4th Company 6th Battalion of Artillery, and on their return to the Provinces, such of them as may be pronounced fit for the Service, are to be distributed equally amongst the three Native Troops of Horse, and the two Native Battalions of Foot Artillery, at the discretion of the Brigadier Commandant of the Regiment; the Subadar as a Jemadar.

The Sappers will be formed into two Companies, and added as Supplementary Companies to the Bengal Sappers and Miners; on their arrival at Ferozepore, they will be examined by a Special Committee, and any Officer or Soldier who may be found unfit for the regular Army, is to be discharged with a Gratuity of three Months Pay and full Batta, for every year he may have served West of the Indus.

The Detachment of Anderson's Horse, now at Jellalabad, will do duty for the present with the 3d Irregular Cavalry, but on their arrival within the Provinces, they are to be sent to join the Corps now assigned to them.

The Horse Artillery will be formed into one Troop, and added as a Supplementary Troop to the 1st Brigade of Horse Artillery.

All Ordnance, Ordnance Stores, Harness, &c., in excess to the proportion assigned by regulation to a Troop of Horse Artillery in Bengal, are, on arrival, to be deposited in the Magazine at Ferozepore, and such of the Horses as may be pronounced by a Committee unfit for the Horse Artillery, are to be made over to the Commissariat Department to be disposed of.

Such of the Officers and Men as may be pronounced unfit for the Service, and who, by previous servitude have established no claim to pensionary support, are to be discharged with the prescribed Gratuity.

Major General Pollock, C. B., will appoint the European Officers now at Jellalabad, and recently in the Service of the Shah, to do duty with the Troops under his Command, forwarding copies of the Orders he may issue disposing of them to Army Head Quarters, for confirmation.

All promotions in the Corps remaining embodied are to cease, and any which may have been made in them, or in the disbanded Corps subsequent to the *5th of April last, are to be cancelled.

10. No Sub-Treasurer's Receipts or Deposits of Public Securities under the fifth of the present Conditions, will be received in this Office except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for such Deposit will be granted only in the name of such Purchaser, and the Public Securities deposited will be returned when the clearance has been made by the said Purchaser or his order.

11. The Officer Superintending the Sale on the part of the Board of Customs, Salt and Opium, is empowered to reject at his discretion the bid of any individual, unless such individual shall on demand tender at the time a Deposit either in Bank of Bengal Notes, Sub-Treasurer's Receipts or other Government Securities equal to One Thousand Rupees per Lot (or Two Hundred Rupees per Chest,) on each Lot so bid for.

12. The Purchaser of any Lot shall have the option of naming and purchasing in immediate succession any number of Lots of the same Agency Opium to the extent of Fifty Lots; and for the Lots so purchased, the Purchaser shall deposit 1,000 Rupees per Lot, and pay the same price per Chest as that for which he purchased his first Lot, provided always that there remain a sufficient number of Lots of that Opium to complete the said Fifty, but not otherwise.

13. In the event of any dispute or difference touching or concerning any matter or question arising out of the Sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall, and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every Plea and Pleas to the jurisdiction of the said Supreme Court shall be waived.

No. 2. Report of the examination of such Opium.

15. The Public are hereby informed, that in providing the investment of the Behar and Benares Opium for the year 1840-41, the same precautions have been taken as those which have been observed during past years, to have the Drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the Drug when packed at Behar and Benares, and a Statement of the average weight of Six Chests from each dispatch at Calcutta, may be seen on application at the Office of the Secretary to the Board of Customs, Salt and Opium.

16. Four Chests of Behar and Benares Opium which have been reserved from the provision of the two preceding years, will be also shewn to the Purchasers on the day of Sale, to enable them to judge of the state of preservation in which the Drug has kept.

17. Application having been made by the French Authorities for 300 Chests of Opium deliverable to them under the 6th Article of the Convention between Great Britain and France, dated 7th March 1815, in the proportions stated in the margin, it is hereby notified, that in the event of the whole or any portion of the Opium thus claimed by the French Government not being cleared out within the limited period allowed for clearance, viz. one month from the date of the sale, such quantity of Opium (or any part thereof) as may remain uncleared, will be sold at the sale next ensuing the date of payment or disposed of at a Sale to be held expressly for the purpose.

FORT WILLIAM,

SECRET DEPARTMENT, 24TH JUNE, 1842.

The Honorable the President in Council is pleased to direct the publication of the following copy of a Notification by order of the Right Honorable the Governor General, with copy of the Dispatch from Lieutenant General Sir Hugh Gough, G. C. B., Commanding the Expeditionary Force in China, therein mentioned.

NOTIFICATION.

SECRET DEPARTMENT, ALLAHABAD, THE 15TH JUNE, 1842.

The Right Honorable the Governor General of India is pleased to publish for general information the following despatch dated 19th March, from Lieutenant General Sir Hugh Gough, G. C. B., Commanding the Expeditionary Force in China.

By order of the Right Hon'ble the Governor General,

T. H. MADDOCK,

Secretary to the Government of India,

with the Governor General.

From Lieut. Genl. Sir HUGH GOUGH, G. C. B.,

Comdg. Expedy. Land Force, China.

To the Right Hon'ble the Earl of AUCKLAND, G. C. B.,

&c. &c. &c.

MY LORD,

I have the gratification to inform your Lordship of the total discomfiture, and precipitate retreat of that portion of Commissioner Yih-King's force, which had been sent forward to exterminate us, and I feel most thankful to say, with wonderfully small loss on our part.

My letter of the 11th will have informed your Lordship of the attacks on this City, and Chinhae, on the night of the 9th and morning of the 10th. I deemed it right promptly to follow up these successful repulses, taking the attacking columns in detail, and understanding that General Yu-poo-yun was advancing from Funghwa with from 6 to 7,000 men, I moved out to meet him on the 13th, with 600 men of the 18th and 49th Regiments, and Madras Artillery, with 2 guns and 50 Sappers, flanked by the *Sesostris,* Steamer, which moved up the river parallel with our route, having on board three Companies of the 26th, and a small body of Seamen and Marines. Until I reached the village Litso, about 7 miles from hence, where I understood the enemy had been posted on the 12th, I could obtain no satisfactory information of his movements; but I had the mortification to find on my arrival, that the Chinese had retreated over the hills the preceding night apparently moving on Shan Hing.

Having thus got rid of this column, although not in the way I could have wished, and being joined by Sir William Parker, who on his arrival from Ta-Shan, with the zeal for which he is so conspicuous, at once followed me up the river with the two small Steamers, bringing with him 250 Marines and a party of Seamen, I determined upon moving on Tsekee, where I was informed, that the Chinese were in considerable force under Generals Twan-Yung, Yaug and Choo. It was reported that they had two intrenched Camps on the Segaon hills, about half a mile North of Tsekee; that several guns had been placed on the walls, and at the gateways, and large stores of provisions laid up for the army in the City, and that 7 miles North East of these encampments, another force of from 5 to 6,000 men, under Commissioner Wun, with the military chest, was posted in a fortified camp in the hills at the Changki pass.

The necessary arrangements having been made with Rear Admiral Sir William Parker, the troops named in the margin were all embarked by eight o'clock on the morning of the 15th, on board the Steamers, *Queen*, *Nemesis* and *Phlegethon*. Sir William Parker placed at my disposal 350 Seamen and Marines, making up about 1,000 bayonets. At 12 o'clock this force was landed about 4 miles from Tsekee, from whence we had a perfect view of the enemy's encampments, and I immediately pushed forward on the City. I feel it right here to observe, that Sir William Parker accompanied me throughout the operations I am about to detail, and from his sound judgment and excellent arrangements I received the most valuable assistance.

Upon our approaching Tsekee and occupying a hill, which commands the Southern face of the walls, and the South gate, the Chinese fired all the guns and ginjals they had for the defence of this gate, but with so little effect, and at so great a distance, that it led me to believe that they (most unaccountably) did not propose to defend the City; and I was confirmed in this conclusion by observing that the ramparts nearest us were unoccupied, while the Segaon hills at the opposite side of the town, on which were their encampments, appeared crowded with troops. Lieutenant-Colonel Montgomerie having with his usual promptitude brought up his guns, I determined at once to take the City by storm, pass through to the North gate, there reunite my force, and carry the enemy's encampments. I was led to this line of operation by the conclusion before mentioned that the Chinese did not mean to defend the City, as well as with a view to expedite the attack on the heights, as it would otherwise have been necessary (to provide for the possible case of the enemy's being in force within the walls) to make a detour out of range through the paddy fields, but my principal object was, to prevent the enemy from falling back on the City, when driven from the hills. In furtherance of these views, I directed the Naval Brigade, with a party of Sappers, covered by the guns and the Madras Rifles, if opposed, to escalade the walls in my front, assemble on the ramparts and move along them to the North gate. The 49th I instructed to move on the South gate, blow it open, and join the Naval Brigade on the ramparts. I had previously ordered the 18th to dislodge a body of the enemy that occupied a hill to the North East of the City, after which they were to move round the walls, out of ginjal range, and threaten the North gate. Should the Naval Brigade and 49th meet with opposition, the 26th were placed in reserve and were directed to move with and protect the guns.

A few minutes placed the Naval Brigade on the walls unopposed, and the whole promptly formed on the ramparts. The Royal Irish meanwhile dispersed the enemy in their fronts and rapidly moved on the North gate: I accompanied the 49th, but finding that the bridge over the canal, close to the South gate, was destroyed, and that it would take some time to replace it, the corps passed along a canal under the walls, and I directed the Naval Brigade to move parallel with it upon the ramparts. The whole force thus soon arrived at the place of assembly, the North gate.

The City of Tsekee is surrounded on three sides with precipitous hills, and the North gate is on a low spur of one of these hills which terminates in an eminence with the walls. At the North Western extremity of a range of high hills, being a branch of the mountains that skirt the coast, are the Segaon or Siguen hills on which were the encampments; both were of considerable extent, and the natural difficulties of the position strengthened by abattis. These camps which as well as the summits of the hills beyond them, were thickly occupied, were within long range of the walls, the intervening space being a tract of paddy fields with a few scattered houses. I at once perceived that the position was faulty, as the hills on our right commanded their left, while their left commanded their right, and I made my dispositions accordingly. The 18th with a Rifle Company 36th M. N. I., were ordered to move up a ravine and occupy a hill to the left of the position. The Naval Brigade was instructed to move under the walls, and occupy two rather large buildings in front of the right encampment, making a lodgement under cover ready to rush forward, when the 18th should reach the summit and turn the enemy's left. With he 49th I proposed to attack at the same moment the largest encampment in my front, my great object being to make a simultaneous attack with the three columns pushing the 18th down in rear, while the Naval Brigade should cut off all communication with the City. So rapid were our movements that only one gun could be brought up, notwithstanding the praiseworthy exertions of Lieutenant Colonel Montgomerie, who dashed his guns into the canal and entered the City by a water gate. This gun was ably brought up and did good execution under the direction of Captain Moore, of the Madras Artillery, who with his party merits great praise for the extraordinary exertions in dragging it through paddy fields and across canals.

The steepness of the mountain gorge, by which the Royal Irish and Rifles ascended notwithstanding the enthusiasm of their advance, occupied more time in surmounting than I anticipated; and finding that the Naval Brigade might probably suffer more by the delay than in an immedite at-ack, and that the enemy appeared to gain confidence by this delay, I ordered the advance to be sounded, when the 49th, with their accustomed spirit, rushed up the hill, overcoming all opposition, and crowned its height within a few minutes, driving every thing before them. From this height it afforded me no small satisfaction to witness the spirited rush of the advance of the Marine Brigade ed by their gallant chief (I am persuaded Sir William Parker will excuse this expression of my admiration) who was ably supported by Captain Bouchier, Commanding the Naval Brigade; Captain

Richards of H. M. Ship *Cornwallis*, and Captain Watson of H. M. Ship *Modeste*, Commanding the Seamen Battalion. The whole Brigade soon reached the summit, carrying the enemy's works. At the moment when the Admiral had nearly gained the height, I perceived a large body of Chinese ascending the back of the hill which he was attacking, apparently ignorant of the conjoint attack, and I directed Major Gough, Deputy Quarter Master General, to push forward with the Grenadiers of the 49th, supported by a Battalion Company, to cut off their retreat. The carnage at the foot of this hill was extraordinarily great: the 49th in rear and the Naval Brigade in front almost annihilated this body, while the remainder of the 49th pressed the retiring enemy (I cannot say his columns) as the whole plain was covered with the dispersed and flying foe. The 18th and Rifles finding that they were too late to participate in the attack on the encampments, rapidly dashed into the plain and cut off the Chinese from their only safe retreat on the Changki pass, killing numbers; and one Company under Lieutenant Bernard followed up the pursuit for several miles towards Yuyaun. The 26th Cameronians, having left one company to protect the guns, pressed forward into the plain, and joined in the pursuit. It was 8 o'clock before the force re-assembled, when we occupied the enemy's encampment where the men found ample bedding and comforts.

Sir William Parker has brought to my notice, in addition to the Captains of the Navy I have already named, the spirited conduct of Lieut. Charles E. Tennant, (Flag Lieut.); Lieut. George Elliott, (slightly wounded); Mr. George H. Hodgson, Mate, (also slightly wounded in a personal rencontre with a Chinese); Mr. Wm. Bowden, Volunteer 1st class, and Mr. Hy. D. C. Cunningham, Secretary's Clerk, all of H. M. Ship *Cornwallis*; also of Lieutenant Harriott, Royal Marines of H. M.'s Ship *Blonde*. The Admiral also noticed (and it came under my own observation) the judicious and well directed fire of rockets by a party under Lieutenant James Fitzjames and Mr. Charles Keates Jackson, Mate, both of H. M.'s Ship *Cornwallis*. These Officers accompanied Sir William Parker with the advance. Lieutenant A. J. B. Hambly, of the Royal Marines, was severely wounded at the head of his company in the advance to the hill.

I cannot too strongly express my entire approbation of the enthusiastic manner in which the whole force maintained their character. Our loss, under Divine protection, was wonderfully small, but the enemy's troops stood well and disputed the hills until in many instances our Officers and men came into personal contact with them.

The conduct of the 49th came more under my personal observation, and I witnessed with great satisfaction the zealous exertions of Captain Reignolds (wounded); Lieutenant and Adjutant Browne; Lieutenants Ramsay and Mitchell of the Grenadier Company; Lieutenant Lane (whose left arm was amputated on the field) and Lieutenant Montgomery (severely wounded in the thigh.) I must also mention with much approbation the conduct of Brevet Captain Balfour, of the Madras Artillery. I almost feel it invidious to name these Officers when I am conscious that every individual zealously did his duty; but as their conduct came under my own eye, I consider it a duty to express my sense of approval.

The exact strength of the enemy I can hardly estimate, as various accounts give it at from 7 to 10,000 men. I conceive it to have been about 8,000 men: they were the elite of the Chinese army, including 500 of the Imperial body guard, remarkably fine men, the Kansuh troops from the frontiers of Turkistan, a strong and muscular race accustomed to border warfare and reputed by the Chinese invincible, and the Shanse troops, for whose arrival Yih-King gave out that he had delayed his attack. Their loss must have been very great, not less than a thousand were killed upon the field or in the pursuit and drowned in the canals; a great proportion of Mandarins fell. These troops not having before met the English, apprehended, I presume, that we should give no quarter; and although the Officers and men showed great forbearance, calling to the Chinese to surrender, very few prisoners were taken. We have, however, three Mandarins, two from Kansuh, and one a Lieutenant of the Imperial body guard.

Fatigue parties from the several corps, together with the available native followers, were occupied in collecting guns, ginjals, and matchlocks left in camp or thrown away during the flight, until 12 o'clock on the 16th, when I set fire to the encampments, and to the several houses that the Chinese had occupied as arsenals. At daylight in the morning I had sent into the town to open the grain magazines to the populace, which eagerly flocked to them, and upon visiting them next morning, I found they had been completely emptied. From these and other causes I could not commence my march before half past twelve o'clock, when the column moved for the Changki pass, which I determined to carry, in order to destroy this, as I understood, formidable position, and capture the treasure chest. After a rapid march of three hours we reached the base of the hills under this pass. The position appeared remarkably strong, indeed, almost impracticable from the front, as the hills are lofty and exceedingly steep and the summits of the ridges were intrenched strongly. But here again as at Segaon, I perceived that the position could be turned, and I at once directed the Royal Irish to ascend the hills on the left of the position, while I moved with the 26th Cameronians, and 49th, supported by the Naval Brigade, and occupied a wooded spur which led up direct to the left of the encampment. On reaching the summit of this spur, I found that the enemy had retreated, taking with him his guns, and I regret to say, his treasure; but a considerable quantity of good bread was discovered, also some ammunition. We halted for a couple of hours, and as there was not sufficient cover for all the troops, the works were set fire to, together with the magazine and a large Joss house where the Mandarins resided The column returned to Tsekee, which we did not reach until nine o'clock that night; all the villages in the neighbourhood of our route were apparently deserted by the inhabitants; but I am happy to say, in no one instance was a house entered on our line of march, along which no trace was left betokening a movement of troops through a hostile country. Indeed, with the exception of a very few killed in houses where the Chinese troops sought refuge the preceding day, I did not see amid the slain one individual that was not habited as a soldier, which, as the peasantry were in many instances intermingled with the fugitives, goes far to shew the forbearance and discrimination of our men even in the heat of pursuit.

On the 17th I returned with the whole force to Ningpo, with the exception of two companies of the 26th, which I sent under Captain Strange, accompanied by Captain Pears, direct to

Chinhae, with a view to ascertain the fact of a canal communication between that place and Tsekee, and to clear the country of any straggling parties of the enemy. This duty was satisfactorily performed, and the detachment rejoined me here on the 18th.

Permit me now to bring to your Lordship's favorable notice the several Officers Commanding Corps who were most zealous in executing and even in anticipating my wishes, viz., Captain Bouchier, Commanding the Naval Brigade; Lieut. Colonel Morris, Commanding 49th Regiment; Lieutenant Colonel Pratt, Commanding 26th Regiment; Major Tomlinson, Commanding 18th Regiment; Captain Watson, R. N., Commanding the Seamen; Captain Uniacke, Commanding Royal Marines, and Captain Simpson, Commanding Rifles 36th Madras Native Infantry.

From Lieutenant Colonel Montgomerie, Commanding the Artillery, and Captain Pears, Commanding Engineer, I received the most zealous support.

I am greatly indebted to Lieutenant Colonel Mountain, Deputy Adjutant General, and Major Gough, Deputy Quarter Master General, for their valuable assistance; and I feel much obliged to Lieutenant Colonel Hawkins, Deputy Commissary General, and Major Moore, Deputy Judge Advocate General, who accompanied me and acted as my personal Staff. Captain Whittingham, my Aid-de-Camp, having been sent to convey my wishes to Sir William Parker, ascended the hill with His Excellency, who speaks most favorably of his exertions.

I cannot too strongly convey my approbation of the zealous exertions of Doctor French, the Superintending Surgeon.

I send this despatch by Lieutenant Montgomery, 49th, who, I am sorry to say, will not, from his wound, be fit for service for a considerable time; he is a most gallant Officer.

I have, &c.

FORT WILLIAM,

SECRET DEPARTMENT, 24TH JUNE, 1842.

The Honorable the President in Council is pleased to direct the publication of the following copy of a Notification by order of the Right Honorable the Governor General, with copy of the Despatch from Major General W. Nott, Commanding the British Force at Candahar, therein mentioned.

NOTIFICATION.

SECRET DEPARTMENT, ALLAHABAD, 11TH JUNE, 1842.

The Right Honorable the Governor General of India is pleased to direct the publication of the annexed copies of despatches from Major General Nott, Commanding the British Force at Candahar.

By order of the Governor General,

T. H. MADDOCK,

Secretary to the Govt. of India,

with the Governor General.

From Major General W. NOTT,

Commanding at Candahar,

To T. H. MADDOCK, ESQ.,

Secy. to the Govt. of India, Calcutta.

Candahar, 12th March, 1842.

SIR,

I have the honor to acquaint you, for the information of the Right Honorable the Governor General of India, that during the month of February, considerable numbers of the rebel forces under the command of Prince Suftur Jung and other Afghan Chiefs assembled in the vicinity of Candahar, plundering the villages, and by every possible means urging the inhabitants to join in an attack upon the British troops. In the beginning of the present month, the enemy approached close to the City of Candahar.

I made the necessary arrangements for the safety of the City, and leaving a garrison of about 2,600 men in it, I, on the 7th instant, moved with the remainder of my force against the enemy. They retired as I advanced; they were driven first across the river Turnuk, and then across the Urghundab. They would not allow our Infantry to come in contact with them. On the 9th, we got near enough to open our guns upon them with great effect; they were soon broken and fled; my want of good Cavalry saved them from being totally destroyed; they were dispersed in every direction.

During a march of five days, opposed to 12,000 of the enemy, who had upwards of 6,000 well mounted Cavalry, continually moving round our column. not a Camel was taken or a particle of baggage lost. The troops marched without tents, both Officers and men, and the conduct of my Artillery and Infantry was excellent.

I think this dispersion of the rebel force will have the best effect, as it will convince the inhabitants that the Chiefs cannot face us in the field with any chance of success. I am now doing all in my power to conciliate the villagers, and to induce them to return to the cultivation of their lands, and to live in peace under the assurance of protection.

During my absence, a strong detachment of the enemy made and attempt on the City, and succeeded in burning one of the gates, but they were repulsed with great loss by the gallantry of the troops in garrison, under the command of Major Lane, of the 2d Regt. N. I., whose report shall be forwarded for the information of Government by the first opportunity.

I am, &c.

Candahar, 29th March, 1842.

SIR,

With reference to the concluding paragraph of my letter to your address under date the 12th instant, I have now the honor of forwarding to you Major Lane's report of an attack made on one of the City gates of Candahar, which was most gallantly repulsed by the Bengal Sepoys, small details from H. M.'s 40th Regiment and from the 4th Company 2d Battalion of Artillery.

Candahar, 12*th March,* 1842.

Sir,

For the information of Major General Nott, commanding, I have the honor to report the following particulars of an attack made upon Candahar on the night of the 10th instant.

During the forenoon of the above date, large bodies of the enemy, Horse and Foot, were observed assembling from all quarters, taking up a position near old Candahar and the adjoining villages; and in the course of the day their numbers rapidly increased, parties from the main body moving round and establishing themselves in front of the Shikarpore gate. As their object was evidently to attack the garrison, the Political Agent directed the inhabitants to shut their shops and remain within their houses, and precautions were taken to secure the gates by piling bags of grain inside.

About 8 o'clock p. m. a desperate attack was made upon the Herat gate, and owing to the darkness of the night some combustibles were placed near it and ignited unperceived, and in a few minutes the gate was in flames. I immediately ordered a party of 100 Rank and File from the 2d Regiment, and a Company from the Shah's 1st Infantry, to support the guard at the gate, and two guns were also placed in position commanding the entrance.

Dense masses of the enemy had now collected at this point keeping up an incessant and heavy fire, which was returned with great effect from the ramparts, but so reckless and daring were the assailants that notwithstanding the fearful havoc among them, eight or ten men actually forced their way, by tearing down the burning fragments of the gate, and scrambling over the bags of grain; these were instantly shot, and their fate, together with the galling fire from the walls, dismayed the attacking party, who retired about midnight after four hours resolute fighting.

Another attack took place at the Shikarpoor gate about 9 p. m., and a similar attempt was made to fire it, which, however, failed, and the assailants were driven back; a small party also approached the Cabool gate, but the garrison being every where on the alert, the enemy was compelled to retire about 1 o'clock a. m. of the 11th, and when the day broke not a soul was visible.

The guards over the several gates were so completely sheltered, that not a single casualty occurred, whilst the well-directed and destructive fire which was maintained for nearly four hours must have done great execution. Upwards of 50 dead bodies were found in and near the Herat gate, and from the determined assault of the enemy who came close up to the walls, their loss must have been immense; report estimates it at 1,000 killed and wounded, and I am informed by Major Rawlinson, Political Agent, that Prince Suftur Jung, Meerza Ahmed, and other Sirdars were present encouraging the assailants.

A considerable quantity of grain was unavoidably destroyed at the Herat gate, but as it presented a strong barrier, I trust the sacrifice will be considered unimportant. This gate has been built up, and the others have been temporarily barricaded with grain bags.

Before concluding my report, I would beg to acknowledge the valuable assistance rendered me on this occasion by Major Rawlinson, Political Agent, and Captain Ripley, Fort Adjutant. The exertions of every Officer and Soldier in garrison were unremitting, and it affords me infinite pleasure to bear testimony to the admirable conduct of all parties during the attack.

Candahar, 28*th March,* 1842.

Sir,

Having deemed it desirable to detach a Brigade under the command of Lieutenant Colonel Wymer, for the double purpose of foraging, and giving protection to the numerous villages along the left bank of the Urghundab river against the marauding system adopted by the rebel army, commanded by Prince Suftur Jung and other Afghan Chiefs, I have now the honor to forward to you, for the information of the Right Hon'ble the Governor General of India, a report from that Officer of an attack made on his detachment, and of the complete defeat of the enemy. I have ascertained that their loss was great, and that several of their Chiefs were killed and wounded, while our loss was comparatively trifling.

On my arrival on the field I was pleased with the judicious arrangements made by Lieutenant Colonel Wymer; and the cool and determined manner in which he opposed the enemy and protected his convoy did credit to our arms, and I beg leave to bring him under the favorable notice of Government.

The enemy were finally driven across the Urghundab in the greatest confusion and with very considerable loss. The Artillery and Infantry distinguished themselves.

I have, &c.

Camp, Baba Wullee, 27th March, 1842.

Sir,

I have the honor to report for the information of Major General Nott, Commanding at Candahar, that in obedience to his instructions, I marched from that place with the force noted in the margin on the morning of the 25th instant, with the intention of foraging for the Cavalry and cattle at the village of Seikhchulah; but on receiving a report from Captain Dallas, that the country thereabouts had recently been foraged over, and the water turned off by the enemy, he suggested the advantage to be derived by a move upon Baba Wullee, which was adopted. On reaching that place I sighted the rebel camp on the opposite side of the Urghundab, distant about four miles, and large bodies of Cavalry grazing their horses between it and the river. I continued my march to the spot selected for my encampment, and shortly after reaching it at ½ past 10, or 11, a large body of the enemy's Cavalry was observed forming and occupying the pass in my rear; on which I reinforced the rear guard with two guns and a wing of the 38th N. I., placing the convoy under the hills in the rear and protecting its front and flanks with the force at my disposal, which had hardly been effected, when finding the force above mentioned fast increasing, I deemed it highly necessary to move back for their dispersion taking with me two Horse-artillery guns under Lieutenant Turner, the 38th Regiment, and a party of Skinner's Horse under Lieutenant Travers, detaching two Companies 38th Regiment to drive the enemy from the tops of some low hills they had crowned with horsemen on my left, which was speedily done, and the well directed fire from Lieutenant Turner's guns soon drove in the body of the enemy collected on the Pass, commanded, I am told, by Salloo Khan and Taj Mahomed, who moved round to join the party then threatening the right flank of the convoy. On this I retraced my steps and rejoined the convoy, which had been left under Lieutenant Colonel McLaren's charge during my absence, and who had dislodged a third body of the enemy from the enclosed gardens and villages in his front with a part of the 16th Regiment. On my reaching the convoy, I directed Captain Macan, Commanding the Shah's 2d Regiment, to move his corps, supported by two guns and the half of Leeson's Horse under Ensign Chamberlain against the party on the right flank, which movement had been partly executed when the force under the Major General's personal command arrived to my support, at the time when the party of Cavalry under Ensign Chamberlain received a partial check from an overpowering body of the enemy, and that Officer was severely wounded, and Lieutenant Travers slightly, who acted in concert with him.

Enclosed I have the honor to forward a return of the killed and wounded on the occasion, and to express my entire approbation of the conduct of all Officers and men engaged in the action.

I trust I may be permitted to bring to the Major General's notice the admirable practice of the Artillery under Lieutenant Turner's guidance, every shot from which told with beautiful effect upon the dense masses of the enemy.

To Lieutenant Waterfield, Adjutant 38th Regiment, who acted as my personal Staff on the occasion, I am much indebted for the very able manner in which he conducted the various duties assigned him.

FORT WILLIAM,

SECRET DEPARTMENT, DATED 24TH JUNE, 1842.

The Hon'ble the President in Council is pleased, by Order of the Right Hon'ble the Governor General, to direct the publication of the following copy of a Notification, dated the 14th instant, with a copy of the Despatch therein mentioned, from Lieutenant General Sir Hugh Gough, K. SECRET DEPARTMENT, ALLAHABAD, JUNE 14TH, 1842.

The Right Honorable the Governor General is pleased to direct the publication of the annexed copy of a Despatch from Lieutenant General Sir Hugh Gough, K. C. B., Commanding the Land Forces in China, as affording honorable testimony to the services of the Bengal Volunteers in that country.

SIR,

I have the honor to acknowledge the receipt of your letter No. 1613, dated 1st November 1841, and to acquaint you, that I have authorized the Officer Commanding at Hong-kong, to embark the two companies of the Bengal Volunteers for Calcutta, as soon as he can, in communication with the Senior Naval Officer on the spot, obtain proper transport accommodation.

2. I beg to assure you, for the information of the Right Honorable the Governor General in Council, that I have consented with much regret to part with the Volunteers, and had their state of health been such in August last, as to admit of my bringing them with me to the Northward, I should have confidently anticipated the same advantage from the services of Major Mee and his fine detachment, that I derived at Canton.

3. Previous to my departure from Hong-kong, and subsequently to the wreck of their transport in the Typhoon of July last, I placed the detachment in Fort Victoria, on the Cowloon Peninsula, and flattered myself that from this time their general health began to amend: but, after my departure, consequent upon the determination of Her Majesty's Plenipotentiary not to occupy the Peninsula, they were removed to Hong-kong, and sickness has unhappily continued amongst them to such degree, that many have died, and nothing perhaps but an immediate return to their native country can save a large portion of the remainder.

4. Deeming it therefore expedient to let them go, I could not permit them to return without this renewed testimony on my part to their gallant services in the field, and to their uniformly good conduct in quarters.
